

CARLSON'S TACTICAL BREACHER CHOKE

Provides An Extra Wide Shot Pattern; Serrated Tip Aids In Door Breaching

Machined steel, extended tactical choke with large diameter bore provides extra wide patterns at close range for home defense or CQB operations. Features a serrated, saw-tooth tip that holds tight against locks and hinges to prevent the muzzle from sliding during forced entry operation. Twelve, equally spaced ports redirect combustion gases to reduce felt recoil and prevent barrel damage when used for forced entry. Knurled gripping surface makes it easy to install and remove the choke without special tools. Precision machined from 1704 stainless steel for maximum strength, then treated with a manganese phosphate finish for improved wear resistance. Models available for Mossberg 835/935, Winchester/Savage/Browning Invector/Weatherby/Mossberg 500, Remington, and Beretta/Benelli shotguns, 12 gauge only. Can be used with lead, buckshot, hevishot, or steel shot without damage. **USA**
SPECS: 1704 stainless steel, manganese phosphate finish, matte black. Fits 12 gauge only.

COLONIAL ARMS SUPER STEEL SCREW-IN CHOKE TUBE FOR STEEL SHOT

Tough, Blued Steel Designed To Take Steel Shot Abuse

Steel shot will bulge even the toughest, thickest shotgun barrel at the choke ruining both barrel and choke tube. Colonial solves the problem by locating the choke beyond the barrel and threads. A Super Steel tube will expand, but all that's damaged is the tube, not your barrel. Just unscrew the tube and replace. **USA**
SPECS: Blued steel. Approx. 2 1/8" (6.7cm) long. 12 ga. only. Threads as follows: Win-Choke® Invisible - .812"-32 tpi. Tru Choke™-style Tru-Tube - .795"-44. Tru-Choke™-style Thinwall are .774"-44.

COLONIAL ARMS SCREW-IN CHOKE TUBES

"Invisible" Replacement Tubes For Popular Screw-In Choke Systems

Beautifully made tubes with an extremely smooth inside finish and an undercut, tube-to-barrel joint to minimize shot and wad fouling buildup. Both Win-Choke® and Tru-Choke™ tubes are "invisible" style, no unsightly "knob" sticks out. And, they can't rust; they are stainless steel. Install/remove with a quarter. **For use with lead shot only!** **USA**
SPECS: Approximately 1 1/2" (3.8cm) long. Stainless steel. Threads are as follows - Thinwall are .774"-44; Tru-Tube 12 ga. are .795"-44, 20 ga. are .675"-44; Tru-Choke™-style; Win-Choke® 12 ga. is .812"-32 tpi.

SCREW-IN CHOKE INSTALLATION REQUIREMENTS

Before accepting a barrel for machining to accept screw-in chokes, you must measure the outside diameter (O.D.) to determine if there will be sufficient wall thickness after machining. "Mike" the O.D. of the barrel and the O.D. of the tap for the particular gauge. Subtract the O.D. of the tap from that of the barrel, divide by 2, and this will give the wall thickness after machining, **providing the O.D. of the barrel is concentric with the inside diameter (I.D.).** A sample calculation appears below.

Barrel O.D. (12 Ga) .850"
Tap O.D. (12 Ga) Win-Choke™ -.814"
.036" ÷ 2 = .018" Wall Thickness

We DO NOT recommend installations in barrels where the resultant wall thickness will be less than .015", providing the I.D. of the barrel is concentric with the O.D. If the I.D. is not concentric with the O.D., you will have to make your own decision as to whether the installation will be safe. In addition, you **CANNOT** install screw-in chokes in barrels whose inside diameters (I.D.) exceed the following dimensions: **10 ga.** - .780"; **12 ga.** - .735"; **12 ga. Thinwall** - .728"; **16 ga.** - .666"; **20 ga.** - .624". Exceeding these dimensions **WILL CAUSE DAMAGED CHOKE TUBES** and there is a **GREAT POSSIBILITY OF CAUSING A BARREL BLOW-OUT!** Check EVERY installation before firing to make sure the tube does not protrude into the bore. Back-bored or jug-choked barrels are usually **NOT** suitable for screw-in choke installation.

NEW! REMINGTON REM-CHOKE TUBES

Convenient Factory Replacements For Lost or Damaged Tubes

Remington chokes are a system of interchangeable choke tubes, extended chokes, and a choke wrench that allow you to quickly and easily change the choke of your shotgun to match specific hunting conditions. Seamless stainless steel construction gives them the strength to handle steel or lead shot without wear or loss of constriction. **USA**

TRULOCK CHOKES TACTICAL CHOKE TUBE

Delivers Excellent Performance From A Variety Of Law Enforcement Ammo

Multi-purpose, screw-in choke tube gives excellent performance with a variety of law enforcement shotgun ammunition, including rifled slugs, buckshot, and breaching rounds. Direct replacement for popular factory screw-in tubes, so it eliminates the inconvenience of having to change the muzzle device for specific applications. Sharply crenelated muzzle provides the proper stand-off distance and secure grip on the surface for use as a breaching device. Won't interfere with performance of buckshot, and preserves the downrange accuracy of slugs. Precision machined from carbon steel, with a knurled surface for easy installation/removal, and a wear-resistant, non-glare black oxide finish. Remington fits Rem™ Choke. Benelli/Beretta fits Mobilchoke™ system. **USA**

NEW! GENESIS ARMS GEN-12 UPPER RECEIVER

Got a Spare AR-308 Lower? Build an AR Shotgun on It!

The Genesis GEN-12 is not the first "AR shotgun" to come out, but it's the first to use a standard AR-308 lower receiver. This upper was specifically designed to mate to any DPMS Gen 1 .308 lower or any other .308 lower sharing the same pattern. Even better for ease of compatibility, the GEN-12 upper will work with either the short DPMS receiver extension (buffer) tube or the longer Armalite AR-10® tube. The heart of the GEN-12 is a short-recoil operating system that cycles the action without a gas tube or piston. The user can tune the cyclic rate by adjusting the buffer weights and springs. The upper will cycle birdshot or magnums and just about everything in between. It reliably feeds both 2 3/4" and 3" shells with a standard short DPMS .308 buffer and spring. However, Genesis does recommend an H3 buffer or a hydraulic buffer when shooting 3" magnums. This upper is compatible with SGM Tactical Saiga 12 choke tubes with external threads (M22x0.75 pitch). Comes with a free-float headguard with M-LOK® slots at 3, 6, 9 o'clock positions, plus a full Picatinny top rail. Due to the shock and recoil from 12 gauge shotshells and the inherent differences in magazine geometry, these uppers come with several parts to replace on the DPMS Gen 1 lower to ensure functionality and compatibility: magazine catch with extra-power spring, bolt catch with EP spring, and anti-rotation trigger pin set. Includes one 5-round magazine. Extra 5- and 10-round magazines sold separately. **USA**

CHOATE COMBAT BOLT HANDLE

Extra Wide, Extra Long Handle Gives Positive Charging For The Remington 1100

Increased size allows you to reach over the receiver and operate the bolt with your "off" hand without taking your finger out of shooting position. Provides extra leverage to help clear a jammed chamber. Reverse contour and open center design gives better grip with gloved hands. Requires no alteration to gun. **USA**
SPECS: 4140 Steel, blued finish. Handle is 1.25" (3.1cm) high, 1/2" (22mm) wide. Fits Remington 1100, 11-87 only.

#159-101-112	Combat Bolt Handle, 9E11D04	\$ 12.99
--------------	-----------------------------	----------

BRILEY TACTICAL SHOTGUN BOLT HANDLE

For Fast, Easy Bolt Cycling

Extra long, easy-to-grasp bolt handle allows fast, positive cycling during tactical operations. Contoured, hour-glass shape provides increased leverage when clearing the action. No modification required, drop-in fit. Models for Benelli SBE/M3, Beretta 303/390/391, and Remington 1100/11-87. Fits 12 gauge only. **USA**
SPECS: Stainless steel, black, oxide finish. Handle - .96" (24mm) long x .5" (12.7mm) diameter.

PERFORMANCE PARTS

**TARAN TACTICAL INNOVATIONS
BENELLI ACCUGUIDE
EXTENDED CARRIER**

Eases Loading And Helps Increase Speed For Competition

Stainless steel extended carrier drops into Benelli semi-automatic shotguns and provides extended rails on both sides that help perfectly center the shell during the reload. Helps make reloading fast and easy and protects your thumb against cuts and abrasions. Installs quickly and eliminates the need to weld together a custom carrier.  **USA**
SPECS: SAE 304 Stainless steel. Fits Benelli M1/M2/M3/SBE and Remington Versamax.

#100-015-582 Benelli Accuguide Extended Carrier, 7Z76B49 \$ 101.99

**TARAN TACTICAL INNOVATIONS
BENELLI SHOTGUN
OVERSIZED BOLT RELEASE**

The Right Size for Defense or Competition

Oversized bolt release button is the perfect size for competition but still small enough to stay out of the way on a tactical or defensive shotgun. Easy-to-hit, large pad helps you get the gun back into action quickly when seconds count. A must-have enhancement for your 3-gun shotgun. Fits Benelli and other brands shotguns that have a similar-design bolt release. **Note:** Installation requires drilling and tapping of the release - #38 drill and 5-40 tap (not included, available separately). Gunsmith installation recommended. **USA**

SPECS: Aircraft-grade aluminum, hard-anodized, matte black OR matte gray finish. 1" (2.54cm) long, 1/16" (1.43cm) wide, 1/8" (.4cm) thick. Requires drilling and tapping for installation.

**BROWNELLS SHOTGUN
ANTI-WALK TRIGGER HOUSING PIN**

Prevents Pin & Housing Movement For Repeatable Trigger Performance

Eliminates pin drift in the receiver holes so your trigger housing stays in the same place for every shot. Slotted, truss head screws at each end of pin keeps trigger housing properly aligned and free of wobble. Helps deliver reliable trigger performance in tactical and competition guns. Remington includes both front and rear, anti-walk trigger pins. **USA**
SPECS: Steel, blued finish. Mossberg - Fits Mossberg 500/590. Winchester - Fits Winchester 1200/1300/1400. Benelli - Fits Benelli Super 90, Winchester Super X and Browning Gold.

#078-000-049 Mossberg Anti-Walk Trigger Pin, 8G6B39 \$ 7.99

**TIMNEY TRIGGERS REM 870/1100/11-87
TRIGGER FIX**

For A Light, Smooth, Adjustable Trigger Pull

Drop-in kit replaces original factory sear and spring for a smoother, lighter, fully adjustable trigger pull that helps you shoot more accurately. Comes with three different weight springs to lower the heavy factory trigger pull to a comfortable 2, 3, or 4 lbs., then fine-tune the pull with the adjustment screw using the included hex-head wrench. Springs are color-coded for easy identification. **USA**
SPECS: Steel sear. Includes 2 lb. (blue), 3 lb. (white), and 4 lb. (red) springs, plus hex-head wrench. Fits Remington 870, 1100, and 11-87 shotguns, all gauges. Also fits 740, 742, 760, 740Q, and 760Q rifles.

#883-000-022 Rem Trigger Fix, 3H00QZQ \$ 102.99

**VOLQUARTSEN REMINGTON 870/1100
EXACT EDGE EXTRACTOR**

An Inexpensive Upgrade For Smooth Function & Long-Term Reliability

Upgraded extractor is EDM cut from high-grade tool steel that's been hardened to Rc 58-60, maintaining your Remington's reliable and dependable function. Cut to tolerances of +/- .0001" with a very precise hook point, and the edges won't get dull and "roll off" with hard use to cause extraction problems, like inferior stamped steel extractors. Drop-in replacement for factory part. **USA**
SPECS: A2 tool steel, hardened to Rc 58-60. Fits both Remington 870 and 1100 chambered for 12 or 20 gauge.

#930-000-144 Rem 870/1100 Exact Edge Extractor, 3Z22Q49 \$ 24.99

**BROWNELLS REMINGTON 1100/11-87
INTERCEPTOR LATCH RETAINER**

Oversized To Minimize Latch Wobble

Thicker-than-factory replacement decreases the amount of play in the latch body to improve feeding and ensure positive operation. Available in three different thicknesses. **USA**
SPECS: Steel, black oxide, matte finish. .025" (.64mm), .030" (.76mm), or .035" (.89mm) thick.

**CARLSON'S
MOSSBERG 590 SHOCKWAVE
PORTED BARREL**

Helps Shooters Ride the 'Wave With Less Shock

Mossberg's Shockwave self-defense shotgun has become wildly popular, and it's great fun to shoot, except... the recoil and muzzle rise can be a bit much for some shooters. So Carlson's came up with this drop-in, factory-length (14") upgrade barrel with 22 ports up front (11 per side) to redirect a bit of combustion gas to counteract muzzle rise AND reduce felt recoil. Takes a lot of the "shock" out of shooting your Shockwave! A green Hi-Viz fiber optic sight up front helps you make the most of your new-found enhanced control over the firearm, and the cylinder bore choke keeps its patterning - and slug friendliness - essentially unchanged. Matte blued finish. For use on 12 gauge Mossberg 590 Shockwaves only. **USA**

#100-027-786 Ported 12 Ga Mossberg 590 Shockwave Barrel, 5E00EKR \$ 204.99

**NU-LINE WINCHESTER 101
FIRING PIN SET**

Better-Than-Factory

Precision machined from stainless steel and heat treated for long life. Big improvement over the factory part. **USA**
SPECS: Stainless steel. Rc 45-50. Includes upper and lower pin and 2 springs. 12 ga. ONLY. Will fit Classic Doubles.

#655-101-000 Win 101 Firing Pin, 12 Ga., 5E51F29 \$ 56.99

**CARLSON'S
REPLACEMENT SHOTGUN BARRELS**

Converts Sporting Pump Shotgun Into A Slug Gun

Smoothbore 18 1/2" barrels quickly convert a Remington 870 or Benelli Nova/SuperNova into a fast-handling slug gun or home defense shotgun. Features chrome-lined bore and Carlson cylinder-bore choke tube installed. **Remington 870** barrels are threaded for standard Rem Choke and have 3" chambers. Does not fit 870 Tactical models. **#155-000-253** has rifled bore. **Benelli** barrels have 3 1/2" chambers and are threaded for Benelli Mobil choke. Both are available with a choice of ramped blade front sight only or adjustable front/rear rifle sights. **USA**
SPECS: 4140 steel, bead-blasted, matte black finish. Chrome-lined bore. 18 1/2" (47cm) long. 3 lbs (1.3kg) wt.

**REMINGTON REM 870/1100
FACTORY REPLACEMENT
BARREL ASSEMBLIES**

**Drop-In Replacements for
Quick Conversion of Your
Rem-Gun To a Different Use**

Big Green is back! After a scary brush with bankruptcy, Remington's factories are humming again, and fortunately the new owners are eager to support legacy products with spare parts. You know how easy it is to take the barrel off your 870 or 1100 for cleaning - and it's just as easy to convert your gun to a new barrel configuration for a different type of shooting with one of these drop-in replacement barrel assemblies. Right now we're offering mostly 12 gauge barrels, with more gauges to come in the future, we hope. 1100 barrels come with three screw-in Rem-Choke tubes. 870 barrels come with the chokes indicated below.

**GFORCE ARMS
MKA 1919 STEEL MAGAZINE**

Rugged Stamped Steel Construction

Excellent economical spares to keep your AR-pattern scattergun doing what it's meant to do: sending pellets downrange to knock over targets OR to make sure you have plenty of firepower in a home defense emergency. Stamped sheet steel mag body with anti-corrosion black finish. Smooth-gliding polymer follower. Fits the following GForce semi-auto shotguns (12 gauge ONLY): GFY-1, GF12AR, GF99, GF99-DLX, GF00, and GFMKX3. Also compatible with the Akdal MKA 1919 shotgun.

**OPSOL MOSSBERG 500/590/590A1/
MAVERICK 88
MINI-CLIP™ SHELL ADAPTER**

**Lets You Shoot Short, Lighter-Recoiling
Mini-Shells in Your Mossy AND Fit More
Round in the Tube**

Looking for an easy, inexpensive way to enhance the capacity and lower the recoil of your 12-gauge shotgun? It's possible with the addition of the OPSol Mini-Clip! This small aftermarket adapter fits easily into the opening located under the receiver of any Mossberg 500, 590 590A1, Shockwave, or Maverick 88 12-gauge shotgun. Once installed, the clip allows for reliable cycling of short, 1¾" personal-defense shotshells, such as those from Challenger and Aguila, straight from the magazine. Want to shoot longer shells? The clip comes out just as easily as it went in, taking mere seconds. Another benefit of the Mini-Clip™ is that by enabling the reliable feeding of mini-shells, it allows smaller-statured and recoil-sensitive shooters to shoot the tried-and-true Mossberg 12 gauge platform without the wrestling with full 12 gauge recoil. No need to hunt down a more expensive 20 or 28 gauge gun. The OPSol folks like to say this: with a Mini-Clip™ and 1¾" ammo, ANY shooter can stay "in the game" without all the pain.

#100-026-444 OPSol Mini-Clip Shell Adapter, 9Z12D79. \$ 15.99

**GENESIS ARMS GEN-12
MAGAZINES**

**Proper "FacTree" Mags
Just Like the One That
Came With
Your Shotgun When
It Was New**

A failure to feed locking up your GEN-12 means game over - in competition or in a more serious, life-or-death venue. Like the headline above says, if you want to make sure your spare mags fit and feed correctly, just get 'em from the factory that made your gun. Molded polymer construction. Accepts 2¾" shells (of course) and most 3" shells, too (test the ammo you want to use for reliability before a critical encounter). Manufacturer guarantees proper fitment in a Genesis Arms lower. Fits most other converted AR-308 lowers with the DPMS Gen1 pattern.

PRO MAG AKDAL MKA 1919 & 1923 REPLACEMENT MAGAZINES

Make Sure Your AR-15 Pattern Scattergun Is Always Ready for Action

Like all detachable magazine-fed firearms, your Akdal MKA shotguns' firepower is limited by having reloads ready at hand, and that means spare magazines! Pro Mag's replacements have reinforced molded polymer bodies, injection-molded polymer followers, and springs formed from heat-treated chrome-silicon steel wire. Pronounced ridges on the exterior make it easy to keep a firm purchase on the mag during removal in insertion into the magwell, so there's no fumbling to prevent you from maxing out your score in a competition stage. Fits 12 gauge ONLY. **MKA 1919** mag accepts 2¾" and 3" shells and has a carbon steel reinforced feed tower. **MKA 1923** mag accepts 2¾" shells only.

SGM TACTICAL SAIGA 12 12-ROUND MAGAZINE

Rugged, Smooth-Feeding, All-Polymer Construction

High-capacity magazine of tough, lightweight polymer composite lets you load up and fire 12 rounds before reloading your Saiga 12-gauge shotgun—ideal for home defense or three-gun competition. Reinforced, injection molded Dupont™ polymer construction ensures durability and a slick, self-lubricating interior for fast, reliable feeding. Raised horizontal ridges on the grasping areas ensure a secure grip when removing and inserting mag into the gun. Removable floorplate for easy cleaning; precision wound steel spring is treated with a corrosion-inhibiting coating for long-lasting protection from rust. Counts as three parts for compliance with U.S. Code Title 18 Section 922(r) part-source requirements.

SPECS: Fiberglass-reinforced, injection-molded Dupont polymer, black, 12 round capacity. Fits Saiga 12 gauge shotguns only.
#100-005-783 **12-Rd Saiga Shotgun Magazine**, 4D50D14..... \$ 58.99

MOSSBERG 590M FACTORY REPLACEMENT MAGAZINES

What Good's Extra Capacity If You Have To Keep Stopping To Reload Mags? Problem Solved.

The 590M wasn't the first detachable box magazine-fed 12 gauge shotgun. But we're pretty sure it is the first that uses double-stack polymer mags to keep the bulk below the receiver to a bare minimum. These are the same Mossberg factory-original magazines that came with your 590M, so you know they'll feed and function reliably. The mag body is molded from tough, reinforced hard polymer that is so slick inside it's self-lubricating, so it keeps the anti-tilt curved-face polymer follower moving smoothly. A heavy-duty ASTM-A-228 music wire spring provides plenty of force to keep that follower - and the shells sitting on top of it moving. A round limiter prevents overloading the mag to preserve spring life. On the outside, that slickness isn't a liability because of the deep, "easy-grip" ridges molded into the surface so you'll get plenty of purchase for fast mag swaps. The floorplate comes off easily for cleaning. Of course, you can't send plastic to do steel's job, so the feed lips are made of hardened steel to they will not crack, break, or otherwise deform if you need to keep a loaded mag sitting for a while. Anti-corrosion black oxide finish on all the steel parts. *For use with 2¾" 12 gauge shells only.*

BROWNELLS "FITS-ALL" SHOTGUN MAGAZINE PLUG

Universal - "Snaps" At Notches To Fit All Gauges & Lengths; Fits More Guns Than Other Plugs - Orange, Poly Plastic

Ever spent the better part of an afternoon "manufacturing" a new magazine plug for a customer? It's a trial-and-error process that keeps the customer happy but makes you poor. With our universal "Fits-All" Plug, all that's required is a simple "snap" at the correct notch to fit all popular shotguns. For those oddball guns with non-standard length magazines, simply "notch" the "Fits-All" with a shop knife at the length required and "snap"! It's that easy! Complete instructions and convenient "Snap-To-Fit Chart" included. Made of unbelievably tough polypropylene with an oversize head to position it correctly in all magazines - Won't slide or rattle. Bright, safety-orange color is easy to see and find. Fast, economical way to help your customers comply with migratory game bird laws.

BROWNELLS SHOTGUN FOLLOWERS

Tough, Durable Replacement For Factory Followers

Lightweight aluminum or stainless steel followers for Remington, Mossberg, and Benelli shotguns. Tough construction holds up to years of competitive and law enforcement shooting and won't wear out after thousands of rounds, break under spring pressure, or degrade when cleaning solvents are used. Bright colors let you see immediately if the magazine is empty. Vented design reduces weight to help promote smooth feeding. Stainless steel (SS) followers are natural finish. Aluminum followers are available in red, orange, green and black, depending on model and gauge.

PHASE 5 TACTICAL LOW-DRAG HIGH-VISIBILITY FOLLOWER

Helps Shell Feed Smoothly; Provides Visual & Tactile Verification of Weapon Clear

Here's a replacement for your 12 gauge scattergun's factory follower that'll help your gun feed more reliably. This follower has about one-third the bearing surface of a standard cylindrical follower. That means less friction and less risk of binding for smoother movement of rounds through a mag tube. Plus, the cutouts provide a conduit for fouling and crud to exit, so if it's been a bit too long since you cleaned the gun, you're less likely to suffer a failure to feed during that critical stage of the competition! The bright color - your choice of red, blue or green - and the center hole help you verify both VISUALLY and by FEEL that the weapon is clear. Machined from 7075 T6 aluminum billet, which is 80% stronger than the much softer 6061 alloy, so these followers will last a long time. 12 gauge only. Fits most shotguns that do not have detents on the magazine tube.

- #100-036-032 **L-D High-Vis Follower**, Red, 1C18M99 \$ 19.99
- #100-036-030 **L-D High-Vis Follower**, Blue, 1C18Q99 19.99

WOLFF STEVENS 311 TRIGGER & HAMMER SPRING PERFORMANCE PAK

Lighten Trigger Pull,
Hammer Weight &
Break-Open Pressure

Lighten trigger pull, hammer weight and break-open pressure with these Wolff springs designed for Stevens 311 series and similar shotguns used for action shooting. Sear spring lightens trigger pull for improved trigger control and the two hammer springs work with the top-snap spring to reduce cocking and break-open pressure for quick, smooth operation. Gunsmith installation recommended.

- #969-000-085 Stevens 311 Spring Pak, 9F15I74. \$ 20.99

NEW!

WILSON COMBAT/SCATTERGUN TECHNOLOGIES REM 870/1100/11-87 EXTENDED MAGAZINE TUBE

Adds One Or Two
Additional Rounds To
Your Remington Shotgun

Machined steel magazine extensions increase capacity without gunsmithing or permanent alterations to your Remington 870, 1100 or 11-87 shotgun. Knurled, threaded collar screws onto the end of the mag tube. Includes high-performance, extended length magazine spring and an unbreakable, high-visibility, nylon follower. **NOTE:** Follower is not grooved to fit newer 870 magazine tubes. The detent in the magazine tube may be filed down for follower fitting. Loop models feature a stationary loop on either the bottom or left side of the extension to accept direct attachment of tactical-style slings without swivels. **QD stud** models include a quick-detach, swivel stud mounted either in the center of the magazine cap or at the front of a plate below the extension to accept slings with quick-detach swivels. All models fit 12 gauge only. **Wave Washer** sold separately, in case you lose the one that came with your extension tube. Hardened spring steel washer is specifically shaped to retain the late-model Remington 870 forend wood using the old-model magazine tube nuts. Enables you to install new model wood onto the older shotguns without having to drill the forend and stake in a magazine tube nut retaining detent. *Can also be used to help retain worn Remington 870 magazine tube nuts.*

SPECS: Steel, gray parkerized finish. Fits Remington 870/1100/11-87, 12 ga. only. **1-Shot** - 2" (5cm) long, **2-Shot** - 6" (15.2cm) long.

MAGAZINE TUBES & PARTS

PHOENIX TECHNOLOGY UNIVERSAL SHOTGUN FOREND

Rugged One-Piece Forend For Tactical Upgrade

Rugged, shock-proof polymer replacement for factory forend upgrades your Remington, Mossberg, or Winchester pump shotgun with a heavily textured tactical forend for home defense or competition. Deep grooves give a secure purchase for fast, positive racking and enhanced recoil control. Installation requires some disassembly of shotgun, including barrel, forend, and forend nut. Mossberg model comes with a forend extender. **USA**
SPECS: Injection-molded polymer, matte black. 1 1/8" (4.7cm) diameter. Remington/Winchester - 6" (15.2cm) long, 5.6 oz. (158g) wt. Mossberg - 6 3/4" (17.1cm) long, 6.1 oz. (173g) wt. Fits Remington 870 - 12 gauge only; Mossberg 500/590/835 - 12 gauge; Winchester 1200/1300 - 12/20 gauge. Mounting hardware and instructions included.

#100-008-788 Remington/Winchester Forend, 3P12B79..... **\$ 15.99**
#100-008-789 Mossberg Forend, 3P12P74..... **14.99**

HOGUE REMINGTON/MOSSBERG TAMER PISTOL GRIP & FOREND

Hand Filling For Maximum Grip & Control

Comfortable, rubber over-molded pistol grip and forend provide maximum performance and recoil control in all types of shooting scenarios. Advanced Tamer technology features an internal Sorbothane cushion that helps dampen felt recoil in the web of the hand. Pistol grip design includes dual palm swells and equally proportioned finger grooves, allowing both right- and left-handed operators to shoot with confidence. Pebble textured rubber surface provides a firm grip even when wet. Models available for Remington 870, Mossberg 500, 590, and 835. Rem. model includes 1 1/8" wide sling loop molded into pistol grip.

SPECS: Molded polymer, overmolded rubber, black. Rem. - Forend is 7 1/2" (19cm) long, 1 1/8" (4.4cm) wide, 1 1/8" (4.4cm) high. Grip - 6" (15.2cm) long, Mossberg - Forend is 7 1/4" (19.7cm) long, 1 1/8" (4.7cm) wide, 1 1/8" high. Grip - 5 1/4" (14.6cm) long.

ARMSTECH, LLC REMINGTON 870 TACTICAL STOCK ADAPTER

Converts Your Shotgun To A Tactical Workhorse

Impact-resistant, Tactical Stock Adapter provides a strong, lightweight coupler to attach pistol grips and CAR-15 style butt stocks to the popular, Remington 870 shotgun. 33% fiberglass-reinforced nylon provides superior strength with minimal weight increase; won't warp, crack, or shrink in extreme weather conditions. Tight-tolerance, molding process ensures proper fit and virtually eliminates unsightly mold seams. Slight, 7° angle drops the butt stock for an improved sight path with barrel-mounted sights. Allows 10" to 13" length-of-pull adjustment when used with a collapsible, "shorty" stock. **USA**
SPECS: Fiberglass-reinforced nylon, matte black. 2 1/4" (7cm) long, 1 1/2" (3.8cm) wide, 3" (7.6cm) high. Includes locking ring and grip hardware. 5 oz. (142g) wt. Fits Rem 870, 12 ga.

#432-000-002 Tactical Stock Adapter, 2C34L84..... **\$ 40.99**

ADVANCED TECHNOLOGY PUMP SHOTGUN TACTICAL SHOTGUN SYSTEM

Improves Control & Handling Convenience

Tough, synthetic stock provides secure handling in all weather conditions. Furnished with adapters and spacers for installation on various Mossberg, Remington, and Winchester pump shotguns. Easy to install, drop-in installation. **USA**

PISTOL GRIP BUTTSTOCK PUMP SHOTGUN FOLDING STOCK

Nylon-resin folding stock quickly flips open/closed for maximum maneuverability and compactness. Pistol grip provides additional control. Latch can be reversed for right- or left- handed shooters. Includes sling swivel.

SPECS: Nylon polymer, black. Pistol grip - 2 1/2" (6cm) wide, 3 1/8" (9cm) tall, 1 1/8" (3cm) thick. Approximately 13 1/2" (35cm) L.O.P. Fits Moss. 500/535/590/835/Maverick 88, Rem. 870, Win.1200/1300. 12 ga. models only.

#019-000-010 Folding Shotgun Stock, 9A72K01..... **\$ 79.99**

HEAT SHIELD

Formed steel with elongated cooling slots protects your hands from burns. Provides a secure, non-slip, grasping surface, plus maximum heat dissipation. Simply slide over barrel and secure with supplied hardware. Black oxide finish matches most shotgun finishes. No gunsmithing required to fit most popular 12 ga. pump guns.

SPECS: Steel, black oxide, matte finish. 13 1/8" (35cm) long.

#019-000-004 Heat Shield, 9A23C99..... **\$ 24.99**

HEAT SHIELD W/GHOST RING SIGHT

Self-centering rear ghost ring with large, .122" I.D. aperture for fast target acquisition. Formed steel with elongated cooling slots protects your hand from burns and provides maximum heat dissipation. Front blade with side guards protects the blade from damage. Easy installation, simply slide over barrel and secure with supplied hardware. Fits 12/16/20 ga. and .410 pump shotguns.

SPECS: Shield - Steel, black. 13" (35cm) long. Sights - Polymer, matte black. Aperture - .122" (3.1mm) ID. Fits 12/16/20 ga. and .410 pump shotguns.

#019-000-018 Heat Shield w/Sights, 9A27L19..... **\$ 28.49**

ARIDUS INDUSTRIES BERETTA 1301 ASA-1301 STOCK ADAPTER

Lets You Upgrade Your Beretta Competition Gun With a Magpul® SGA® Stock

This simple adapter enables you to install the Magpul® SGA® buttstock for the Mossberg® 500/590 on your Beretta 1301 Tactical or 1301 Competition shotguns. So yes, now you can use the best shotgun stock ever designed on one of the best semi-auto shotguns ever built! The point where the stock attaches to the receiver is one of the highest stress points on any shotgun, so any adapter has to be strong enough for the job - and Aridus's is. It's machined from 6061 T6 aluminum and contoured to fit tightly, without unwanted play, and blend smoothly with both receiver and stock. Attachment hardware is made of 4140 steel. Easy to install, and the finished installation looks like the gun came from the factory with the SGA installed. Military-type hardcoat anodized finish on the adapter; Parkerized finish on the steel fastener. The SGA stock easily attaches to the Aridus assembly the same way it does to the Mossberg. Once the SGA stock is installed, your 1301 now has the adjustable LOP, multiple sling attachment points, and unmatched ergonomics that Magpul engineered into it. **USA**

MAGPUL

REM 870/MOSSBERG 500 SERIES SGA™ STOCK & ACCESSORIES

New Versatility For The World's Most Popular Shotguns

Innovative, integrated accessory system lets you apply the "Magpul Method" to make the tried-and-true 12 gauge 870 and Mossberg pump actions into state-of-the-art tactical shotguns exactly fitted to your mission requirements. Major components are made from the same tough, hard polymer Magpul uses for their AR-15 stocks to ensure superb durability under harsh conditions.

SGA STOCK - User-configurable stock offers improved ergonomics, including a spacer system that lets you tailor the length of pull to the individual shooter in 1/2" increments from 12 1/2" to 14 1/2". Ergonomically enhanced grip area is similar to a pistol grip and a recoil-absorbing butt pad delivers excellent control and pointability. Accepts optional cheek risers (sold below) to change the comb height. Both sides have a slot for threading on a 1" wide sling. **SPECS:** Reinforced, hard-molded polymer, Black, Dark Earth, Stealth Gray, or Orange. Rem fits Remington 870, 12 gauge only. Moss fits 12 gauge 500, 590 and 590A1. Mounting hardware and instructions included.

URBINO TACTICAL SHOTGUN STOCK

Improves Comfort & Maneuverability With Body Armor

Pistol grip stock of rugged, fiberglass-reinforced nylon polymer has a short 12 1/2" (31.7cm) length of pull that makes it easy to shoulder and maneuver when you're wearing body armor. The removable, five-position cheek riser helps you position your head for best alignment with an optic while maintaining a solid cheek weld. Pistol grip has ample contact surface with deep horizontal grooves for a secure grasp and excellent weapon control. Shock-absorbing padding on the backstrap helps protect your hand from recoil, while the Limbsaver® recoil pad helps reduce felt recoil. Includes a 1 1/2" slot rear sling loop, plus a stud on the underside for a QD sling swivel.

SPECS: Injection-molded, glass-filled nylon, black, 12 1/2" (31.7cm) length of pull, 2 1/8" (5.4cm) wide, 7 1/2" (19cm) tall with cheek riser at highest elevation, 1 lb., 10 oz. (748g) wt. Mounting hardware and installation instructions included. **Benelli M1/M2** also fits M3, Super Nova, and Super Black Eagle; will not fit SBE II and some older M1 variants. **Benelli M4/M1014** includes forearm.

PHOENIX TACTICAL

KICKLITE TACTICAL STOCK

Built-In Recoil Suppression System Reduces Shoulder Battering

Easy-to-install kit turns an ordinary pump shotgun into an easy-to-control tactical/self-defense gun. Adjustable, six-position, M4-style buttstock has a generous rubber recoil pad and built-in spring-loaded recoil suppression system that reduces felt recoil 40-50%. Aids shooters of all sizes, skill levels, and body types to shoot more accurately, with faster follow-up shots. Ergonomic pistol grip has a non-slip surface to further enhance control. Includes sling swivel adapter and five-shot shell carrier that mounts on either side of stock. Drop-in installation: just unbolt factory buttstock and install the KickLite components with the included mounting hardware. Remington, Mossberg, and Winchester models come with a deeply grooved tactical forend.

SPECS: Glass-reinforced, injection-molded nylon, black. Length of pull adjustment: 11 1/2" to 15". Includes buttstock, shotshell holder, mounting hardware, and instructions. Moss models fit 500, 590, and Maverick 88. Win fits 12 gauge Winchester 1200 and 1300. Saiga fits 12/20 gauge and .410 bore shotguns, as well as 7.62/.308 rifles, in original factory configuration - i.e., guns that have not had the trigger moved forward.

- #100-016-005 Rem 870/12 Ga. KickLite Stock, 3P76E49 \$ 89.99

MESA TACTICAL REMINGTON 870 TELESCOPING STOCK CONVERSION KITS

Gives A Tactical Shotgun M4 Carbine Handling; Optional Recoil Reduction System

Adapter ONLY

Bolt-on replacement stock gives your shotgun the control and adaptability of a collapsible M4 carbine stock. Telescoping, five-position buttstock allows fast length-of-pull adjustment to adapt to body armor and heavy tactical clothing. Aluminum receiver adapter bolts to rear of receiver with included mounting hardware and requires no permanent alterations to your gun. Accepts the included M4 SOPMOD buttstock or any aftermarket stock that fits a mil-spec (1.14" O.D.) buffer tube. Hogue overmolded rubber pistol grip with palm swells and finger grooves bolts securely to the receiver adapter to reduce recoil shock and give the shooter better control. Includes one push-button sling swivel that fits sockets on either side of the receiver adapter.

The **Remington 870 LEO Gen II Adapter** has been completely redesigned for improved comfort, superior handling, and greater versatility in configuration. It is also smaller and more compact. The pistol grip has been angled forward several degrees, similar to the angle of a 1911 pistol grip, to provide more space for the webbing of the operator's hand above and behind the grip. This grip angle allows the use of beaver tail AR-15 grips, such as the ERGO Grip (which is included in the complete LEO Gen II Kit), which many shooters find more comfortable. The endplate engages the adapter low on the sides instead of at the top, so the shooter is less likely to come into contact with the adapter under recoil. And the Gen II comes with Mesa Tactical's innovative (and widely copied) pocket hook loops and sling loops. **Note:** The LEO Gen II positions the buttstock low enough to allow use of the original shotgun bead or iron sights.

Recoil Reducing models combine the low tube position and M4 buttstock with an Enidine hydraulic energy absorber to reduce felt recoil by as much as 70%. Gives you outstanding control to ensure fast, accurate follow-up shots. L.O.P. adjusts from 11 1/2" to 14 1/2" in five, pre-set locking positions. **Stock Adapters** also sold separately; accepts standard AR-15 pistol grips and M4-type carbine receiver extensions. **ALL** fit 12 gauge guns ONLY and come with all the necessary mounting hardware.

SB TACTICAL MOSSBERG SHOCKWAVE & REMINGTON TAC-14 SHOTGUN STABILIZING BRACE

Brings a New Era of Stability to Popular Compact Personal-Defense Shotguns

The BRACE has arrived - for shotguns. All the benefits of SB's famous Brace for AR-15 pistols (and, now, many other rifle-caliber pistols) is also available for the Mossberg 590 Shockwave and Remington TAC-14 personal defense shotguns. Sure, the factory "Bird's Head" handle on these guns looks badass and is functional enough - but these are hard-kicking firearms and sometimes you need some extra support. SB's Stabilizing Brace provides a third point of contact to give you even better control, and a more comfortable shooting experience with these guns. The Brace is made of tough, semi-flexible, elasto-polymer that's darned close to indestructible (you really have to work hard to damage it). It's easy to install, too. The ready-to-assemble kit includes the Pistol Stabilizing Brace itself, a pistol receiver extension, ERGO Flat Top SureGrip, ERGO Mossberg 590 adapter, castle nut, and an adjustable nylon strap. The whole shebang weighs only about 20 oz. The shotgun Brace is available in two styles: **SBM4** closely replicates the look and feel of an M4-type AR-15 buttstock; **SBL** provides the same support in a futuristic-looking, minimalist package. Like all of the company's braces, SB Tactical's shotgun braces are ATF-approved, designed by U.S. veterans, and proudly made in the USA.

NEW! REMINGTON 870/11-87 SYNTHETIC SHOTGUN STOCK

Genuine Factory Replacement Stocks Are All-Weather Tough

The same tough, durable, synthetic stocks that the Remington factory uses on their all-weather, Police, and home defense shotguns. Injection molded from fiberglass-filled, thermoplastic material that's lightweight and stands up to all extreme weather conditions. **Sport** is a classic stock design built for comfort. Includes molded-in checkering on the wrist and forend for an improved gripping surface. Neoprene rubber recoil pad helps reduce felt recoil for better follow-up shots. Includes rear sling swivel stud. **ShurShot™** has an extra-large thumbhole, plus both left- and right-side palm swells and cheek rests for comfortable ambidextrous use. Raised comb provides perfect eye alignment with scopes or iron sights. Advanced Supercell™ recoil pad sets a new standard in recoil reduction with an amazing 54% less felt recoil than an autoloader with standard factory pad. Helps prevent flinching for quick, accurate follow up shots, and ensures all day shooting comfort. Molded-in texture on the wrist and forend allows a non-slip grip. Includes molded-in rear sling swivel stud. *Stocks fit 12 gauge guns ONLY, unless otherwise specified.*
SPECS: Nylon plastic, as-molded finish. Sport - Available in black only. Factory drop at comb and length of pull. Includes buttstock, forend & rear sling swivel stud. Police stock does not include sling swivel stud. 1 lb. 5 oz. (595g) wt. ShurShot - Available in black or camo patterns listed below. Factory length of pull. Includes buttstock, forend, and rear sling swivel stud. 1 lb. 6 oz. (624g).

SB TACTICAL REMINGTON TAC-13 SBA3 & SBA4 PISTOL BRACES

Provides Extra Comfort, Stability & Control When Shooting Your TAC-13

The comfort, control, and shootability improvements of SB's AR-15 pistol braces is now extended to the TAC-13 self-defense shotgun! These kits contain everything you need to "brace yourself" for easier, more comfortable shooting of your '13. The minimalist **SBA3** provides plenty of support with as little bulk as possible. It offers 5-position length-of-pull adjustability (9.5" to 11.5") for the perfect fit - and it still offers all the enhanced weapon support from the forearm of the original AR-15 pistol Brace. It has ambidextrous QD sling swivel sockets, and of course the nylon forearm strap is nicely adjustable. Compact, too - the entire SBA3 is only 6.1" long and weighs slightly under 7 oz. A mil-spec AR-15 carbine receiver extension is included. **SBA4** - If you want your TAC-13 to have even more of an AR-15 feel to it, go with the SBA4 brace, which is shaped and proportioned more like a skeletonized M4 carbine stock, with a more comfortable cheek weld and a balanced feel. 10" to 12" LOP. Both models come with all necessary hardware, including receiver adapter, and Ergo flattop SureGrip pistol grip.

GG&G MOSSBERG SHOCKWAVE SIDE-SADDLE SHELL HOLDER

Fast, On-Weapon Access to Spare Rounds for Your Tactical Shotgun

The GG&G Side-Saddle Shell Holder gives you quick access to extra ammo during fast-moving tactical situations. It positions the shells at a 15° angle to match the angle of your hand, making loading the magazine or chamber even faster. With the Side-Saddle Shell Holder, shells can also be positioned with the base up or down to match your reloading style. Holding 5 rounds, the Side-Saddle fits the 12 gauge Shockwaves ONLY. It's only 6.5" long and constructed of high-grade 6061 T6 aluminum, so it's strong and lightweight, with cutouts in the non-load-bearing areas to keep weight to a bare minimum. Installation requires no permanent modifications to the gun.

STRIKE INDUSTRIES MOSSBERG 590/590A1 & REMINGTON 870 VOA HANDGUARD

Is Discretion the Better Part of Valor? It IS When You Put This Forend on Your Shotgun!

Strike's "Valor of Action" aluminum forend brings the robustness and feel of an AR-15 handguard to the two most popular tactical/competition/self-defense shotguns. Contoured cuts on the fully dehorned surface give you a superb consistent grip that won't shift as you cycle the action. Front and rear hand stops ensure your hand doesn't move until you want it to! Ten

(10) M-LOK® slots give you plenty of access-mounting options. Extra overall length gives you a larger grasping surface for better control and more leverage for cycling a fresh round into the chamber - yet will not interfere with receiver-mounted side-saddle shell holders. Rugged ALL 6061 T6 aluminum with a tough hardcoat anodized finish. Installation hex wrench included. Factory heat shields must be removed to install the VOA - but don't worry, the VOA's aluminum construction covers for it! **Mossberg** fits 12 gauge 590/590A1 shotguns. NOT compatible with 500, 535, 590 Shockwave with 14" barrel, Maverick 88, or AOW models. **Remington** fits 12 gauge 870 only.

ARIDUS INDUSTRIES Q-DC QUICK-DETACH SHOTSHELL CARRIER

Carrier 6 Spare Shells on the Gun When You Need Them; Snaps On & Off Gun in an Instant

Carrier detached from Adapter

Aridus re-engineered the classic receiver-mounted spare-shell carrier to make it more effective and more versatile. Of course, the Q-DC "Quick-Detach Carrier" lets you carry 6 spare rounds right on the side of the receiver. The innovation lies in the adapter that attaches to the shotgun's receiver and the detachable carrier unit that snaps into it. When you don't need the carrier, simply detach it from the adapter and go to the range - no laborious process of removing your gun's hammer and trigger pins to get the carrier off. The carrier unit itself has stainless steel retention springs to put a generous bear-hug on the shells so they will not pop off under recoil. You can position the shells brass up or brass down, and you can even leave the carrier loaded without loss of spring tension. For the ultimate in speed an versatility, you can get spare carrier assemblies and swap an empty one for a fully loaded between stages. The Receiver Adapter is machined aluminum and built strong enough to handle extreme use. Steel latch and torsion spring ensure the carrier stays in place on the adapter. Other features: blind tapped holes that can't be over-tightened and a serial number window to make life easier for law enforcement armors who need to keep tabs on individual weapons. The carrier is also made of aluminum to provide secure metal-on-metal contact with the adapter; grooves at the rear give both visual and tactile indication of the carrier's orientation for easy mounting to the adapter.

All kits are for 12 gauge shotguns only and include the adapter AND one shell carrier. Remington 870 model will also fit 1100 and 11-87 shotguns; you may have to trim some material from the forend. Mossberg fits 500 and 590 shotguns. Universal model will fit the Beretta 1301, Benelli M2 and M4, Mossberg 930, and many similar shotguns. It mounts to receiver with Very High Bond 3M double-sided tape with adhesive that has an operating temperature of -30° F. to +230° F, so failure due to temperature extremes is a non-issue. Large cutout in adapter allows access to receiver pins so the user can still disassemble the shotgun. Not for use on Remington 870/1100/11-87 or Mossberg 500/590.

Brownells Gun Tech™ Note: If your shotgun's forend extends beyond the edge of the receiver when the action is opened, it may interfere with the Q-DC. In most cases, trimming of some material from the forend will solve the problem. The Q-DC is compatible with both Magpul and Surefire forends, and will not interfere with the Magpul single-point sling adapter. **USA**

MESA TACTICAL RECEIVER MOUNT SHOTSHELL HOLDER

Sidemount (SM)

Picatinny Rail (PR)

Puts Extra Shotshells Right Where You Need Them For Fast Loading

Rugged and lightweight, aluminum shell holders put extra 12 gauge shotshells on the left side of the receiver for fast tactical reloads. Shells are held in place with a unique, internal Santoprene™ elastomer rib that securely retains even heavy slug shells during vigorous movement or heavy recoil. Available in sidemount (SM) or Picatinny rail (PR) configurations. All necessary installation hardware, tools, and instructions included.

Remington 870/1100/11-87 Sidemount is available in 4-, 6-, and 8-round capacities and uses steel-on-steel, threaded adapters that replace the trigger group pins to anchor the shell holder securely to the receiver. Remington 870 shotguns require a shortened, tactical-style forend to accommodate the 6- and 8-round sidemount units. Remington 1100/11-87 require minor forend alterations to fit the 8-round model. Approx. 1 1/2" (3.8cm) high. Lengths: **4-Rd - 5 1/4"; 6-Rd - 6 1/4" (15.8cm); 8-Rd - 7 1/4".**

Remington 870/1100/11-87 Picatinny is a 6-round model that features an integral Picatinny rail for mounting sights, optics, or other accessories. Wraps around the top and mounts to both sides of the receiver using the same type of attaching system as the sidemount model. Fits Remington 1100/11-87 without modification; requires use of shorter than factory length forearm when used with Remington 870. 7" long x 2 1/2" high. 7.6 oz. wt.

Mossberg Sidemount is a 6-round unit that attaches in the same manner as the Remington Sidemount. Fits Mossberg 500/590/835. 6 1/8" long x 1 1/2" high, 5.2 oz. wt.

Benelli models all have an integral Picatinny rail and mount to the top of factory drilled/tapped receivers. M1/M2 holds 6 rounds (requires drilling/tapping receiver for M1). 6" long x 2" high, 7.4 oz. wt. M4/M1014 available in 6-Rd (6" long x 2" high, 7.5 oz. wt.) and 8-Rd (7 1/4" long x 2" high, 9.5 oz. wt.). Supernova holds 4 rounds, 8" long x 1 1/4" high, 6.2 oz. wt. **USA**

SPECS: 6061 T6 aluminum, anodized, matte black. For 12 gauge only. All models include mounting hardware, rubber gasket, and installation instructions. **NOTES (for table below):** * Requires use of shorter forend on Rem 870. + Requires minor forend alterations to fit Rem 1100 & 11-87. † Requires drilling & tapping receiver to fit Benelli M1.

SCATTERGUN TECHNOLOGIES

SIDE-SADDLE SHELL HOLDER

Attaches To Receiver; Puts 6 Additional Shells Right At Your Fingertips

Puts 6 additional shots right next to your hand for faster reloads. Balances the extra weight between your hands for no change in shouldering and aim. Attaches easily to Remington 870, 11-87 and 1100, 12 ga. receivers with threaded trigger-plate pins. **USA**

TACSTAR SLIMLINE SIDESADDLE SHOTSHELL HOLDER

Keeps Shells at the Ready for Fast Reloads or Top-Ups

Here's a simple upgrade that not only increases the versatility of your tactical shotgun, but it gives you a place to hang some extra ammo for quick, easy access. Ultra-rigged, lightweight aluminum mount straddles the shotgun's receiver for a rock solid fit that won't rattle loose under recoil. Constructed of a proprietary material, the sidesaddle shell holder keeps 6 extra rounds secure and at the ready, yet its low profile won't snag on gear, clothing, or vegetation. Fits 12 ga. shotguns only. **USA**

TACSTAR SIDE SADDLE SHELL HOLDER

Mounts To Receiver; Holds Extra Rounds For Quick Reloads

Lightweight, molded-nylon shell carrier puts additional fire power quickly within your reach. Aluminum mounting plate attaches to the side of the receiver using the existing pin/screw holes—no permanent alterations or gunsmithing required. Four- and six-round models available for a variety of popular law enforcement shotguns. Rem. 870/1100/11-87 ESN has a convenient window in the mounting plate that leaves the weapon's serial number exposed for viewing with the shell holder installed. Designed for armors and law enforcement agencies who track their firearms by serial number for inventory, maintenance, and record keeping. **USA**

SPECS: Shell Holder - nylon plastic, black. Mounting Plate - aluminum, black, matte finish. 6 1/4" (17cm) long, 5.3 oz. (152 g) wt. (6-round). Includes mounting screws, pins and instructions. Field-grade forends that extend onto the sides of the receiver must be modified or replaced to provide adequate clearance for 6-shot shell holders.

VANG COMP SYSTEMS REM 870/1100/11-87 DETACHABLE SIDE AMMO CARRIER

Receiver-Mounted Carrier Puts 6 Additional Shells At Your Fingertips

Lightweight shell carrier puts six additional shots within easy reach for fast reloads. The DSAC (Detachable Side Ammo Carrier) features an aluminum backing plate that secures to the receiver with the included replacement trigger pins and features. A hook-and-loop attachment system enables fast installation and removal of the separate shell carrier. Elastic webbing holds shells tight even when wet. Cut-out in mounting plate allows viewing of receiver serial number. Deluxe model come with two shell carriers. Additional shell carriers available separately. **USA**

SPECS: Fits Remington 870/1100/11-87, 12 gauge only. Aluminum side plate, anodized, matte black. Stainless steel pins, natural finish. Elastic web shell holder, black. 6 1/4" (17cm) long x 1 1/2" (3.8cm) wide. 3.5 oz. (99g) wt.

OPSOL MOSSBERG 500/590/590A1/MAVERICK 88 MINI-CLIP™ SHELL ADAPTER

Lets You Shoot Short, Lighter-Recoiling Mini-Shells in Your Mossy AND Fit More Round in the Tube

Looking for an easy, inexpensive way to enhance the capacity and lower the recoil of your 12-gauge shotgun? It's possible with the addition of the OPSol Mini-Clip! This small aftermarket adapter fits easily into the opening located under the receiver of any Mossberg 500, 590 590A1, Shockwave, or Maverick 88 12-gauge shotgun. Once installed, the clip allows for reliable cycling of short, 1 3/4" personal-defense shotshells, such as those from Challenger and Aguila, straight from the magazine. Want to shoot longer shells? The clip comes out just as easily as it went in, taking mere seconds. Another benefit of the Mini-Clip™ is that by enabling the reliable feeding of mini-shells, it allows smaller-statured and recoil-sensitive shooters to shoot the tried-and-true Mossberg 12 gauge platform without the wrestling with full 12 gauge recoil. No need to hunt down a more expensive 20 or 28 gauge gun. The OPSol folks like to say this: with a Mini-Clip™ and 1 3/4" ammo, ANY shooter can stay "in the game" without all the pain. **USA**

#100-026-444 OPSol Mini-Clip Shell Adapter, 9Z12A79 \$ 15.99

CSP WOOLY SNAP CAP

Prevents Firing Pin & Rust Damage

Spring-loaded primer plunger prevents firing pin damage during dry-firing exercises. Treat the wool, chamber mop with your favorite gun oil to help prevent rusty chambers during storage. **USA**

**BIRCHWOOD CASEY
BERETTA A400 XCEL
TS-A400 SHELL CATCHER**

**Catches Shotgun Empty;
Saves Them For Reloading**

Simple polymer clip stops cases in the ejection port for easy removal. No more bending/stooping to pick up cases or losing them to ranges with "If it hits the ground, it's ours" policies. Snaps easily to side of receiver just below the ejection port; snaps off when you need to cycle more than one round, as when shooting doubles. Separate models for the base

- A400 Xcel and A400 Xcel Multi-Target 12 gauge shotguns. **SPECS:** Spring steel, plastic coated, black. Fits 12 gauge.

TRIPLE-K DELUXE SNAP CAP FOR SHOTGUNS

Save Firing Pins - Shoot Better With Safe, Dry-Fire Practice

<<<<<<Pls crop foto to match 66:205 (note that the full version of the foto is used in another copy block.>>>>>>The spring-loaded "primers" in these snap caps act much like a live primer and cushion the blow so firing pin and bushing damage won't occur. Bright color and "different" feel to prevent mixing with live rounds or function-testing dummies. (Don't use snap caps as dummies - they don't duplicate loaded round weight/balance). **SPECS:** Brass base, plastic body.

**BROWNELLS
SHOTGUN DUMP POUCH**

For Fast, Easy Reloading During Competition

Heavy duty, 1000 denier Cordura® nylon pouch hangs at high level for quick, easy access to your shells when shooting trap, skeet, and clays. Durable, doublestitched partition divides the pouch into two separate compartments, one to hold a box of shells for 25-round competition, the other to store empties. Side mounted pocket is ideal for storing your shooting glasses, extra choke tubes or other gear and includes an overlap-ping cover with hook-and-loop latch for a tight seal that won't open unexpectedly. Conveniently located elastic shell holder stores up to three extra shells for quick access. Brass coated "D" ring allows attachment of additional accessories like ear muffs or range cloth. Adjustable belt provides a custom fit to any size shooter. **SPECS:** Pouch - 1000 denier Cordura nylon, brown. 7" (17.8cm) long, 5" (12.7cm) wide, 8" (20cm) high. Pocket - 4 1/4" (10.8cm) long, 1" (2.5cm) wide, 7" (17.8cm) deep. 20 oz. (567g) wt.

**BROWNELLS MOSSBERG 500
HIGH-CAPACITY SHOTGUN KIT**

Converts Your Field Gun To A Personal-Defense Workhorse

High-quality OEM components help you transform a work-a-day Mossberg 500 sporter into a reliable, high-capacity, self-defense shotgun. You get a 12 gauge 20" barrel that accepts 3" magnum shells and features a fixed cylinder choke for maximum pattern coverage at self-defense ranges. Extended magazine tube gives you an authoritative 8-rounds of firepower, while the knurled takedown screw anchors it to the barrel, eliminating the need for an after-market barrel clamp. Extended-length magazine spring included to ensure reliable feeding. Choose a simple, brass **Front Bead Sight** for fast, instinctive sight acquisition or **Rifle Sights** (white front bead and adjustable U-notch rear) that give rifle-like accuracy when shooting slugs. The best part? ALL of these parts come from the Mossberg factory, so you can be sure of a drop-in fit to your gun! **SPECS:** Kit fits Mossberg 500, 12 gauge receivers only. Barrel - Hardened carbon steel, matte blue finish. 20" (51cm) long. 12 gauge, 3" magnum chamber, smoothbore, fixed cylinder choke. Magazine Tube - Steel, blued finish, 8-rd capacity.

TACSTARSHOTGUN BARREL SHROUD

Prevents Contact With Hot Barrel

Stamped, all-steel handguard clamps quickly to plain barreled, self-defense shotguns and protects your hands from contact with a hot barrel. Requires no permanent alterations and adds only a minimum amount of extra weight. **SPECS:** Steel, blue, matte finish. 14" (35mm) long. Fits most non-ribbed, 12 ga. barrels. Includes instructions.
#867-102-012 Barrel Shroud, 5K32P49..... \$39.99

**FALCON INDUSTRIES ERGO GRIP®
SURESTOP HANDSTOP**

**Fast, Precise, Tactile Hand Placement
On Railed Forends**

During competition or a tactical situation, you can't afford to lose time fumbling to position your hand on the forearm, or, worse yet, have it slide off when racking a pump action shotgun. This rubber-coated, ergonomically shaped handstop attaches to any Picatinny rail forend to provide precise, tactile indexing of the support hand, so you keep your eyes on the target while mounting the weapon. Helps keep hand in position during recoil, too, for fast follow-up shots. Dual cross-bolts clamp the stop tightly to the rail for a solid, movement-free installation. **SPECS:** Synthetic-rubber coated molded polymer, black. Steel cross-bolts, oxide finish, matte black. 1 1/4" long x 1 1/4" wide at base. Extends 1 3/4" (4.5cm) below rail.
#573-000-052 SureStop Rail Handstop, 3G10D19..... \$11.99

**GG&G
SHOTGUN SLING MOUNT**

**Secure Sling Attachment With Smooth,
Unrestricted Movement**

Designed for tactical operations, these mounts place the rear sling attachment point in front of the operator, so you can quickly shoulder your weapon without getting tangled. Allows single point sling attachment, or use with a front sling mount for two-point sling installation. Loop accepts slings up to 1 1/4" wide. **Rear Mount** installs directly behind receiver, in front of buttstock. Precision machined from aluminum billet, then hardcoat anodized matte black. Right hand model for Remington 870, 1100, and 11-87 positions sling on left side of stock. Ambidextrous (Amb.) model for Remington 870, 1100, and 11-87 accepts HK-style clasps and other clip-on sling fasteners. **Rem Front Mount** positions the sling on the right side for shotguns with external retention type magazine caps; a ball-bearing detent locks mount into magazine cap to prevent rotation. **Moss Rear** mounts fit Mossberg 590/590 and are available with a slot that accepts a sling up to 1 1/2" wide, a loop for HK-style clip-on slings, or a socket for a single-point, QD pushbutton sling swivel (swivel included). **SPECS:** **Rem Rear Mount** - Aluminum, matte black. 1/4" (6.4mm) long, 1 1/2" (4.6cm) wide, 1 1/8" (4.8cm) high. Fits 870/1100/11-87, Right Hand only. **Rem Ambi Rear Mount** - Aluminum, matte black. 1/4" long, 2 1/4" (5.7cm) wide, 1 1/8" high. Fits 12 gauge Rem 870/1100/11-87. Also fits large-frame 20 gauge Rem. 870. **Rem Front Mount** - AS-35 Geneva steel, matte black. 7/8" (2.6mm) long, 2 1/4" (5.6cm) wide, 1 1/2" (3.8cm) high. Fits 870/1100/11-87 with early style external retention magazine caps. Moss - all models fit Mossberg 500/590.

**MAGPUL SHOTGUN
FORWARD SLING MOUNT**

**Support For Extended Mag Tube &
Mounting Point For Tactical Slings**

This dual-purpose sling attachment point is also a clamp that keeps the barrel and extended magazine tube securely tied together. May be configured for use with pushbutton QD sling swivels or single-point, clip-on sling loops, including Magpul's MS3 Paraclip™, HK-style clips, and ITW™ MASH hooks. All-steel construction with tough matte black Melonite® finish. **Rem/Moss** fits Remington 870 and Mossberg 500/590/Maverick. Separate model for **Mossberg 590A1**. Both models fit 12 gauge only. **SPECS:** Steel, black, Parkerized. 2 1/2" (6.3cm) high, 1 1/2" (3.8cm) wide.
