**APEX TACTICAL  
SMITH & WESSON K/L/N REVOLVER  
EVOLUTION IV DAO HAMMER**

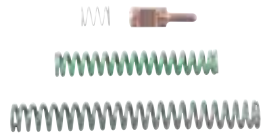

**Converts Your Wheelgun To a DAO Trigger  
& Lets You Adjust Pull Weight**

The Apex Evolution IV replacement hammer converts your Smith & Wesson revolver to double-action-only (DAO) operation, while also enabling you to fine-tune your gun for a lighter double-action pull weight. Simply adjust the strain screw for lighter main spring force, without sacrificing reliability. Lacks a hammer spur, so ideal for a concealed-carry gun. CNC machined and wire-EDM cut from heat-treated 17-4 PH stainless steel, then surface ground to ensure precise dimensions for consistent performance. Semi drop-in replacement for the factory hammer - some gunsmith fitting may be required. **US**  
**SPECS:** Works in Smith & Wesson centerfire revolvers manufacturer after January 2012, including Performance Center models. Separate models for **K-/L-Frame** and **N-Frame** revolvers. Kits include replacement hammer, sear, stirrup and pins (pre-installed), sear spring, and 2 rebound slide springs (.160" and .165" dia.).  
**#100-018-576 S&W K-/L-Frame Hammer, 7F144B39 . . . \$ 151.99**  
**#100-018-577 S&W N-Frame Hammer, 7F144N39 . . . . . 151.99**

**APEX TACTICAL  
S&W J-FRAME DUTY/CARRY KIT**

**Improve Your J-Frame's  
Trigger Pull**

Replacement parts kit reduces S&W J-Frame trigger pull weight by as many as 3 lbs. No fitting or modification required. Easy trigger pull helps increase firing speed and accuracy. Includes reduced-power springs, and replacement firing pin. **US**  
**SPECS:** Kit contains replacement main spring, rebound slide spring, firing pin, and firing pin spring. Fits all modern centerfire J-Frame revolvers with frame-mounted firing pin.  
**#100-007-219 S&W J-Frame Duty/Carry Kit, 7F22D49 . . . . . \$ 24.99**

**CYLINDER & SLIDE S&W REVOLVER  
EXTRA LENGTH FIRING PIN**

**Gives Reliable & Consistent Ignition**

.015", extra-length pin lets you use the lightest possible mainspring weight and still achieve consistent and reliable ignition. Improves firing pin strike on new model revolvers with the frame mounted firing pin. Drop-in fit. **US**  
**SPECS:** Special steel, in the white. Heat treated to factory specs. .510" (12.95mm) OAL. .210" (5.33mm) pin length. .071" (1.79mm) pin diameter. Fits J, K, L and N frames.  
**#206-000-010 Ex Long S&W Firing Pin, 6K14C44 . . . . . \$ 16.99**

**HOGUE S&W REVOLVER  
EXTENDED CYLINDER RELEASE LATCH**

**Unlock Cylinder Without Repositioning  
Grip Hand For Fast Reloads**

Oversized, extended cylinder release latch allows you to unlock the cylinder without having to reposition your grip hand. Ensures fast reloads for an extra edge in competition. The extended arm's unique geometry maximizes leverage and allows the shooter to bring substantially greater force to bear with less movement than needed to operate the factory latch. Oversized thumb pad with deeply grooved face offers solid, nonslip contact and is angled to further improve leverage. **Standard** model is a short, compact design that fits most shooters with average hand size. **Long** model is slightly longer to accommodate shooters with small hands.  
**SPECS:** Stainless steel. **Standard** - .98" (25mm) long, **Long** - 1.24" (31.5mm) long. Fits Smith & Wesson K, L and N frame revolvers. Some fitting may be required.  
**#408-000-090 Standard Extended, 8K00NIF . . . . . \$ 76.46**  
**#408-000-071 Long Extended Latch, 8K00BPB . . . . . 76.46**

**POWER CUSTOM CYLINDER & YOKE  
ENDSHAKE BEARINGS**

**Quickly Eliminates Excess  
Cylinder/Yoke Endplay**

It's easy to eliminate excess cylinder and yoke endplay with these stainless steel bearings. Made by pistolsmith Ron Power as an alternative to stretching the yoke. Whether rebuilding worn guns or building custom ones, these will help turn out a 1st-class job. Each pak contains 10 bearings of 1 thickness. **US**  
**SPECS:** Hardened 302 stainless steel. **Cylinder Bearings** - see chart. **Yoke Bearings** - .002" (.051mm) thick for S&W K,L,N.

**POWER CUSTOM S&W REVOLVER  
CUSTOM TRIGGER KIT**

**For A Smooth,  
Consistent Trigger Pull**

Precision-machined replacement for factory trigger in current-production Smith & Wesson K/L/N/X-frame revolvers has a diamond-ground single action sear and hand finished contact surfaces for a smooth, consistent 2 1/4 to 2 1/2 lb. single action pull. Trigger face is rounded and polished smooth for the serious competitor. EDM and CNC machined from a solid billet of tool steel, with a spring steel trigger lever. Comes with hand torsion spring and hard pins installed. Trigger stop pin requires fitting for overtravel stop on double and single action revolvers. Extra metal in the right places for precise gunsmith fitting. **US**  
**SPECS:** Trigger - Tool steel, in-the-white, polished. Trigger Lever - Spring steel. 4" (10.2mm) wide shoe. Kit includes trigger, 12 lb. trigger rebound spring, (2) trigger shims, and (2) trigger stop pins (one extra). Fits current-production Smith & Wesson K, L, N, X frame revolvers with factory trigger.  
**#713-000-101 Custom Trigger Kit, 3A123G29 . . . . . \$ 136.99**

**POWER CUSTOM  
SIDEPLATE SHIMS**

**Improves S&W Trigger Pull  
- Smooths Function**

By taking the "stop" out between the S&W hammer or trigger and the sideplate, you can smooth up and improve trigger pull significantly. Fits S&W K, L & N frame only. **US**  
**SPECS:** 302 Stainless steel, .002" (.0508mm) thick. Two models; **#1** for S&W hammer pivot; **#2** for S&W trigger pivot. Pak of 10.

**POWER CUSTOM  
SMITH & WESSON K/L-FRAME REVOLVER  
TARGET HAMMER**

**Machined Steel So It'll Take a Proper Gunsmith  
Action Job; Oversized Target Thumb Pad**

Upgrade replacement for the factory hammer sports a wide thumb pad with deep, non-slip "golfball" texturing that target shooters will love. More importantly, this hammer will allow the custom gunsmith to perform the necessary action job to produce a refined trigger pull and crisp, consistent hammer release. The factory hammer is an MIM (metal injection molded) part - so basically produced just like plastic, only in metal. This material will not hold the custom honing and stoning required for a proper trigger job. Power Custom's part is machined and wire-EDM cut from solid stainless steel bar stock, so once the contact surfaces are honed and polished, they will not wear down for a long time. Assembly includes the double action sear and pinned-in mainspring stirrup; the left side of the hammer has the cut for S&W's action lock. Fits post-1994 K and L frames with the firing pin on the frame (NOT on the hammer nose). Gunsmith fitting may be required. **US**  
**#713-000-179 K/L-Frame Target Hammer, 3A00ELR . . . \$ 169.99**

**POWER CUSTOM S&W K/L/N REVOLVER  
HAMMER NOSE KITS**

**Helps Prevent Misfires Caused  
By Light Hammer Strikes**

Spring-loaded, extra-long hammer nose requires less hammer tension without sacrificing reliability. Provides consistent, positive ignition and helps prevent misfires caused by weak primer strikes. Also allows you to use a reduced-power mainspring, resulting in lighter, smoother trigger pull. Fully machined - not stamped - from S7 tool steel using wire EDM and CNC milling processes to ensure precision fit and long service life. Heat-treated and case-hardened to outlast damaged or worn factory versions. Kit includes rivet and spring. Spare hammer nose rivets sold separately. May require some fitting. **US**

- #713-000-167 K Frame Hammer Nose Kit, 3A45K59 . . . \$ 47.99**

### POWER CUSTOM COLT SINGLE ACTION ARMY TRIGGER

Restore Your Old Single Action Revolver's Trigger

Machined steel replacement for factory trigger has extra metal in the right places to resist breakage. Sear contact surface and other contact areas are oversized to allow gunsmith fitting for a tight action, smooth pull, and crisp letoff. Uses existing sear and spring. Constructed of heat-treated carbon steel, blued finish.

**SPECS:** Heat-treated steel, blued. Gunsmith fitting required. Fits Colt Single Action Army and clones, including Uberti, EMF, and Armi San Marco. #713-000-084 Colt SAA Trigger, 3A35G69 ..... \$ 41.99

### POWER CUSTOM RUGER® SA HALF-COCK HAMMER & TRIGGER KIT

Gives An Instant Trigger Job

CNC machined hammer and trigger reduce pull weight to an easy-breaking 2½ to 3 pounds. Smoothly contoured trigger face gives a lighter feel. Half-cock notch provides an additional click when cocking, located so chambers will line up with loading gate. Allows cylinder to rotate without opening loading gate. Raised boss around hammer pivot hole eliminates side play; honed and polished engagement surfaces provide consistent trigger release. Requires no modification to grip frame. Hammers provide a drop-in fit only when used with Power Custom trigger. Requires gunsmith fitting/alteration to factory trigger.

**SPECS:** Steel, polished blue or bright polished, natural finish. Hardened to Rc 56-58. Kits include 17 lb., 18 lb. and 19 lb. hammer springs, 30% reduced power trigger spring and extra power cylinder latch spring.

Bisley Kit shown

### RUGER SA STANDARD HALF-COCK HAMMER & TRIGGER KIT - Duplicates the clean, simple styling of the factory hammer.

**SPECS:** Fits new model large frame Blackhawk®, Super Blackhawk® and Vaquero®.

#713-020-000 Standard Half-Cock Kit, Blued, 3A152N99 ..... \$ 179.99

### RUGER COLT-STYLE HAMMER & NEW VAQUERO® TRIGGER KIT - Original Colt SA styling. Features a Colt style hammer, standard trigger, 30 oz. trigger spring, 14 lb. hammer spring, and extra-power base pin latch spring.

**SPECS:** Steel, bright-polished silver finish. Fits small frame New Vaquero and 50th anniversary Blackhawk models with internal hammer lock and XR-3 grip frame.

#713-000-081 Colt-Style/New Vaquero Kit, Silver, 3A174N59 ..... \$ 193.99

**RUGER ALTERED TRANSFER BAR** - Re-designed, drop-in transfer bar gives a Ruger single action the feel and operation of a Colt single action. Allows loading gate to open with hammer at half cock. Cylinder can then rotate clockwise and the pawl is functional. For use with Power Custom Half Cock Hammer/Trigger Kits. Saves time and effort modifying the factory part.

**SPECS:** Steel, in-the-white. Fits new model Blackhawk, Super Blackhawk, and large frame Vaquero with no modifications.

#713-000-047 Altered Transfer Bar, 3A37K39 ..... \$ 43.99

**RUGER HAMMER & TRIGGER SHIMS** - Eliminates excessive side-to-side movement of hammer and trigger for wobble-free cycling. Available in 10-paks.

**SPECS:** Stainless steel, .002" thick. Fits all Ruger SA revolvers except Bearcat. Pak of 10.

#713-000-063 Hammer Shims, 3A16K79 ..... \$ 20.99

#713-000-064 Trigger Shims, 3A16B79 ..... \$ 20.99

**RUGER LARGE FRAME SA LOADING GATE SPRING** - Heat-treated, loading gate spring has more metal in areas needing additional strength and less metal in thinner areas for a lighter, softer spring. Drops in all large frame Ruger SA revolvers.

**SPECS:** Heat-treated spring steel, in-the-white. Fits large frame Ruger SA revolvers.

#713-000-065 Loading Gate Spring, 3A38I24 ..... \$ 44.99

### POWER CUSTOM RUGER® SA OVERSIZE CYLINDER LATCH

Gives Tighter Lockup To Improve Accuracy

Oversized dimensions to remove the lateral play in frames and cylinders with out-of-spec notches. Thicker and longer, for precise fitting; tightens cylinder lockup and helps give correct stop timing. Gunsmith fitting is required. Models available for both current-production and Old Model ("three screw") Ruger single actions.

**SPECS:** A2 tool steel, heat treated. .097" (2.46mm) thick. New Model fits all current production New Model single actions, Blackhawk®, Super Blackhawk®, Bisley, Single-Six® and Vaquero®, does not fit Bearcat®. Old Model fits all Old Model (three screw) Blackhawk®, Super Blackhawk®, and Single Six® (does not fit Bearcat®).

#713-000-013 Oversize Cylinder Latch, New Model, 3A35H69 ..... \$ 41.99

#713-000-093 Oversize Cylinder Latch, Old Model, 3A36K84 ..... \$ 42.99

### POWER CUSTOM RUGER® SA FREE SPIN PAWL™

Quicker & Easier Loading, Unloading

Redesigned pawl enables faster and easier loading/unloading of Ruger single action revolvers. Holds the bolt away from the cylinder locking notches when the loading gate is open, so the cylinder can rotate freely in either direction. No need to spin the cylinder around again if you miss a click and go too far; makes it easier to set an empty chamber under the hammer. Helps competitive shooters improve reload times and scores. Hunters, target shooters, and outdoorsmen will enjoy the added convenience of easier reloading.

**SPECS:** Steel. Blackhawk fits Ruger new model Blackhawk, Bisley, pre-2005 Vaquero and Super Blackhawk single actions. Vaquero fits the New Vaquero®, with the smaller "XR3" grip frame, introduced in 2005. Gunsmith fitting required.

#713-105-000 Blackhawk Free Spin Pawl, 3A48J84. .... \$ 52.99

#713-000-077 New Vaquero Free Spin Pawl, 3A45H04. .... \$ 52.99

### POWER CUSTOM RUGER® SA COLT-STYLE GRIP FRAME

Fits Your Hand To Improve Control

Get the Colt-grip feel on your large-frame, Old Model, Ruger single action. CNC machined, two-piece, steel grip frame is slightly smaller than the Ruger factory original, with a shorter reach, too.

Oversize for precise fitting/finishing; requires no modifications to frame. Heel is designed for easy modification to a birdshead shape. Accepts 2nd and 3rd Generation Colt grips (may require fitting).

**SPECS:** 4140, steel in-the-white, 240 grit finish. Fits all Old Model (three screw) Blackhawk and Super Blackhawk frames.

#713-000-019 Colt-Style Grip Frame, 3A197F19 ..... \$ 231.99

### POWER CUSTOM SINGLE ACTION REVOLVER GAS RING SHIMS

Fast, Drop-In Solution For Eliminating Excess Cylinder Endshake

Eliminate excess cylinder endshake on Colt and clones, plus all Ruger® single action revolvers with these stainless steel gas ring shims. Installs between frame and the front of the gas ring to eliminate cylinder binding caused by the cylinder face rubbing the rear of the barrel, and helps cure headspace problems that can lead to misfires. Shim thickness of .0045" accommodates most revolvers that have cylinder endshake problems; remove material from the gas ring for "tighter" guns. Developed by master pistolsmith Ron Power as a cost-effective alternative to stretching the gas ring. Whether you're servicing a worn gun or building a custom one, these shims will help turn out a first-class job. Available in 10-paks.

**SPECS:** Stainless steel, .0045" thick. For guns with base pin diameter no larger than .260" and gas ring no smaller than .380". Fits Gen. 1, 2, 3 Colt SA and clones, and all Ruger SA revolvers.

#713-000-080 SA Gas Ring Shims, 10-pak, 3A14J58. .... \$ 17.99

SERIOUS ABOUT FIREARMS

### BROWNELLS RUGER® SA ROUND HAMMER STRUT

Gives Smoother Cocking & Consistent Hammer Drop

Holds mainspring in alignment, prevents spring kink and binding for consistent hammer drop and improved ignition. Round strut helps provide a smoother feel when cocking. Saves time and effort, eliminates the filing and polishing necessary to remove the burrs and rough edges on the stamped, factory part. Assembled with a 17 pound Wolff hammer spring and ready to drop in.

**SPECS:** Steel. Fits Blackhawk®, Super Blackhawk® and Old Vaquero®. Will not fit the New Vaquero with the smaller grip frame.

#078-000-019 Ruger Round Hammer Strut, 8G22I39. . . \$ 27.99

### RUGER® REPLACEMENT SINGLE ACTION REVOLVER HAMMERS

It's Hammer Time... No, Not M.C.! - Time to Replace/Upgrade That Worn or Damaged Part on Your Faithful Wheelgun

These are factory replacement hammers for popular Ruger® single action revolvers. Ruger® sells them to us in quantity, and we individually bag them to offer them to you, to repair, rebuild, or customize your or your customers' favorite Ruger® wheelguns.

ALL of these hammers are stainless steel and come with a "hi-gloss" or more subdued satin finish. Be warned: you get ONLY the hammer, nothing else. You'll need to add a plunger, plunger spring, and cross pin to have a full hammer assembly. Fortunately, all Ruger® single action revolvers use the same parts, which we've listed below, in case the ones in your gun are dinged up or damaged and need replacing.

#780-001-472 Large-Frame Bisley, Hi-Gloss SS, 8G25B49 ..... \$ 29.99

#780-001-473 Vaquero/Blackhawk/Super B'Hawk Wide Spur Hammer, Satin SS, 8G26A34 ..... \$ 30.99

#780-012-018 Hammer Plunger, 8G3Q99 ..... \$ 4.99

#780-012-016 Hammer Plunger Spring, 8G3M99. .... \$ 4.99

#780-012-021 Hammer Plunger Cross Pin, 8G3M99. .... \$ 4.99

### POWER CUSTOM COLT SAA ENDSHAKE BEARINGS

Quickly Eliminates Endplay

Eliminate excess cylinder play with these stainless steel bearings. Made by pistolsmith Ron Power. Fits on the base pin bushing between the shoulder and the front of the cylinder. Fits 1st and 2nd Generation Colt SAA and authentic reproductions only.

**SPECS:** 302 Stainless steel, .002" thick. 10 bearings per pak.

#713-100-073 SAA Endshake Bearings, 3A14A27. .... \$ 16.49

### SMITH ENTERPRISE COLT SAA SAA BOLT & HAND

Rebuilding, Accurizing, Tuning & Restoration

Heat-treated, spring steel, hardened and oversize action parts for rebuilding and accurizing Colt Single Action Army revolvers. Bolts are radiused between the forks to resist breakage, extra wide lug provides for exact fit to cylinder locking slots. 1st Gen. bolt is shaped and contoured to match the original. 2nd/3rd Gen. bolt will fit all 1st, 2nd and 3rd generation guns. Hand, fits 1st and 2nd generation guns.

**SPECS:** 1065 spring steel. Blue, polished finish. Rc 40-42. All will require gunsmith fitting.

#851-000-021 1st Generation Bolt, 1E65A59 ..... \$ 81.99

#851-000-022 2nd/3rd Generation Bolt, 1E65B59 ..... \$ 81.99

#851-000-023 1st/2nd Generation Hand, 1E65E59. .... \$ 81.99

**BROWNELLS RUGER® SA REVOLVER BASE PIN LATCH KIT**

**Replaces Commonly Lost Parts; Don't Leave Home Without It**

If you do a lot of shooting, you're bound to wear out or lose those small parts critical to securing the base pin in the cylinder. This kit safeguards against down time at the range or failure to complete all the stages at your next Cowboy Action event due to a base pin working loose. Kit includes a genuine factory latch and nut, plus the Wolff extra power base pin spring you want for improved function and longer service life.

**SPECS:** Steel, blued finish. Includes factory base pin latch and nut, Wolff extra power base pin spring. Fits Blackhawk®, Super Blackhawk®, Super Blackhawk® Hunter, Maximum Blackhawk®, Bisley, Vaquero®, and New Vaquero®, and Single Six®.

- #080-000-372 Ruger Base Pin Latch Kit, 8K11M24... \$14.99

**TAYLOR CARTRIDGE CONVERSION CYLINDER**

**Switch From Percussion To Cartridge By Changing Cylinders**

Six shot conversion cylinder allows you to fire .45 Long Colt cartridges in your steel frame .44 caliber cap-and-ball revolver. To load, simply remove the cylinder, remove the backplate, drop cartridges into the cylinder, replace the backplate, and reinsert the cylinder. Indexing pin on cylinder ensures the floating firing pins in the backplate align properly with the chambers. Cylinders are available for reproduction .44 caliber

Remington Model 1858 and .45 caliber Ruger® Old Army®. For use in steel frame revolvers with BLACK POWDER cartridges or black powder equivalent cartridges ONLY. DO NOT use in brass frame revolvers or with jacketed bullets. No FFL required to purchase.

**SPECS:** Steel, blue, polished finish or stainless steel finish. .45 Colt black powder cartridges or cowboy action loads only. Chamber length - 1.625" (4.1cm). May require fitting to cylinder pin.

**BROWNELLS PRO-SPRINGS™ FOR ACTION-TUNING by WOLFF**

**"Guaranteed Superior"**

Brownells Pro-Spring™ Kits are made from the very finest high-tensile spring wire - wire that is formulated and drawn especially for finest quality springs. The tension is actually built into the wire as it is being drawn - not added afterwards by heat treating. Consequently, Brownells Springs will continue to function correctly and continually, long after many of the other springs have taken on so much "set" that they have lost their ability to return to the required length and tension you need.

It's simply not worth taking a chance when the best quality springs are only a small part of the project. Try Brownells Pro-Spring Kits and find out for yourself the satisfaction of using a really good gun spring - designed and made expressly for us by Wolff, the Dean of quality gun springs for the professional firearms industry.

**SPECS:** RP = Reduced Power, XP = Extra Power, FSW = Factory Standard Weight

**FOR RUGER® SINGLE ACTION REVOLVER**

An excellent base from which to build a beautifully smooth and reliably functioning gun. Includes a redesigned trigger spring and a reduced power hammer spring to give controlled trigger pull. Also includes extra power, base pin latch spring. Factory hammer spring is 23 lb.

**RSA-003 17 LB. FOR NEW MODEL** - Kit contains one 17 lb. hammer spring, 35% reduced power trigger spring and extra power base pin latch spring.

- #080-665-003 Kit RSA-003, 8K11P99... \$15.99

**RSA-100 19 LB. FOR NEW MODEL** - Kit contains 19 lb. hammer spring, 35% reduced power trigger spring and extra power base pin latch spring.

- #080-665-100 Kit RSA-100, 8K11G99... \$15.99

**RSA-108 FOR OLD ARMY® AND OLD MODEL** - Kit contains 19 lb. hammer spring, 25% reduced power trigger spring, and increased power, base pin latch spring (use on old model only).

- #080-665-108 Kit RSA-108, 8K7F49... \$9.99

**RSA-106 FOR NEW MODEL** - Kit includes (3) different, reduced power hammer springs; 17 lb., 18 lb. and 19 lb. (Factory is 23 lb.).

- #080-665-106 Kit RSA-106, 8K14Q99... \$19.99

**#969-000-163 30 oz. Reduced Power Trigger Spring, 9F6K74...** 8.99

**RSA-107 FOR OLD MODEL AND OLD ARMY** - Kit includes (3) different, reduced power hammer springs; 17 lb., 18 lb. and 19 lb. (Factory is 23 lb.).

- #080-665-107 Kit RSA-107, 8K11H99... \$15.99

**FOR RUGER® DOUBLE ACTION REVOLVER**

**RRH-102 FOR RUGER® REDHAWK** - Kit contains (3) different, RP hammer springs with each hammer spring having a different power output. Smooths hammer, reduces trigger, maintains reliability.

- #080-665-102 Kit RRH-102, 8K8L24... \$10.99

**SRH-104 FOR RUGER SUPER REDHAWK** - Includes (3) different RP hammer springs: 9 lb., 10 lb., and 12 lb. (factory is 14 lb.), plus (2) RP trigger springs: 10 lb. and 12 lb. (factory is 15 lb.).

- #080-665-104 Kit SRH-104, 8K9L59... \$11.99

**RDA-101 FOR RUGER DOUBLE ACTION** - Contains a RP trigger spring and a RP hammer spring for Ruger Security Six, Speed Six and Service Six.

- #080-665-101 Kit RDA0191, 8K8D24... \$10.99

**RGP-103 FOR RUGER GP100®** - Contains (3) RP hammer springs: 9 lb., 10 lb., and 12 lb. (factory is 14 lb.), plus (2) RP trigger springs, 8 lb.

and 10 lb. (factory is 11 lb.). Gives choice of best springs for individual gun. Reduces, smooths hammer actuation and trigger pull, yet ensures reliability on factory issued or professionally tuned guns.

- #080-665-103 Kit RGP-103, 8K9E59... \$11.99

**FOR S&W K, L, N FRAME REVOLVER**

**REVOLUTIONARY POWER RIB™ DESIGN**

Kits contain a new flat mainspring with a unique, Power Rib™ designed by Wolff that is slowly "squeezed" into place for correctly flowed grain structure of the spring steel. Gives fantastically improved smoothness and consistency of pull. Eliminates any possibility of stacking and provides optimum hammer actuation - the likes of which you have longed for in the action-tuning jobs you have done on S&W's in the past. (Requires unaltered strain screw).

**SWK/L/N-201** - Reduced power kit with lighter than stock Power Rib mainspring plus 13, 14, and 15 lb. rebound springs for precise tuning. Lightens trigger pull and gives superior smoothness and consistency of both double and single action pull.

- #080-665-201 Kit SWK/L/N-201, 8K15N74... \$20.99

**SWK/L/N-202** - Standard power kit with a Power Rib™ mainspring that duplicates the factory spring's rate. Gives positive ignition of magnum primers, vastly improved smoothness and consistency of pull. Includes 13, 14, and 15 lb. rebound springs for precise tuning.

- #080-665-202 Kit SWK/L/N-202, 8K14K99... \$19.99

**SW-MS-222** - The same Power Rib™ mainspring used in the SWK/L/N-201 kit above. 1 spring or 10 spring packages.

- #080-665-210 SW-MS-222 Mainspring, 8K12B74... \$16.99

- #080-665-211 SW-MS-222 Mainspring, 10-pak, 8K127H49... 169.99

**SW-MS-223** - The same Power Rib™ mainspring used in the SWK/L/N-202 kit above. 1 spring per package.

- #080-665-220 SW-MS-223 Mainspring, 8K12F74... \$16.99

**FOR S&W J-FRAME REVOLVER**

**SWJ-200 FOR S&W J-FRAME** - Contains (3) different rate RP rebound springs: 13 lb., 14 lb., and 15 lb. to give you the proper selection, plus (1) RP hammer spring.

- #080-665-200 Kit SWJ-200, 8K8G24... \$10.99

**WHY ARE PRO-SPRINGS™ SO GOOD?**

Brownells Pro-Spring™ Kits are made from the very finest high-tensile spring wire that is formulated and drawn especially for the finest quality springs. The tension is actually built into the wire as it is being drawn - not added afterwards by heat treating. Consequently, Brownells Springs will continue to function correctly and continually, long after many of the other springs have taken on so much "set" that they have lost their ability to return to the required length and tension you need.

It's simply not worth taking a chance when the best quality springs are only a small part of the price of the job - the labor costs are the same with bad springs - or Brownells Pro-Spring Kits. Buy Brownells Pro-Spring Kits and find out for yourself the satisfaction of using a really good gun spring - designed and made expressly for us by Walter Wolff, the Dean of quality gun springs for the professional firearms industry.

## BANG, INC. S&W K/L/N REVOLVER MICULEK REVOLVER SPRING KIT

Fast Trigger Action & Reduced Pull Weight For  
Competition & Speed Shooting

Balanced compression and rebound rates allow hammer spring and trigger return spring to work in unison. Together, they give a seven pound, double action trigger pull with a fast trigger return. Recontoured hammer spring helps smooth trigger pull, prevents stacking. **SPECS:** Spring steel. Fits K, L and N frame revolvers. For best results, ammo should use Federal primers.

#100-000-223 Miculek S&W Spring Kit, 2K19J19 . . . . . \$ 23.99

## HEINIE SINGLE ACTION TRIGGER/BOLT SPRING

Modern Design Improves Reliability

Stronger wire spring replaces the flat leaf trigger spring in the Colt Single Action Army and clones for improved reliability and smoother function. Gives cleaner letoff for better accuracy. **SPECS:** Spring steel. Fits Colt SAA, EMF Hartford, other clones.

#394-630-000 Trigger/Bolt Spring, 4C7164 . . . . . \$ 8.99

## ISMI S&W REVOLVER CHROME SILICON SPRINGS

Consistent, Reliable  
Performance With No Stacking;  
Won't Take A Set

Premium quality springs manufactured to ISO 9002 quality control standards from aerospace-grade chrome silicon steel for consistent, reliable performance and superior durability. Your trigger pull feels better, and your gun performs consistently and reliably. These springs maintain a constant compression rate so they don't stack as spring tension increases. Heat treated, shot peened, and stress relieved to retain loading capability through thousands of compression cycles without taking a set. **Trigger Rebound Spring** provides a 10% reduced-power (approximately 16.2 lbs.) loading for a lighter, more consistent trigger pull from J, K and L frame revolvers. **Hammer/Trigger Spring Pak** adds a factory-weight hammer spring for consistent let-off and positive ignition. **SPECS:** Chrome silicon steel wire.

#445-000-026 S&W Trigger Rebound Spring, 5D6L74 . . . \$ 8.99

#445-000-025 J-Frame Hammer/Trigger Spring Pak, 5D7M99 . . . . . 9.99

## LEE'S GUNSMITHING SINGLE ACTION GUNSLINGER SPRING KITS

Lightens Trigger Pull &  
Smooths Action Cycling

High-quality springs provide smoother action function and operation, plus reduce felt trigger pull. Coil springs are slightly reduced in diameter to eliminate guide rod spring bind.

Colt hammer spring is narrowed along the sides, maintains strength and reduces cocking effort; trigger spring is durable wire-type. **SPECS:** Spring steel. Includes hammer and trigger springs. Fits Colt Single Action Army and clones.

#100-000-509 Colt SAA Spring Kit, 5K24B74 . . . . . \$ 32.99

## WILSON COMBAT "CUSTOM TUNE" REVOLVER SPRING KITS

Add Reliability, Improve Function

High quality springs drop-in to improve handgun performance. High tensile strength wire delivers reliable function. **SPECS:** Kit contains one each of the springs listed below. RP= Reduced Power, XP = Extra Power.

#246 RUGER GP 100 - RP 9, 10, and 12 lb. hammer springs; RP 8 and 10 lb. trigger return springs.

#965-246-000 Wilson Kit #246, 5F9L49 . . . . . \$ 9.95

#297 RUGER SUPER REDHAWK - RP 9, 10, and 12 lb. hammer springs; RP 10 and 12 lb. trigger return springs.

#965-297-000 Wilson Kit #297, 5F8L54 . . . . . \$ 8.95

#176 RUGER SINGLE ACTION - 30 oz. RP trigger spring; 19 lb. RP hammer spring; XP cylinder latch spring.

#965-176-000 Wilson Kit #176, 5F13M29 . . . . . \$ 13.95

#349 RUGER SP 101 - RP 10 and 12 lb. hammer springs; RP trigger return spring.

#965-349-000 Wilson Kit #349, 5F8I54 . . . . . \$ 8.95

#321 SMITH & WESSON J - RP 8 lb. hammer spring; RP 13, 14, and 15 lb. rebound springs.

#965-321-000 Wilson Kit #321, 5F8Q54 . . . . . \$ 8.95

#178 SMITH & WESSON K, L & N - RP mainspring; RP 12, 13, and 14 lb. rebound springs.

#965-178-000 Wilson Kit #178, 5F12Q75 . . . . . \$ 13.95

## WOLFF REVOLVER SPRING KITS

RUGER SP101® KIT - Contains (1) 9 lb., (1) 10 lb., and (1) 12 lb. reduced power hammer spring for tailoring trigger pull. Includes (1) 8 lb. reduced power trigger return spring.

#969-171-130 Ruger SP101 Kit, 9F8G24 . . . . . \$ 10.99

TAURUS 73, 85, & 605 SHOOTERS PAK - Fits small-framed Taurus Models 73, 85 and 605. Kit includes (1) 9 lb. hammer spring, FSW - 11 lb.; (1) 9 lb. and (1) 6.5 lb. trigger return spring, FSW - 14 lb.

#969-301-510 Taurus Shooters Pak, 9F6G74 . . . . . \$ 8.99

TAURUS 669 SERIES SHOOTERS PAK "A" - Kit contains (1) 10 lb., (1) 11 lb., and (1) 12 lb. reduced power hammer spring, (1) 10 lb. and (1) 11 lb. reduced power trigger return spring. Fits 65, 66, 669, 689, 80, 82 and 83.

#969-171-900 669 Shooters Pak, 9F8N99 . . . . . \$ 11.99

## WOLFF SAA SAA COWBOY ACTION SPRINGS

Unique Design Smooths Action, Reduces Trigger Pull

REDUCED POWER MAINSPRINGS - Lightens trigger pull and cocking effort for fast, accurate shooting. Open center retains durability of factory spring, gives consistent, uniform, spring tension.

**SPECS:** Spring steel. Colt/EMF fits Colt Cowboy and Single Action Army, EMF Hartford. Uberti fits private-label, SAA clones made by Uberti. May require minor fitting.

#969-322-800 Colt/EMF Mainspring, 9F11M99 . . . . . \$ 14.99

#969-322-850 Uberti Mainspring, 9F11C99 . . . . . 15.99

SEAR/BOLT SPRINGS - Traditional flat or modern wire springs with reduced power. Each smooths and lightens trigger pull. Gives improved function and reliability. **SPECS:** Spring steel. Colt/EMF/Uberti Flat Spring fits Colt Cowboy, Single Action Army, EMF Hartford and Uberti. May require minor fitting.

#969-322-900 Colt/EMF/Uberti Flat Sear Sprg, 9F5E99 . . \$ 7.99

#969-322-940 Colt/Uberti Wire Sear Spring, 9F5I99 . . . . 7.99

SAA SHOOTERS PAK - Complete set of springs to improve reliability, smooth trigger pull, and improve accuracy. Includes reduced power mainspring and sear/bolt spring, extra power base pin spring, stainless steel ejector spring. Wire features wire sear/bolt spring; flat uses traditional flat sear/bolt spring. **SPECS:** Spring steel. Colt/EMF fits Colt Cowboy and Single Action Army, EMF Hartford. May require minor fitting.

#969-322-270 Colt Wire Shooters Sprg Pak, 9F18M74 . . \$ 24.99

#969-323-290 Uberti Wire Shooters Spring Pak, 9F18L74 . . . . . 24.99

#969-323-250 Colt/EMF Flat Shooters Spring Pak, 9F18D74 . . . . . 24.99

#969-323-260 Uberti Flat Shooters Spring Pak, 9F18E74 . . . . . 24.99

RUGER® EXTRA POWER BASE PIN SPRING - Replaces factory spring for positive cylinder pin latching. Extra power helps prevent the possibility of the cylinder pin becoming unlocked. **SPECS:** Spring steel. Fits Ruger® Single Six®, Blackhawk®, Super Blackhawk®, Super Blackhawk Hunter®, Maximum Blackhawk®, Bisley, and Vaquero®. Sold (1) each.

#969-000-139 Extra Power Base Pin Sprg, Ruger, 9F4I49 . . \$ 5.99

## WOLFF S&W REDUCED POWER REBOUND SPRING

The Final Step For  
A Great Trigger Job

Five weights of reduced power springs allow precise tuning of trigger pulls in all Smith & Wesson revolvers. **Kit 1667** contains 1 each: 11, 12, 13, 14, and 15 lb. springs. **Kit 1664** contains 50 springs, 10 of each weight. **Refill Paks** include 10 springs of a single weight. **SPECS:** Spring steel.

#969-166-600 1667 Rebound Spring Kit, 9F8G99 . . . . \$ 11.99

#969-166-400 1664 Rebound Spring Kit, 9F36G74 . . . . 48.99

#969-000-033 11 lb. Refill Pak, 9F14L99 . . . . . 19.99

#969-166-410 12 lb. Refill Pak, 9F13I49 . . . . . 17.99

#969-166-420 13 lb. Refill Pak, 9F13P49 . . . . . 17.99

## WOLFF RUGER® SA REDUCED POWER REVOLVER SPRINGS

For A Smooth Action, Fast Follow-up  
Shots, Helps Improve Accuracy

We've carried these high-quality springs a good long time, but we almost left them out of this catalog by accident! Fortunately, we caught our "oops" just in time, and here they are. They'll give your New Vaquero®, 50th Anniversary Blackhawk®, or other Ruger single-action revolver, a lighter cocking pull and ultra-smooth trigger with these easy-to-install, high-grade replacements for the factory springs. No time-consuming honing, filing, and other reworking of parts. These precision action springs are carefully manufactured for easy fitting to your revolver with only minor disassembly. **SPECS:** Spring steel, natural finish.

NEW VAQUERO/ANNIVERSARY BLACKHAWK SHOOTERS PAKS - Reduced power springs make cocking easier, lighten trigger pull, and improve accuracy. Kits include reduced power, 14 lb. hammer spring for easier cocking, and a choice of light 30 oz. or 40 oz. trigger spring, plus extra-power base pin latch spring for positive cylinder latching.

**SPECS:** Fits New Model Vaquero and New Blackhawk 50th Anniversary models with internal hammer lock and XR-3 grip frame.

#969-000-156 30/14 Reduced Power Shooters Pak, 9F12H74 . . . . . \$ 16.99

#969-000-157 40/14 Reduced Power Shooters Pak, 9F12I74 . . . . . 16.99

TRIGGER SPRINGS - Choice of two levels of reduced let-off force for smoother trigger pulls, greater accuracy, and faster shooting times. Great for cowboy competition. **SPECS:** Fits Single Six®, Blackhawk, 50th Anniversary New Blackhawk, Super Blackhawk, Super Blackhawk Hunter, Maximum Blackhawk, Bisley®, New Vaquero with XR-3 grip frame, and large frame Vaquero.

#969-000-163 30 oz. Reduced Power Trigger Spring, 9F6K74 . . . . . \$ 8.99

#969-000-162 40 oz. Reduced Power Trigger Spring, 9F8I24 . . . . . 10.99

HAMMER SPRINGS - Substantially lighter than factory, standard 23-lb. springs for easier cocking and faster follow-up shots. **SPECS:** Fits Single Six, Blackhawk, Super Blackhawk, Super Blackhawk Hunter, Maximum Blackhawk, Bisley, and large frame Vaquero.

#969-000-158 17 lb. Reduced Power Hammer Spring, 9F5L99 . . . . . \$ 7.99

#969-000-159 18 lb. Reduced Power Hammer Spring, 9F5N99 . . . . . 7.99

#969-000-160 19 lb. Reduced Power Hammer Spring, 9F5E99 . . . . . 7.99

NEW VAQUERO/BLACKHAWK HAMMER SPRINGS - Lighter than the 17-lb. factory spring for smoother, easier cocking. Available individually in 14- and 15-lb. weights, or in a Pak with one each 14-, 15- and 16-lb. springs, so you can try all three to find the weight that works best in your gun. **SPECS:** Fits small frame New Vaquero and 50th Anniversary New Blackhawk with XR-3 grip frame.

#969-000-200 Reduced Power Hammer Spring Pak, 9F8L99 . . . . . \$ 11.99

#969-000-197 14 lb. Reduced Power Hammer Spring, 9F5J99 . . . . . 7.99

#969-000-198 15 lb. Reduced Power Hammer Spring, 9F5I24 . . . . . 6.99

**A NOTE ON SPRING "SET" - "Set"** is normal in all springs, and is the "held-compression" all springs take after being put under compression for a length of time. What is critical about "set" is that all springs do not take it equally, or stabilize at a predetermined amount of "set". In actual measured tests, Brownells Pro-Springs™ took 4 to 10 times less set after equal time under compression than did other springs tested. And once stabilized, took no more set. The other springs continued to take "set" until we stopped testing them. Prove it to yourself . . . measure the springs you want to test; lock them in a vise overnight, and when you take them out, measure how much length has been lost. (Do the test on the same springs a second - or third - time. Consider the effect this "shortening" will have an action job that was based on the spring's original length. Trigger pull, action smoothness and even the safe functioning of the gun can be ruined by an inferior spring.

## BROWNELLS ESCUTCHEON SCREWS

For Repair Or New Grips; Ever Popular - Ever In Demand

For pistol grip escutcheons. Escutcheon head countersunk for screw head; nut is round, milled edges (as is head), slightly countersunk on one side for attractive outside appearance when installed. Solid stainless steel, end won't rust after being cut to desired length. **SPECS:** 18-8 stainless steel. 5-40 screws, 1 1/4" (3.5cm) long. Brass nut. Sold in packs of 6 or 12 only.

**#080-034-006** 6 Escutcheon Screws, 8K14E99 . . . . \$ 18.99  
**#080-034-012** 12 Escutcheon Screws, 8K35C99 . . . . 35.99

**ESCUTCHEON SCREW COUNTER BORE** - Drills perfect, proper-fitting holes and countersinks for the Brownell Escutcheon Screws all in one easy step. Use at slow speeds, won't chip or splinter fine wooden grips.

**SPECS:** 1 1/4" (4.76cm) long, .250" (6.3mm) dia. drill rod stock, .125" (3.17) dia. shaft, M2 tool steel Rc 56-58, blue finish.

**#080-034-600** Counterbore, 2C15F99 . . . . . \$ 19.99

## HOGUE RUGER® COCOBOLO SINGLE ACTION GRIPS

Dress Up Your Ruger® Six Gun With Exotic Grips

Add a little romance to your favorite single action with high quality grips cut from exotic materials. Precision machined from the finest hard woods and synthetics to look better and wear longer than the originals. Because of variations in grip frames, grip panels will require minor fitting. **SPECS:** Cocobolo wood. Figuration will differ from one set of grips to another. Fits New Model Blackhawk®, New Model Single Six®, and old, large frame Vaquero®.

STOCK #	FITS	MATERIAL	PRICE

## N.C. ORDNANCE REVOLVER GRIPS

Mirror-Image Reproductions Of Hard-To-Find Grip Panels

Affordable, exotic grips for single action revolvers are molded from polyurethane resin and finished by hand for a precise fit. Molding process uses the highest-quality molds cast from mint-condition original factory grips to ensure no unsightly air bubbles in the finished product. Grips look and feel like the hard-wearing stag antlers, jiggled bone, or ivory used to customize original Old West sixguns.

**SPECS:** Molded polyurethane resin, in simulated Stag or Ivory. Minor fitting may be required. **Ruger Vaquero** also fits Blackhawk and Single Six. **Ruger Old Model** fits old model three-screw Blackhawk frames.

## PACHMAYR "PROFESSIONAL" GRIPS

Open Back Strap For Smaller Hands

Same superb Pachmayr feel and recoil absorption but with back strap open for those with smaller hands, shorter fingers. Designed in cooperation with law enforcement agencies. Checkered, non-slip black rubber with gold Pachmayr emblem.

**SPECS:** Molded, black, neoprene rubber. GP for square butt, has finger grooves as on Gripper series. CP for round butt, is Compact style with no finger grooves.

## PACHMAYR SMITH & WESSON J-FRAME G10 TACTICAL GRIPS

Gives You a Superb Hold on the Revolver, Plus Eye-Catching Good Looks (The Gun, Not You)

The 1911 crowd and other semi-auto fans have long enjoyed the benefits of grips made from ultra-durable G10 fiberglass-reinforced composite. And now, finally, so can those of us who've stayed faithful to the wheelgun. These are full wrap-around "boot" grips with neatly checkered side panels and contoured finger grooves. The whole package works together to give you a superb hold on your revolver. With these grips installed, the revolver's butt - grips, frame, and all - is approximately 1.25" wide at its widest point. (Note: there is an exposed but recessed grip screw on the right-side panel only.) G10, of course, is highly resistant to heat, cold, water, chemicals, and just about any other nasty conditions that can cause traditional wood, or even rubber, grips to fail. Almost as a bonus, G10 has a non-slip surface that'll keep the gun from squirming around in your hand but isn't so rough that you'll have to sacrifice skin to hang onto your pistol. G10 material can be laminated in contrasting colors, so when the material is machined away, interesting abstract color patterns appear. So all of these grips have a unique, eye-catching two-tone color scheme.

**#692-000-067** S&W J Frame G10 Grips, Gray/Black, 5K54N99 . . . . . \$ 69.99

## PACHMAYR DECELERATOR™ GRIPS

Decelerator Rubber Absorbs Recoil Force For Greater Shooting Comfort

Specially formulated Decelerator rubber compound isolates your hand from recoil force. Finger groove, gripper design increases control to counter muzzle rise.

**SPECS:** Molded rubber.

**GRIP & FOREND FOR THOMPSON/CENTER CONTENDER** - Absorbs felt recoil and provides a more secure, consistent grip on your Thompson/Center Contender pistol for more accurate shot placement. Recoil-reducing internal chambers in the pistol grip protect the shooter's hand, while finger grooves and molded-in diamond pattern grip control to counter muzzle rise. Easy, drop-in installation requires no permanent alterations to gun. Includes sling swivel studs.

**SPECS:** Molded neoprene rubber, black. Fits all calibers of T/C G2 Contender pistols.

## PACHMAYR "PRESENTATION" GRIPS

Non-Slip Grips For All Conditions

Neoprene rubber absorbs recoil, provides absolute, no-slip grip, wet or dry. Molded-in checkering makes grip even more secure. Extra thickness and/or length, plus filler material in critical areas. All have speed loader clearance.

**SPECS:** Molded, black, neoprene rubber. /S = small. /L = large. /C = compact round butt. /CS = compact square butt. TCF-1 is the forend for 10" and 14", round barrel Contenders. Blackhawk® fits New Model Blackhawk®, New Model Single Six®, and old, large frame Vaquero®.

**NEW!**

**VZ GRIPS  
G10 COMPOSITE GRIPS  
FOR POPULAR REVOLVERS**

**Good-Looking & Practical; Variety of Texturing Options  
To Give You Just the Right Amount of "Grippiness"**

At last! VZ has long been known for their tough, rugged, good-looking G10 fiberglass grips for the 1911 and other semi-auto pistols. And now we carry their grips for REVOLVERS. Rugged grip panels made from tough G10 fiberglass offer the durability and superior gripping texture of modern composite materials. Advanced G10 laminate won't absorb moisture, resists impact, and won't expand or contract due to temperature fluctuations - perfect for all-weather operations and extreme conditions. Texturing is machined into the laminate, then hand-finished to ensure uniform pattern depth. The hard surface allows the texturing to be cut sharper to give more "bite" than traditional checkered wood grips. **ALL** grip sets include a Torx T-15 grip screw.

**STYLES - "320"** is the smoothest grip material VZ produces. Tiny mill marks from the machining process are left behind and the grips are left left unpolished. This gives them just a hint of texture, which makes for a very comfortable grip that still doesn't slide around in the hand. 320 grips are visually appealing as well. Since there really isn't any pronounced texture, you can see the bold layers of color in the laminates. **Tactical Diamonds** offer a more aggressive texture than the 320s provide, and they are in fact VERY grippy because that diamond pattern can be cut a lot sharper in G10 than in wood. **VZ Operator II™** grips wrap all the way around the back and bottom of the gun's grip frame. They are VZ's best-selling and most imitated texture. You get the best of both worlds with these dual-textured grips, with nice aggressive "recon" texturing up front and the mild slants toward the rear for a comfortable EDC grip. **Twister** is a funky-looking pattern that offers a unique combination of mild texture and deep grooves that's great for concealed carry. **Taurus Small-Frame** fits the following Taurus models: 380UL, 605 (steel frame only), 85 (steel frame only), 856, CIA650, CIA850, 905, 94/941 (older .22 LR models).

**SMITH & WESSON  
ORIGINAL FACTORY REVOLVER GRIPS**

**Restore Your Smith To Its Original, Out-of-the-Box Appearance**

There's a big variety of aftermarket grips for revolvers - many on display on this and the surrounding pages of the Big Book. But sometimes you just want to replicate the look and feel of your favorite revolver's original factory grips. What better way than with replacement grips straight from Smith & Wesson? These grips are constructed of **Dymondwood**, S&W's proprietary wood laminate - don't worry, it's real wood, just stronger - with grain and coloration that appeals to

those who prefer the warm glow of wood contrasted against blued (or stainless) steel. Crisply checkered side panels, and a silver metal S&W medallion at the top. Smith to its original appearance on the day you brought it home from the store!

**5 STAR FIREARMS  
REVOLVER SPEEDLOADERS**

**For Fast Reloads - Keep Up With  
The Semi-Auto Shooters**

Dramatically cuts reload time - ideal for range or competition. Lightweight yet very rugged: machined billet aluminum construction with stainless steel internal components and precision-ground bearings ensure smooth, easy operation. Let's you release rounds into the chambers with a quick, simple counter-clockwise turn.

**SPECS:** Aluminum, polished finish. 1.3" (3.3cm) tall. Weight and diameter varies. Taurus Judge model requires cartridge rims to be larger than .508".

**HKS SPEEDLOADER**

**Loads 5 Or 6 Cartridges Instantly  
For Super Fast Reloads**

Compact, lightweight carrier provides an excellent combination of reloading speed, secure carry and dependability. Cartridges are held securely until you're ready, then release with just a twist of the knurled knob. Simple to load: turn the knob to the load position, set rounds in place, and twist the knob to latch. Metal cam points move into place over the cartridge rims. To load the gun, guide the bullet noses into the cylinder, twist the knob, and ammo instantly drops into place.

**SPECS:** High-impact, black plastic body. Knurled aluminum knob. Aluminum latch. 1 1/8" (3.6cm) high. Diameter varies 1 1/8" (4.1cm) to 1 1/8" (3.5cm). Weighs 1/4 oz. (7 g) empty.

REVOLVER & T/C

GRIPS

SPEEDLOADERS

### PACHMAYR SMALL-FRAME REVOLVER .38 SPECIAL/.357 MAGNUM SPEEDLOADER

All-Metal Construction, Smooth & Positive Mechanism - No Rattles

These speedloaders are built the way competition shooters and revolver aficionados want them: robust, reliable, and compact. Each Pachmayr loader is CNC-machined from a solid block of aluminum to a compact polygonal shape, rather than the typical cylindrical contour, so it takes up the smallest amount of space possible in your belt pouch. A rubber O-ring keeps each cartridge firmly in place to prevent unwanted rattling. Cartridges are released from the loader into the cylinder with a simple twist of the large, deeply knurled knob. Durable, brightly colored anodized finish. Fits 5-shot Smith & Wesson J-Frame revolvers, as well as Ruger LCR, SP-101, Charter Arms 5-shots, Taurus 85/605/651/851, and Rossi 68.

#692-000-042 J-Frame Speed Loader, 5 Rds, 5K16F49... \$17.99

### SAFARILAND COMP I SPEEDLOADER

Fast, Sure Reloading For Law Enforcement, CCW & Competition

Small knob offers maximum concealment. Twist lock holds rounds secure till you drop them into the cylinder. Very fast reloads; start the cartridges into the cylinder, give a quick downward push and the speedloader automatically releases the cartridges. Won't release unintentionally even if dropped on either end.

SPECS: High-impact plastic, black. 1 1/2" (3.8cm) dia., 1 1/4" (3.2cm) high. Wt. 1/2 oz. (14 g).

STOCK #	FITS
#797-200-007	S&W "J", .38 Spl., .357 Mag.

### SAFARILAND COMP II SPEEDLOADER

Rapid Reloading For Competition & Law Enforcement

Fast, reliable speedloader for competition, law enforcement and sporting use. Holds six rounds ready for instant, all-at-once loading into the cylinder. Single "push" motion releases rounds, no twisting. Just hold the outer ring, start the bullet noses into the cylinder and push down.

SPECS: High-impact, black plastic. 1 1/2" (3.8cm) dia., 1 1/2" (3.8cm) high. Wt. 1/2 oz. (14 g). For .38 Spl./357 Mag. only.

### SAFARILAND SMITH & WESSON L-FRAME 333 SPEEDLOADER CARRIER

Puts 18 Rounds In Easy Reach

Made from Safari-Laminate™. Holds three, Safariland Comp Series speedloaders open and ready for quick reloads. External clips provide extra stability and security. Accepts Comp I and II speedloaders only. SPECS: Fits belts up to 1 1/4" wide.

#797-333-002 "L" Frame Speedloader Carrier, 7G36F89... \$40.99

### ZETA6 REVOLVER SPEEDLOADERS

K-CLIP

K-PAK (revolver not included!)

A Slick Update on the Old Tried-n-True Concept

Who wouldn't like wheelgun reliability with the reloading speed of those newfangled "semi-auto pistols"? Zeta6 speedloaders are made of lightweight, flexible polymer and take up the smallest amount of space necessary to do the job.... which is to get a fresh cylinder full of ammo into your revolver at speeds rivaling a semi-auto pistol mag change. Made from a tough BPA/BPS/BPF-free polyurethane material that retains the same flexibility in both hot and cold environments. J-CLIP-R fits 5-shot Smith & Wesson J-frame (and clones) and Ruger LCR/LCRx revolvers chambered in .38 Special and .357 Magnum. Will not fit 9mm Luger, .327 Federal Magnum, .22 LR, or 22 WMR models. Not recommended for Ruger LCR revolvers fitted with extra-large rubber or wooden grips. K-CLIP fits 6-shot Smith & Wesson K-frame and Colt D-frame sized revolvers, including Kimber K6, Taurus (856, 65, 80, 82, 606, 669, 689), Dan Wesson .38/.357, and similar revolvers. Will not fit the Ruger SP100, Colt Python, or S&W L-frame revolvers. K-PAK is essentially two 3-round half-moon clips molded together and is the go-to choice for use on S&W K-frame/Colt D-frame revolvers with thicker grips that don't accommodate the K-CLIP. Will not fit Ruger revolver. Great for concealed carry, too, because the K-PAK sits nearly flat in pockets. ALL are sold TWO PER PACK.

#965-069-105 NK .45 ACP Moon Clips, 5F10N44... 10.95

### BECKHAM DESIGN S&W REVOLVER RIMZ SPEEDLOADER

Long Lasting, Polymer Moon Clips Load & Unload With Just Your Fingertips

Flexible, molded-polymer, moon clips provide a means of ejecting rimless cartridges from early and late model Smith & Wesson revolvers. High-strength, hydrocarbon polymer won't rust, break or deform; fires 300-400+ rounds before requiring replacement. Loads easily by hand without the need for special tools or costly equipment. Keeps empties together, too. RIMZ 625 fits S&W M625-4 and newer revolvers in .45 ACP. RIMZ 25 fits S&W M1917, M25 and M625-5 and earlier in .45 ACP.

SPECS: Hydrocarbon polymer, black. 1 1/8" (3.7cm) diameter. Sold in 5-Paks.

#100-001-580 RIMZ 625 Speedloader, 5-pak, 2A6Q74... \$8.99

#100-001-684 RIMZ 25 Speedloader, 5-pak, 2A8J46... 9.99

### TK CUSTOM SMITH & WESSON MOONCLIPS

Competition Grade Moonclips For Fast, Fumble-Free Reloads

Long-lasting moonclips keep revolver cartridges together and properly aligned for fast, positive reloads in Smith & Wesson revolvers. Made to uniform tolerances from rigid steel for consistent fit and function. Some models intended specifically for use with Starline Brass. Available in silver stainless steel (SS) or blued carbon steel. J-Frames sold in 5-paks, other sizes in 10-paks.
