CROSSTAC PREDATOR LONG RANGE SHOOTING MAT

Oversized With Extra-Thick Foam Interior For Superior Comfort

Fold-up shooting mat with thick foam padding provides maximum protection from rough ground, so you can sit or lay prone for hours in any shooting environment. A rugged 1000 denier Cordura® exterior with a waterproof polyurethane coating blocks out moisture and cold to help keep you dry and comfortable. Oversized, 79" length accommodates even the tallest shooters. Four panel design allows you to stow your firearm inside the folded mat during carry in the field. Large handles and retaining straps constructed of 2" wide webbing with hook-and-loop fasteners keep everything contained and mobile. Built in, 1" high foam lip at the front of the mat provides a stop to prevent forward bipod movement for fast follow-up shots. 

SPECS: Exterior - 1000 denier Cordura® nylon, polyurethane coated, Coyote Brown. Interior - -20°F rated foam. Opened Size - 79" (201cm) long, 36" (91cm) wide, 1/2" (1cm) thick. Folded Size - 20" (51cm) long, 36" wide, 2" (5.1cm) thick.

#100-003-405 Crosstac Shooting Mat, 5A170C99. \$ 179.99

SIMS VIBRATION LABORATORY LIMBSAVER® PROTECTIVE SHOOTING PAD

Reduces Felt Recoil To Eliminate Flinch

Strap on the pad and immediately reduce felt recoil and shooting discomfort for increased accuracy. Lightweight, protective pad is worn on the shooting shoulder and is fully reversible; can be worn by either right- or left-hand shooters. Incorporates the exclusive NAVCOM III rubber material engineered to disperse recoil across the variable sized surface nodes. The shooting pad is enclosed in a durable, nylon, one-size fits all harness/pouch with easily adjustable cotton straps, elastic expansion band and quick-release nylon buckle for all-day wearing comfort. Pad is easily removable from the harness for washing. 

SPECS: Cordura nylon w/cotton straps, black. 7.5 oz (212g) wt.

U.S. PEACEKEEPER

FOLDING SHOOTING MAT

Folds For Easy Carry; On-Board Storage For Ammo & Accessories

Portable shooting mat has thick, closed-cell foam padding for hours of shooting comfort on rough, cold, or wet terrain.

Tough, tightly woven 1,000 denier nylon exterior blocks out moisture and washes up easily after a day at the range, in competition, or in the field. Rubberized coating at the front provides a non-slip

BROWNELLS PREMIUM ELECTRONIC EARMUFFS

Blocks Dangerous Noise, Lets Normal Sounds Through

These muffs employ advanced electronic compression circuitry to reduce the sound of gunfire to a safe level that won't harm your hearing. At the same time, they actually amplify low-level sounds, so you never miss range commands or normal conversation with your shooting buddies. Extremely lightweight, too - only 10 oz. - so they're comfortable enough for all-day wear. Soft, padded ear cups provide plenty of clearance for rifle and shotgun shooters to get a good cheekweld, and they pivot independently on the wide, padded headband for a comfortable fit and tight, protective seal. Handy LED "on" indicator light, plus auxiliary input jack and patch cable. Folds up neatly for storage.

SPECS: NRR 23 dB. Hard polymer resin-composite ear cups, supports, and headband. Uses 2 AAA batteries (not included).

#084-000-511 Premium Electronic Ear Muffs 3.0, 6K44A99. \$ 49.99

BROWNELLS PREMIUM PASSIVE EAR MUFFS 3.0

Powerful Noise Protection in a Compact, Economical Package

This latest edition of our Premium Passive Ear Muffs provide a superb 27 dB of passive noise reduction to completely protect your hearing even when firing loud magnums. Padded, adjustable headband lets you adjust for a comfortable fit, while low-profile ear cups won't interfere with shouldering rifles and shotguns. These muffs easily fold up into a compact package that takes up minimal space in your range bag. 

SPECS: NRR 27 dB. Molded hard polymer resin-composite ear cups.

#084-000-512 Premium Passive Ear Muffs 3.0, 6K17H99. \$ 19.99

surface for bipod placement to ensure fast follow-up shots. Front pocket has ammo loops to store up to 20 individual centerfire rifle shells; overlapping cover with polymer quick-detach buckles allows fast access. A second, zippered pocket holds additional accessories. The entire mat folds up tight, secured by three, adjustable wrap-around straps of 2" wide webbing with polymer quick-release buckles. Two carry options: double-stitched suitcase handle or padded, adjustable shoulder strap with quick-release snap-clips that attach to steel D-rings double stitched to the mat.

SPECS: 1,000 denier nylon, polymer hardware, O.D. Green. Open - 82" (208.3cm) long x 36" (91cm) wide, 1/4" (19mm) thick. Folded - 36" (91cm) long x 24" (61cm) wide, 4" (10.2cm) thick. 7.2 lbs. (3.3kg) weight.

NEW! CALDWELL E-MAX™ SHADOW EAR PLUGS

Electronic Hearing Protection With Bluetooth Connectivity

These in-ear electronic plugs give you 23 dB of noise reduction, plus they provide high-quality stereo sound, which includes ambient sound picked up by the built-in microphones. They are also rechargeable, with about 5 hours of runtime per charge. You can play your music or patch into radio/mobile phone communications during training via Bluetooth AND still protect your hearing at the range. Dual microphones provide directional clarity and come equipped with easy-to-use touch volume controls. The charging case comes with an integrated Lithium battery that can recharge the plugs 4 or 5 times before it needs to be recharged. Comes with different-sized tips, so you can get the perfect fit to YOUR ears. 23 dB NRR.

#100-041-996 E-Max Shadows Ear Plugs, 6B34G50. \$ 149.95

HOWARD LEIGHT IMPACT SPORT ELECTRONIC EAR MUFFS

Protects Hearing, Amplifies Conversation & Range Commands - LOTS of Colors To Choose From

Compact, lightweight electronic muffs let you hear conversation and range commands, while blocking out dangerous noises like gunfire to protect your hearing. Ultra-fast response electronics amplify ambient sounds to a safe 82 decibels (dB), yet shut down when sounds above 82 dB are detected to let the muff's passive hearing protection take over. In amplification mode, directionally placed stereo microphones even help you hear where the sound is coming from. Built-in AUX input accepts 1/8" (3mm) stereo plug to connect a radio or other audio device. Automatic shut-off after 4 hours to preserve battery life. Low-profile ear cups with bottom half that angles in sharply for plenty of clearance when shouldering long guns.

SPECS: Molded polymer, various colors listed below. NRR 22 dB. 10.4 oz. (295g) wt. Uses two AAA batteries, included; 350 hours continuous operation.

REPLACEMENT EAR CUSHION KIT - Fits both Impact Sport AND Impact Bolt muffs. Includes exterior padded ear cup surrounds and foam inserts that go inside the ear cups, over the speakers. Ear cups inevitably ear out over time - this is the easy way to make a well-used pair of muffs like new. 

#100-029-299 Replacement Ear Cushion Kit, 3F8K09. \$ 8.99

HOWARD LEIGHT IMPACT BOLT MUFFS

Impressively FAST Electronic Sound Suppression + Other Feature Upgrades

Howard Leight's premium electronic Impact Bolt muffs turn the amplifier on and off about 250 times faster than typical electronic muffs. That means, as soon as a gunshot-noise spike over 82 dB is detected, the circuits shut down the audio in 1/2 millisecond. When the noise has passed, the amplifier turns back on just as quickly. This speed keeps you connected to your shooting environment by eliminating sound-clipping - the inadvertent blocking of ambient sounds just after a gunshot. The result is you don't experience that odd sense of "disconnection" common to electronic muffs, helping you hear range commands and maintain conversations with fellow shooters. They work just as well the other way: when ambient sounds are very low, as on the hunting field, these muffs can boost the gain by 5 times. The built-in stereo microphones are directional, so you know where sounds are coming from - a huge real benefit for tracking prey or following range commands. Of course, shutting off the amplification is only part are of how effective muffs are. The passive hearing protection of the Bolt provides an NRR of 22 dB. Outside, the low-profile earcup have a cutout that let you press your cheek flush to the gunstock without breaking the seal of the ear cushion. The leatherette headband is padded for comfort, and adjustable for a secure fit. Connectivity with other electronic devices is built-in, with an AUX input and 3.5mm cord for connecting to your smart phone, MP3 player, radio, scanners or other device. Power comes from two AAA batteries (included), which will give approximately 150 hours of use. Automatic shutoff after 4 hours prevents needless battery drain. NRR 22.

3M PELTOR TRI-FLANGE REUSABLE EARPLUGS

Comfortable, Snug Fit To Seal Out The Noise - Full 26 NRR

Soft, triple flanged plugs adapt to the shape of the ear canal for a custom fit that protects your hearing from loud noises. Made of pliable, non-irritating polymer, these earplugs have a plastic stem that lets you quickly and easily insert the plugs without touching the pre-molded tips. They're washable, too, so you'll get plenty of range sessions out of the. Poly cord keeps them together when in use or storage, and the bold, hi-viz fluorescent green color makes them even harder to lose! 

SPECS: Soft polymer, fluorescent green. 26 dB NRR rating. Comes in a pack of 3 pairs.

OTTO ENGINEERING NOISEBARRIER ELECTRONIC EAR PLUGS

Don't Just Protect Your Hearing
- Improve It When You're at the
Range or in the Field

NoiseBarrier® Micro electronic, noise-canceling ear plugs are high-end hearing protection devices that come with their own little "ground support equipment" and charging station. They provide unsurpassed situational awareness and clear communication, while protecting your hearing from loud noises, with up to 40 dB of impulse noise protection and up to 15 dB adaptive noise attenuation. The NoiseBarrier also AMPLIFIES quiet sounds up to 5 times, so you can easily hear "safe" sounds. One-button touch pad, two-mode operation. Both the earpiece itself and the case it... they (you DO get two!) come in are IP67 water resistant.

#100-039-255 NoiseBarrier Micro Ear Plugs, 9Z00BTN..... \$ 399.99

PRO-EARS DIMENSION GOLD™ STALKER™ ELECTRONIC MUFFS

Latest Audio Technology Lets Normal Sounds
Through While Compressing Dangerous
Noise To A Safe Level

Designed for hunting and range use, lightweight, compact Stalker muffs have advanced electronic circuitry that reacts instantly to block the sound of gunshots and protect your hearing. Dynamic Level Sound Compression (DLSC) technology reduces loud noises to a safe 70 dB level in less than 1.5 milliseconds, yet lets you hear normal conversation and range commands. Separate amplifier circuits and volume controls in each ear cup provide directional stereo sound and eliminate wires that can snag or break. Volume controls offer 50 dB gain so you can amplify low-level sounds as much as 8 times their actual level - without compromising protection from hearing damaging noise - to help the hunter hear game from long distances. Lets you hear your own movement, too, so you hear what the game hears. "Chop side" ear cups contoured for better cheekweld when mounting long guns, while soft fleece pad prevents noise of cup contacting stock and spooking game. Extra-soft, padded ProForm Leather ear cushions and a fully padded, adjustable head band provide maximum wearer comfort, even over glasses. Leather allows skin to breathe more naturally than synthetics during long sessions.

These muffs are user programmable to change gain sensitivity, and have an audible indicator that warns you when the batteries reach 50% and 90% discharge levels. Auto shutoff circuit cuts power after 4 hours of continuous operation to prevent accidental battery drain. Non-corroding gold-plated connectors provide superior conductivity for best possible sound quality, and fully enclosed military-grade circuit boards stand up to extremes of temperature and weather. "Smart" 8-bit microprocessor performs a complete diagnostic of the electronics every time you turn on the muffs, while a flashing LED gives you visual feedback that the diagnostic is in progress, so you know your muffs are working properly before you fire a shot. Input jacks and a 48" cable with standard 3.5mm mini plug let you feed the audio output from a radio, mobile phone, MP3 player, or other electronic communication device to your muffs. *Ships directly from manufacturer. Please allow 5 additional business days for shipping.*

SPECS: NRR 25. 11.1 oz (315g) wt. with batteries. Shock-resistant composite housing, supports, and head band. Uses four (4) 1.5-volt N-type batteries, included. 200 hour battery life.

RADIANS VERTEX™ LOW-PROFILE ELECTRONIC EARMUFFS

Classic Over-the-Ear Muffs With
Noise-Cancellation Circuitry

With 19dB of noise reduction, the Radians Vertex™ ultra-slim muffs are an excellent hearing protection solution for both the range and the field. Dual stereo microphones amplify quieter ambient sounds, while advanced circuitry shuts down dangerous noises with no lag time. Fast-charging (via the included Micro-USB cable) Lithium-ion power cells provide longer run times than traditional battery-powered muffs, with no need to buy replacement batteries EVER. Durable stealth rubber coating provides an excellent seal around the ears for enhanced sound protection. The compact folding headband means these muffs take up the bare minimum of space in your range bag, yet can also sit comfortably on your head for hours. Sound compression over 85dB. 19 dB NRR.

RADIANS VERTEX™ NANO ELECTRONIC EARBUDS

The Benefit of Electronic
Muffs Without the Bulk

Vertex™ NANO in-ear hearing protectors combine the minimal bulk of traditional ear plugs with the capability of electronic ear muffs to amplify ambient sounds. They fit comfortably in the ears for all-day wear and still deliver a hefty 25 dB of noise reduction when the gunshots go off. The micro-circuitry has two mode levels for standard and enhanced amplification of ambient sound with less than 0.02 seconds reaction time to shut down and protect your hearing from dangerous noise impulses. Dedicated right and left plugs are each powered by an ultra-efficient 312 zinc air cell with up to 120 hours of battery life. And each NANO set comes with TWO pairs of batteries. High and Low sound compression options (85dB and 105dB), 5x enhancement of everyday sounds, and carrying case. 25 dB NRR.

SUREFIRE EARPRO SONIC DEFENDERS

Noise Filter Blocks Loud Sounds
To Help Prevent Hearing Damage

In-the-ear plugs help prevent hearing damage by blocking potentially dangerous noise from entering the ear canal. Internal Hock-sNoise Braker® blocks sounds above 80dB, but allows attenuated sounds below that level to pass, so your ability to hear conversation is not adversely affected. Made from a soft, comfortable, hypoallergenic medical-grade polymer that's ergonomically shaped for a tight seal and secure fit that won't work loose. Where extra sound isolation is desired, insert attached stopper plugs to block low-level sounds as well. Available in the original EP3 standard model (24dB NRR) that fits most people and the most advanced EP7 Ultra that gives an even stronger 28dB noise reduction. Low profile lets them fit under wearing a mask, helmet, hat, or while using phone, headphones, or supplemental hearing muffs. Both models come with detachable lanyard.

SPECS: Soft polymer. One pair, right and left. Medium size fits most ears.

NEW! SAFARILAND LIBERATOR® HP 2.0 ELECTRONIC HEARING PROTECTORS

Premium Protectors With Three Easy-To-Switch Sound-Management Modes

The Liberator® HP 2.0 electronic headset is designed and manufactured in the U.S.A. to provide crisp, clear audio of ambient sounds PLUS enhanced hearing protection from gunfire noise and other high-decibel, constant background audio. The wearer is protected while advanced sound localization via the stereo microphones gives you maximum situational awareness and the ability to easily detect what direction sounds are coming from. The durable, scratch-resistant fiberglass-reinforced, injection-molded polymer earcups are slim so they don't get in your way without requiring you to accept a lesser level of noise reduction. Comes standard with gel ear seals for maximum comfort when worn for extended periods. Advanced electronics provide multi-mode adjustability with Active Noise Reduction (ANR) and Active Noise Cancellation, both operating simultaneously. There are three hearing protection modes: **ENHANCED MODE** blocks loud noise but allows speech and environmental audio to be heard; **CLARITY MODE** blocks all external noise except speech; **MOVE MODE** blocks ALL external sound. "Dual Fuel" battery compartment gives you the option to run your Liberators on either 2 AAA or 1 CR-123 battery, 160-300 hour runtime (mode dependent). Available in two configurations: traditional **Over-the-Head (OTH)** and **Behind-the-Head (BTH)**. 26dB NRR.

WALKER'S GAME EAR PASSIVE HEARING-PROTECTIVE EAR MUFFS

No Electronics But Excellent Sound Reduction Properties

Walker's active hearing-protection equipment relies on electronics to provide noise reduction, and these muffs also often work to amplify select sounds in a shooter's environment, allowing shooters to communicate easily. If you're operating in environments where you don't need to hear low-level ambient sounds OR taking friends to the range and need to make sure they have hearing protection, Walker's PASSIVE muffs are an effective, affordable option - and there are several models to choose from.

RAZOR SLIM MUFFS - These muffs have slim, low-profile earcups that won't get in the way of a solid cheek weld, and the wire-reinforced headband provides comfort for all-day wear. When you're done shooting, they fold into a compact package that you can stash in your range bag for future use. Total NRR is an excellent 27 dB.

- #100-036-650** Razor Slim Passive Muffs, Black, 5C17F09 \$ 18.99

RADIANS SHIFTT™ INTERCHANGEABLE LENS SHOOTING GLASSES

Quick-Change Lenses Help You Adapt To Any Lighting Conditions

Polycarbonate glasses protect your eyes and help you see targets better under all light conditions. Lightweight polymer frame has soft rubber nose piece and ear tips for comfortable all-day wear. See targets clearly indoors or outdoors, dawn to dark, through the five, interchangeable one-piece lenses: Green Mirror (best for bright sunlight), Copper (enhanced depth perception, medium sunlight), Amber (low light), Clear (indoors/night), and an Orange lens that helps minimize eye strain. Lenses meet ANSI Z87.1+ impact standard and provide 99.9% UVA/UVB protection. Comes with foam-lined zippered case and includes replacement nose piece, neck lanyard, and cleaning cloth.

SPECS: 2mm thick polycarbonate lenses in Green Mirror, Copper, Orange, Amber and Clear. Polymer frame. Rubber nose piece and ear tips. 6" (15cm) wide x 1 1/4" (4cm) high. 1 oz (29g) wt.

- #100-010-560** Shift Shooting Glasses, 8B67A44 \$ 70.99

RADIANS SHOOTING GLASSES

Lightweight, Comfortable, UV-Blocking Eye Protection Meets ANSI Standards

Economical, practical shooting glasses deliver an unhindered view of the target for shooting any time - day or night. Clear, impact-resistant polycarbonate lenses meet ANSI Z87.1 standards to protect your eyes from flying brass, debris, and 99% of harmful UVA/UVB rays. **Origin** glasses feature a fog-resistant one-piece lens, 4-position length-adjustable, rubber-tipped temples, and a self-adjusting rubber nose piece to prevent slippage. **Black frame. Revelation** glasses feature individual lenses, 5-position length-adjustable temples, and a rubber nose piece. **Black frame.**

- #105-000-081** Origin Shooting Glasses, 8B9L34 \$ 10.99
- #105-000-080** Revelation Shooting Glasses, 8B10M19 11.99

RADIANS OUTBACK™ CLEAR LENS & BLACK FRAME EYEWEAR

Tough, Lightweight & Distortion-Free

Durable, wrap-around style shooting glasses are lightweight, comfortable and impact-resistant to keep your eyes protected from flying debris while at the range. Hardcoat, scratch-resistant lens provides the shooter with distortion-free, optically correct views of the target, and blocks 99.9% of harmful UVA/B rays. Rubberized nose pads, temple tips and a removable neck cord ensure the glasses stay securely in place while moving or changing shooting positions.

SPECS: Polycarbonate lens, clear. Polymer frame with rubber nose piece and temple tips, black. ANSI Z87.1 compliant for impact resistance. Includes neck cord.

- #105-000-066** Radians Outback Shooting Glasses, 8B6D79 \$ 7.99

WILEY X VALOR SAFETY GLASSES

High-Impact Protection With Polarized Lenses

Shatterproof lenses are rated by OSHA as occupational-grade protective eyewear, and meet the GL-PD 10-12 MCEP standard for impact resistance that supersedes the old MIL-PRF-31013 ballistic standard. Protects your eyes from impact and 100% of UV radiation when you're outside. Polarized lenses with Smoke Gray tint. *Ships directly from manufacturer. Please allow 3 additional business days for shipping.*

SPECS: Polymer frame, black, high-impact resistant polycarbonate lenses. Meets ANSI Z87.1-2003 impact and optical performance standard. Fits medium to large adult-size head.

- #100-012-149** Valor Glasses, Polarized Smoke Gray, 7A107H34 \$ 112.99

RADIANS RSG-3™ INTERCHANGEABLE LENS SHOOTING GLASSES

Comfortable, Lightweight Eye Protection With Interchangeable Lenses

Comfortable, lightweight, metal-framed shooting glasses include three easily interchangeable lenses so that you're prepared in any light condition. Clear lenses deliver maximum light transmission for indoor or nighttime shooting, while the amber lenses assist with identifying targets in low-light conditions. Orange lenses help reduce glare and provide contrast when engaging targets in direct sunlight. Wrap-around cable ear temples and an adjustable rubber nose piece ensure that the glasses stay securely in place during movement.

SPECS: Metal frame, black. Meets ANSI Z87.1+ standards. All lenses block 99.9% of UVA/UVB rays. Includes Clear, Amber and Orange lenses, fold-over carry case, cleaning cloth and side shields.

- #100-011-377** Radians RSG-3 Shooting Glasses, 8B57B59 \$ 63.99

BROWNELLS SHOTGUN DUMP POUCH

For Fast, Easy Reloading During Competition

Heavy duty, 1000 denier Cordura® nylon pouch hangs at thigh level for quick, easy access to your shells when shooting trap, skeet, and clays. Durable, double-titched partition divides the pouch into two separate compartments, one to hold a box of shells for 25-round competition, the other to store empties. Side mounted pocket is ideal for storing your shooting glasses, extra choke tubes or other gear and includes an overlapping cover with hook-and-loop latch for a tight seal that won't open unexpectedly. Conveniently located elastic shell holder stores up to three extra shells for quick access. Brass coated "D" ring allows attachment of additional accessories like ear muffs or range cloth. Adjustable belt provides a custom fit to any size shooter.

SPECS: Pouch - 1000 denier Cordura nylon, brown. 7" (17.8cm) long, 5" (12.7cm) wide, 8" (20cm) high. Pocket - 4 1/2" (10.8cm) long, 1" (2.5cm) wide, 7" (17.8cm) deep, 20 oz. (567g) wt.

- #084-000-305** Dump Pouch, 4H42174 \$ 44.99

BROWNELLS

SIGNATURE SERIES RANGE BAG

Versatile, Two-In-One Design; Holds All Your Gear For Competition & Range Work; The Ultimate Range Bag

The Signature Series Range Bag is a full-featured bag, designed to perform and built to last. It's actually a versatile, two-in-one bag system that features a roomy, outer bag with large exterior, bellow pockets and an inner, open bag with adjustable dividers, padded pistol inserts, magazine pouches and much, much more. Both bags are constructed of long lasting, 1,000 denier, Cordura® nylon with non-scratching, self-healing, YKK zippers and solid brass pulls. We added top-grain, leather straps to the zipper pulls to make opening and closing the "high-use" compartments easier when wearing shooting gloves. Adjustable shoulder strap is made of strong, 1½" wide nylon webbing and includes a comfortable pad lined with non-slip, suede leather. Quickly detachable, brass-plated swivel clips are springloaded for extra security and allow shoulder strap to be interchanged between inner and outer bags. Inner bag provides safe transport for match pistols when you don't want to leave them in your competition holster. Use the inner bag to carry just what you need to the firing line and for fast "bag-up" after shooting. If you have a lot of gear, use the bags separately for nearly twice the storage capacity. The double-layered, ¾" thick, corrugated bottom panels in both bags give full support for heavy loads of ammunition, pistols, tools, sandbags and other shooting accessories while retaining the original shape of the bag.

Outer Bag:

- Moisture-resistant, 1000 denier, Cordura nylon.
- Large, main compartment with zippered top, measures 18" long, 9" wide, 12" high.
- Zippered, main, side pocket: 17" long, 2½" wide, 10" high. Holds shooting glasses, muffs, and cleaning supplies.
- Two, padded end pockets 7" long, 2½" wide, 10" high provide ample room for choke tubes, spare parts, etc.
- Two, flat, zippered pockets 18" long, 7" and 8" high for targets, notebooks, ballistic sheets, etc.
- Four, brass-plated D-rings provide lockable storage when used with your own padlocks.
- Adjustable shoulder strap with quick-release, swivel clips.
- 2" wide, wrap-around carry handles with contoured grip area and hook and loop carry handle.
- Self-healing zippers and solid brass, #9 zipper pulls.
- Full ¾" thick, bottom panel is composed of two, corrugated, double-wall, plastic sheets glued, then layered in opposite directions for superior strength and rigidity.

Inner Bag:

- 1,000 denier Cordura nylon with knit back expanded vinyl lining for excellent water-resistance.
- Two, fully padded pistol inserts with soft, wool-like Sherpa® lining and hook and loop closure straps fit inside the full-length, zippered side pockets for extra security. Accepts scoped, competition guns, spotting scopes, etc.
- Two, removable, high-strength, plastic dividers with reinforced hook and loop edging for spacing adjustments provides up to three individual compartments.
- Brass-plated D-rings for shoulder strap attachment.
- ¾" thick, double-layered, bottom panel supports heavy gear.
- Padded end panels for extra protection of inner bag contents.
- Six, individually sewn, magazine pouches.

Our bag-in-a-bag design makes it easy to bag-out for each stage and not carry everything to the line. Plenty of compartments hold gear plus, the hard bottom and Sherpa lined handgun pouch protects your match gun.

EBERLESTOCK BANG BANG RANGE BAG

A Rugged, Versatile Bag for Securely Transporting Guns-n-Gear to the Range

The Bang Bang bag is big enough to hold a lot of gear, but not so big it ever becomes a burden schlepping it to and from the range. It has a tough 1,000-denier nylon shell securely attached to a deep polycarbonate base that's impervious to wet ground, rocks, debris, range dust, or whatever adverse stuff the typical shooting range can dish up. The large, padded, main compartment (14" long x 10" wide x 6.5" high) has plenty of room for handguns and other gear, plus movable dividers so you can configure it to carry whatever you need - securely, without stuff shifting and rattling around. There are mag pouches and organizers in the big, separate zippered compartments at each end (3.5" long bottom/6" long top x 9.5" wide x 9" high), and grapple straps for attaching shooting mats and gun cases. Exterior: 22" long x 12" wide x 10" high.

BROWNELLS SIGNATURE SERIES SHOOTING BAG

Holds All Your Gear For Competition & Range

We've incorporated many of the same great features of our original Signature Series Range Bag into a slightly smaller, more compact bag with bellows pockets, adjustable dividers, magazine pouches, six individual shotshell holders and much, much more. Constructed of long lasting, 1000 denier, Cordura® nylon with non-scratching, self-healing, nylon YKK zippers and solid brass pulls. We put top-grain, leather straps on the zipper pulls to make opening and closing the "high use" compartments easy when wearing shooting gloves. Adjustable, detachable shoulder strap is constructed of strong, 1½" wide nylon webbing and includes a comfortable pad lined with non-slip, suede leather. Quick-detach, brass-plated swivel clips are spring loaded for extra security and ease of removal. Double layered, ¾" thick, corrugated bottom panels provide full support for heavy loads of ammunition, pistols, tools, and other shooting accessories, while retaining the original shape of the bag. The Signature Series Shooting Bag is a full-featured bag designed to perform and built to last. ■

GREY GHOST GEAR ROLL-UP DUMP POUCH

MOLLE/PALS Compatible Storage When You Need It - Stows Away Easily When You Don't

Handy pouch rolls up to take up a tiny amount of space, so it fits easily in a pocket, range bag, or backpack. When you find yourself in need of a container to help you carry extra stuff, GGG's pouch unfurls to provide an amazing amount of carry volume. A simple cinch strap closure ensures that any gear in the Roll-Up Dump Pouch is secure. And it will attach to MOLLE/PALS webbing with the included MALICE clips, so no matter where you go or what you do, you have extra storage you can deploy on the go. Made of tough 500-denier Cordura® nylon laminate with Fastex buckle.

UNIQUETEK BRASS WIZARD

Helps You Pick Up Spent Brass Quickly & Easily

Handy tool makes range cleanup fast and easy. Simply roll the wire drum over your spent brass for quick pickup on sand, dirt, grass, and hard surfaces. No more bending and hunting for your cases, no more handling dirty brass. Scoops up all sizes from .380 Auto to rifle cases, even shotshells and .50 BMG. Aluminum handle has comfortable PVC hand grip at the top, and is adjustable for length from 30.5" to 49". Includes a wire "dumper" bracket that attaches to a utility bucket to enable release of the captured brass with a simple twist of the handle. ■

SPECS: Steel basket, chromed, and aluminum handle. Handle length adjustable from 30.5" to 49".

- #100-007-556 Brass Wizard, 4B55H24..... \$ 64.99

SHELL SORTER

Quickly Sort Mixed Brass By Caliber

Designed to sort several common calibers, these ABS plastic pans feature slots which prevent specific size cartridges from passing through. Sorting trays fit on top of a five gallon bucket, and with a few shakes all the smaller brass falls into the bucket, leaving your brass in the tray. For faster results, stack all three pans together with yellow on top, blue in the middle, and the black tray on bottom to sort multiple calibers at once. Yellow tray sorts .45 ACP, .45 GAP, .44 Mag., .50 AE, .243, .308, 7.62x39mm, and .45 Colt. Blue tray is for .40 S&W, 10mm, .357 Mag., and .38 Special. Black tray is ideal for 9mm, .380 ACP, .38 Super, and .223. Trays are sold in sets of three. ■

NEW! "SHMEDIUM" GAME-CHANGER® SHOOTING BAG

A Bag So Secure, You'll Have To Claim "Unexpected Wind Gust" When You Miss!

What do you call a shooting bag that's not really small but isn't really medium, either? The folks at Armageddon split the different with their "Shmedium" mid-sized Game-Changer® shooting bag. It gives you excellent support, thanks to the unique size and heavy silica-based fill material. The size falls between Armageddon's legendary Pint-sized and OG bags. And the Shmedium comes with an all-new handle configuration that makes it easier to transition out of and into different shooting positions. You also get a folded access pocket that allows you to adjust the amount of fill in the bag. Don't let the weight of this bag throw you off. At 8.5 lbs. it's a little heavy, but what's more important, a lighter bag or shots on the target? The Shmedium bag gives you benchlike-precision when shooting off barricades because of its stability. Measures 8" x 5" x 3" and features two nylon handles. ■

ADVANCED TECHNOLOGY UNIVERSAL FEATHERWEIGHT BIPOD

Provides Rock Solid Support Without Weighing Down Your Rifle

Solid, glass-filled nylon bipod mounts to any sling swivel stud to provide superior forend support, yet is so lightweight you'll hardly know it's there. Telescoping legs with non-skid rubber feet adjust from 9" to 13" high to accommodate shooting prone or from the bench. Snap-n-lock button allows legs to conveniently fold and lock to the front or rearward position. Interchanging swivel collars let you assemble the unit for swivel motion or a locked position. Included neoprene pad protects the mounting surface of your stock. Additional hardware allows direct mounting to round, mil-spec AR-15 handguards without modification. Includes instructions. ■

SPECS: Glass filled nylon, black, matte finish. 8.4 oz. (238g) wt. Adjusts from 9" (22.9cm) to 13" (33cm) high.

#019-000-016 Featherweight Bipod, 9A44M80. \$ 55.99

SATISFACTION GUARANTEED SINCE 1939

ACCU-SHOT ATLAS BIPOD

Lightweight Bipod Gives Wide Range Of Adjustment

Aluminum bipod features stainless steel locking components and independently-adjustable legs that allow up to 180° front-to-back movement, 30° left-to-right pans and 30° of cant. Makes it easy to align your crosshairs and track a target, regardless of position or terrain. Legs extend from 5" to 9". Grippy rubber feet keep the bipod secure on most surfaces. Available with three attachment options: **Picatinny Quick-Detach (QD)** lever mount, **Picatinny 2-screw mount**, and a **"No-Clamp"** model that uses adapters, sold below, to fit any 17S lever-style mount or the AICS spigot mount, including the A.R.M.S. 17S, American Defense AD-170, Badger Ordnance TRAMP, or LaRue Tactical LT271. **SPECS:** Aluminum, matte black finish.

- #100-012-043 Atlas Bipod w/2-Screw Picatinny Mount, 5E00KFI \$ 219.95
- #100-012-045 Atlas Bipod w/QD Picatinny Mount, 5E00ACL 279.95
- #100-012-044 Atlas Bipod No-Clamp, 5E00FAH 219.95

LEG EXTENSIONS & MOUNTING ADAPTERS - Leg Extensions easily snap on and off, and give 3" more elevation to Atlas BipoDs. Aluminum, matte black finish. Rails and adapters serve as attachment points for Atlas BipoDs and expand mounting options. **1913 Rail** is available in 3.35" length that accommodates hole patterns with 1.76"-2.78" center-to-center spacing. Fits curved surfaces. Also available in 4" length that accommodates hole patterns with 2.2"-3.5" center-to-center spacing and fits flats surfaces. **Adapter For AI/AICS** plugs into AI/AICS stocks and accepts the No-Clamp version of the Atlas Bipod.

ACCU-SHOT ATLAS PSR BIPOD

Bipods Give Rock-Solid Support For Tactical Rifles

The PSR adds to the features of Accu-Shot's original Atlas bipod based on feedback from civilian shooters and military/law enforcement professionals. The PSR features strengthened bosses and limited leg rotation for extra stability. **Standard PSR** legs extend 5" to 9", while **Tall PSR** extends 7" to 13". Both available with quick-detach Picatinny mount or a no-clamp

attachment that fits any 17S size lever-style mount when using the A.R.M.S. 17S, American Defense AD-170, Badger Ordnance TRAMP, or LaRue Tactical LT271 adapter (all sold separately). Aluminum construction gives strength without weighing down your rifle. **SPECS:** Machined 6061 T6 Aluminum, hardcoat

ACCU-SHOT SUPER CAL BIPOD

A Sturdy, Extremely Stable Bipod That Lives Up To Its Name

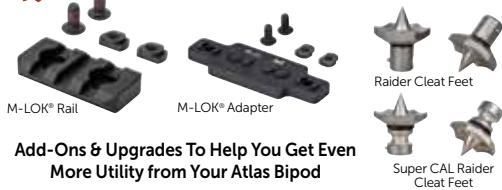

The Super CAL's feature set is so impressive you might find yourself declaring it "SUPERCALIFRAGILISTICEXPLIADICIOUS"! The Super CAL (Cant And Loc) has a wide stance that provides a marvelously lower center of gravity. It offers 45° leg positions, non-rotating legs, quick-change feet, and Accu-Shot's "Hold What You Move Technology™". Lightweight 6061 T6 aluminum construction, mil-spec Type III hardcoat anodized, with heat-treated stainless steel components. Cant adjustment is locked in via the original KMW "Pod-Loc™" mechanism because sometimes you just can't improve on a legend! Leg height adjusts from 5.6" to 10.8", with 45-degree pre-loaded cant. Legs are non-rotating (outer leg does not rotate around inner leg), but you can choose one of five leg positions: 0, 45, 90, 135 or 180 degrees. Approx. 22 oz. wt. Footprint: 14.75" to 19.37". Available with the mounting options listed below. **SPECS:** Aluminum, matte black finish.

ACCU-SHOT BIPOD ADAPTERS & ACCESSORIES

Add-Ons & Upgrades To Help You Get Even More Utility from Your Atlas Bipod

M-LOK® Adapter is an interface between all Atlas bipods with the "NC" designator in their names (BT10-NC, BT46-NC, BT47-NC, BT35-NC, BT65-NC, BT69-NC, BT72-NC) and M-LOK® compatible mounting systems. It requires two (2) standard-sized M-LOK® slots for mounting. Machined from 6061 T6 aluminum and Type III hardcoat anodized, matte black. Comes with two 10-24 x 3/8" fasteners and two M-LOK nuts. **M-LOK® Rail** is designed for use with all M-LOK compatible handguards, forends, and buttstocks. It has three (3) usable slots for attaching any MIL-STD 1913 Picatinny rail-mounted Atlas bipods, Accu-Shot Monopods, or Atlas's Folding Foregrip. It requires standard M-LOK type slots for mounting. Machined from 6061 T6 aluminum and Type III hardcoat anodized, matte black. Comes with two 10-24 x 3/8" fasteners and two M-LOK nuts. **Atlas Raider Cleat Feet** are turned from 303 stainless steel barstock in one piece for outstanding strength and durability. They fit V8, PSR, and CAL model Atlas BipoDs, as well as adapters that use Accu-Shot feet. Easily installed with the press of a stainless steel plunger. The cleat portion is approximately 0.75" long, with the largest outer diameter of approximately 1.155". Sold as a pair. Available in raw stainless steel only. **Atlas 5-H & Super CAL Raider Cleat Feet** are turned from 303 stainless steel barstock in one piece for strength and durability. They fit 5-H and Super CAL model Atlas BipoDs. Easily installed with the press of a stainless steel plunger. The cleat portion is approximately 0.85" long with the largest outer diameter of approximately 1.443". Sold as a pair. Available in raw stainless steel only. **SPECS:** Aluminum, matte black finish.

BADGER ORDNANCE LOW-PROFILE BIPOD KIT

A Harris Bipod Matched To Badger's Ultra-Stable LPHM Mount

The LPBK comes with a specially-made Harris BRM-S bipod with 6" to 9" adjustable leg length, along with Badger's Low-Profile Harris Mount (LPHM) with choice of **Picatinny** or **M-LOK** attachment. The leg extension buttons have been moved to the inside where they can't be accidentally hit when using the bipod as a barricade block. The LPHM incorporates a built-in recoil lug, two socket head cap screws, and a clamp foot. It's an excellent, ultra-low-profile mount that offers the strength needed to work off barricades. Constructed of 7075 T6 aluminum, with a Type III hardcoat anodized finish for a lifetime of flawless function. **SPECS:** Aluminum, matte black finish.

BOG GEAR DEATHGRIP TRIPOD

A Shooting Platform As Serious As Its Name

The BOG™ DeathGrip tripod is engineered to be the stables precision tripod on the market. Its aluminum legs have unmatched durability for hunt after hunt, while the unique-design clamp secures any rifle hands-free, freeing the BOG™ hunter to glass or call on the hunt with ease. The sturdy aluminum legs reduce its overall weight, making it highly portable without sacrificing stability. The BOG™ DeathGrip is also available in extra lightweight **Carbon Fiber** to reduce its overall weight even more, making it highly portable without sacrificing stability. The strength of the carbon fiber legs decreases the amount of flex, making this precision tripod extremely accurate for even the beginning hunter.

BOG GEAR HAVOC TRIPOD

Light Weight & Portability PLUS the Extra Stability of a Third Leg

The Havoc tripod is for hunters who want extra stability beyond the Havoc bipod but still can't afford to lug around a heavy, old-fashioned shooting tripod. It is ideal for "ambush" situations, but still combines durability with, most importantly, stability. The twist-style leg locks allow for quick deployment, while the USR shooting yoke provides 360 degrees of shooting comfort. **SPECS:** Aluminum, matte black finish.

- #100-041-960 Havoc Tripod, 6B34G50 \$ 84.99

NEW!

BOG GEAR ADRENALINE TRIPOD

Modular System Lets You Use One Tripod for Rifle, Spotting Scope, Camera & Binoculars, As Needed

Engineered to give hunters a stable, versatile, and highly portable shooting platform, the BOG Adrenaline tripod incorporates their proprietary Switcheroo Shooting System for fast swaps of interchangeable mounting heads for binoculars, spotting scopes, or cameras on a single support system so there's less gear to carry in the field. Lightweight aluminum legs have three sections that allow them to collapse into a compact form factor. Each leg is outfitted with rapid-adjustment lever locks for fast and easy setup and can adjust from 18", for those who prefer shooting from a seated position on the ground, up to 68" to accommodate those who shoot kneeling or standing. All three upper leg sections have high-density foam grips for comfortable handling, and each leg is outfitted with rubber feet that absorb shock and vibration while delivering non-slip performance on smooth and wet surfaces. For extremely slippery terrain, like shooting on ice or in freezing rain, each rubber foot twists up to reveal a steel tip that provides enhanced traction when stability matters most. The included Universal Shooting Rest swivels 360° for maximum field of fire coverage and has a supple yet durable rubber padding that prevents slippage or damage to the firearm stock. A retention strap is also provided to hold the legs together when the tripod is collapsed for easier and safer carrying in the field and through the bush. **SPECS:** Aluminum, matte black finish.

- #100-041-963 Adrenaline Tripod, Black, 6B34G50 \$ 109.95
- #100-041-964 Adrenaline Tripod, Camo, 6B34G50 119.95

FIELDPOD TRIPOD****Supports Your Rifle So Your Hands Are Free To Use Binoculars, Take Photos or Just Rest Until the Moment Arrives**

The FieldPod is engineered for long hours of waiting for the perfect shot. Its light weight makes this compact 'pod' easy to carry and travel with, while its innovative design and versatility make it ideal for just about any hunting situation you're likely to encounter. By holding your rifle, the FieldPod frees up your hands to scan the terrain with your binos or take photos. With an upper frame balance point adjustment, bubble level, screw out spike feet, and independent height adjustable front and rear supports with independent leg adjustment, this rest is solid before, during, and after every shot. The FieldPod is perfect for ground blind sitting. Carry strap is included providing easy transport when in the field and on the go. Max model offers an additional 6" of leg extension.

- #100-041-968  **FieldPod 20"-42", 6B34G50** \$ 119.95

**KFS INDUSTRIES
MODEL 2 VERSA-POD®****Fold the Legs & Go; Extend Them To Have a Secure, Sturdy Shooting Rest Anywhere, Anytime**

Modular, two-piece bipod design provides easy, push-button bipod removal. In the field you can carry the legs on your rifle or in a backpack. Multi-pivot head pans right and left; cants to compensate for uneven ground. Height adjustable (9" to 12") legs may be folded to the front or rear. Model 2 is designed for bench/prone use and has rubber

feet. Mounts to QD swivel stud. Mounting adapter included.
SPECS: Bipod - Steel and aluminum, black, matte finish. Adapter - Polycarbonate, black.

- #100-000-300 **Model 2 Versa-Pod Bipod, 3K81J89** \$ 90.99

**Sinclair
GEN 3 F-CLASS BIPOD****Solid, Stable, Lightweight**

The Sinclair F-Class Bipod is used by shooters in F-Class Competition, varmint hunting, load testing, tactical shooting, sighting in rifles, and more. It provides an extremely strong, stable, and comfortable platform for nearly any rifle. It was designed with input from many shooters, including members of the "Team Sinclair" shooting team - who've won the F-Class National Championships. Now in its third generation, it is available in fixed configuration and with a quick-adjust elevation knob for fast target acquisition and reliable follow-up shots. Made from 7075 T6 aluminum, it's light yet rigid. The Elevation Bipod weighs 1 lb. 15 oz. and the Fixed Bipod weighs 1 lb. 11 oz. Adjustable legs have laser etched graduations so you can easily return to a favorite setting. The locking feature enables you to adjust and lock changes for rifle cant quickly and easily. The rifle mounts to the bipod using its sling swivel stud and the captured bipod's pin system. Two tensioning knobs let you pull the stock against heavy, low compression felt pads for a movement-free mount. 

- #749-013-031 **F-Class Bipod w/Quick-Adjust Elevation, Matte Black, 8H230M84** \$ 242.99
#749-013-029 **F-Class Bipod Non-Elevation, Matte Black, 8H170E99** 179.99

**CALDWELL
ACCUMAX PREMIUM BIPOD****Stable Shooting Platform That's Lightweight & Easy To Use**

Compact, folding bipod attaches to the forearm or handguard of your rifle to give you a stable, quick-deploy support platform wherever you are. Legs can be extended quickly to full length and fold neatly forward along the forearm when not in use. Legs are made of lightweight carbon fiber - only 8.8 oz. all up! - with a spring-loaded twist-lock mechanism that lets you deploy them quickly - and take your shot with the assurance that this 'pod' is locked in place and won't shift. A quick push of the release button on each leg lets you retract it just as quickly. Leg angle can be adjusted up to 180 degrees, and you can even adjust the swivel tension. Non-slip rubber feet keep the AccuMax from "walking" around while shooting (but we still don't recommend shooting from the hood of your car!). Central core and all critical stress points are made of sturdy stainless steel, with a matte black finish. Models available for Picatinny rail and M-LOK®/KeyMod® attachment. XLA model has an extra-low-profile M-LOK®/KeyMod® mount for situations where you need a bipod that adds the barest-minimum additional bulk below the rifle's handguard/forend. All three available with legs that extend 6"-9" OR 9"-13", with multiple stops in between.

NEW! **HARRIS BIPODS****Closest Thing To A Traveling Benchrest**

Mounts to QD swivel studs on bolt action and single-shot rifles for ultimate field accuracy. Won't change zero; added weight steadies gun. Spring-loaded, telescoping legs have fixed notch and sliding adjustments for leg height; fold parallel to barrel for carrying. Series 1A2 bipods have solid base and do not swivel or rotate. Series S bipods rotate 45° for instant leveling on uneven ground. Buffer springs and adjustable tension on hinged base help eliminate tremor. All Adapters fit either Series bipods. Not recommended for lever actions. 

SPECS: Aluminum and high carbon steel, anodized, black finish. Adjustment height range is from resting surface to center of bore. Model BR: For benchrest use. BRM has equally spaced height adjusting notches. Model H: For prone/sitting. Model L: For bench or prone. Model LM: Notch only height adjustments. Model 2S: Three Section legs. Model 25C: Extra tall three section legs. #9 Adapter requires swivel stud mounted to stock.

S-BR2 SELF-LEVELING BIPOD - Here's a variation on the classic Harris bipod that also allows you to make quick adjustments to adapt to uneven surfaces, thanks to a built-in self-leveling mechanism. This system also enables you to quickly adjust leg height from your shooting position, and a twist of the locking mechanism keeps these settings locked in place. You can also tilt the rifle as needed to level it to nail the shot, and when you're done, spring-loaded "fingers" bring the bipod back to center as soon as you release the tilt pressure. Attaches to a sling swivel stud on the underside of your rifle's forearm; padding on the bipod mount protects the forearm's finish. Legs automatically extend from 6" up to 9" as soon as the thumb nut is loosened. Feet have rubber caps. Solid Base model does not cant but has the self-leveling feature. 

- NEW #416-000-005 **Solid-Base Self-Leveling 6-9" Bipod, 6A82C79** \$ 91.99

- NEW #416-000-004 **Rotating Self-Leveling 6-9" Bipod, 6A119P69** 132.99

BIPOD ADAPTERS - Gets you a sling swivel stud up front, on the forend, on rifles that don't normally have one, so you can mount a Harris bipod. Neat, clean installation; made of hardened steel, so it'll stand up to the job. Mounts a swivel stud on forend accessory rails. Fits rails approximately 3/16" wide.
SPECS: High carbon steel, anodized, black finish.

MAGPUL BIPOD**Lightweight Yet Strong; Amazingly Compact, Yet Full-Featured - The Ultimate Compact, Portable Bipod**

It was only a matter of time before the crew at Magpul got around to bringing their drive for innovation and "blank slate" engineering to the quick-detach bipod. The result is a strong, lightweight (11 oz. all up!), versatile 'pod' with adjustable-length legs that's available for the three most popular attachment systems: classic MIL-STD 1913 Picatinny, Magpul's own innovative M-LOK® system, the A.R.M.S. 17S attachment interface, and classic QD Sling Swivel Stud attachment. Construction is typical Magpul: lightweight, reinforced molded polymer where appropriate, mil-spec hardcoat anodized 6061 T6 aluminum alloy legs, and a rugged stainless steel internal mechanism. The exterior is smooth and uncluttered, pleasing to look at but practical, too, because there's nothing to snag on other gear or vegetation. Optimized for rapid one-handed adjustments, this bipod can quickly transition between a variety of user configurations. Deploying and adjusting the legs is quick and easy. The spring-tensioned legs stow neatly forward and lock into place with one hand. The leg extensions slide and lock securely with the push of a button on any of the seven (7) 1/2"-spaced locking detents. The legs extend a can be extended from 6.3" to 10.3", depending on your needs at the moment. An industry-exclusive 50° of total tilt and 40° of total pan are controlled by the glove-friendly, knurled tool-less locking knob between the extended legs, so adjustment between shots is easy. Additionally, you can lock pan at 0° while maintaining full tilt functionality. When you're not using it to shoot, the Magpul bipod will be barely noticeable. When folded, the streamlined housing and legs fit neatly under the barrel and are a mere 2.3" deep and 3.3" wide. In addition, tight, precise tolerances mitigate squeaks and rattles when you're on the move. A soft rubber cap is attached to the locking knob gives the shooter a steady, non-marring forward rest to use when shooting with the bipod folded. The soft rubber feet hold fast on a variety of shooting surfaces and are easily removed with a roll pin punch; if you need to change the feet, most Atlas-pattern bipod feet will fit, except the Atlas 5-H style.

AMERICAN DEFENSE**HARRIS AD-BP-P2 BIPOD MOUNT****Gives Your Harris Swiveling Bipod Even Greater Versatility**

The AD-BP-P2 mount gives your Harris swivel bipod quick attach/detach capability, so you can swap it from one gun to another as needed. Clamps securely to any MIL-STD 1913 Picatinny handguard rail; flip open the quick-release, and your bipod is ready to move. Screw-adjustable for gripping tension. Made of 6061 T6 aluminum with a durable, matte black, Type III hard-anodized finish. Includes two different-sized Delrin sleeves that enable it to accommodate both the actual Harris bipod and similar swivel bipods on the market. (Not compatible with the Tac Lever because the lever interferes with the mounted bipod.)

MODULAR DRIVEN TECHNOLOGIES CKYE-POD GEN2 BIPOD

Secure, Stable Shooting Platform With a Ton of Adjustment Options Built In

The sturdy CKYE-Pod Gen2 bipod from MDT is loaded with features and intuitive adjustability, including the MOST vertical adjustment of any bipod currently on the market. It was developed for the competitive shooter with a focus on strength, single handed operation and versatile configurations. It offers three locking positions from front to back: stowed, angled, and straight down. It's in a league of its own with quick single-handed adjustable height, allowing you to achieve from 4.5" to 15.5" elevation on the standard leg-length model, paired with 170 degrees of cant, 360 degrees of pan capability, and an integrated barricade stop. Mix and match the independent leg heights and angles to create the perfect shooting position, every time. Comes standard with unique spiked foot/claw for ultimate traction on any surface. But if you prefer rubber feet, the CKYE-Pod Gen2 Standard and PRS Short legs will accept any Atlas style feet. Constructed of lightweight aluminum alloy, tumble-deburred for a smooth tactile feel, and hardcoat anodized to resist corrosion and surface wear. Four leg length options: **PRS Short** (7.5" collapsed, 13" extended), **Standard** (9" collapsed, 15" ext.), **Double Pull** (9" collapsed, 18.5" ext.), **Triple Pull** (14.5" collapsed, 36" ext.). You can get your CKYE-Pod with a Picatinny, swivel stud, ARCA Swiss, or Really Right Stuff mount.

Sinclair

TACTICAL/VARMINT BIPOD

Provides A Solid Shooting Platform; Mounts To Sling Stud

Sinclair's heavy-duty aluminum bipod attaches quickly to the forward sling swivel stud. A hardened capture pin tightens with two tensioning knobs to pull the stock against heavy, low-compression felt pads for a secure, movement-free mount. (The pads protect the stock's finish, too.) Leg length is adjustable from 5 1/2" to 12 1/4", and the legs can be adjusted individually to adapt for uneven terrain. Positive leg stops ensure settings won't work loose under the effects of recoil. Cant adjusts up to 40° left or right. Can even be mount on an AR-15 using any standard sling stud adapter (available separately). **SPECS:** Aluminum, hardcoat anodized, and carbon steel, black. 26 oz. (737g) wt. Adjusts from 5 1/2" to 12 1/4". Adjustment height range is measured from resting surface to bottom of stock.

THE SECRET WEAPON FOLDING PICATINNY-MOUNT MONOPOD

Easy To Install Monopod Flips Down Whenever You Need Some Extra Support

This simple, adjustable monopod attaches to the Picatinny rail on the underside of a precision rifle stock and enables you to make incremental vertical (elevation) muzzle adjustments. It can also be used with a bag or as a stand-alone support. Works equally well when sighting in a scope, target shooting, or hunting. Adjusts from 4" to 6" and is easily adjusted using two fingers. Mounts quickly and easily to any Picatinny rail using the included 9/16" bolt and Allen wrench. The Secret Weapon monopod folds up against the bottom of the stock when not in use for easy transportation and storage. The base and hexagonal aluminum leg are made from billet aluminum for durability and reduced weight. The matte black Duracoated finish compliments most rifles. The threaded rod is made from 3/16" lightweight aluminum and includes a matte black knurled aluminum threaded stop nut to lock the foot into position. **SPECS:** Aluminum, hardcoat anodized, matte black finish. 3 3/8" (10cm) long. 1/2" (2cm) wide. 1 1/2 oz. (37g) wt. Screw spacing 3/4".

BROWNELLS PICATINNY BIPOD ADAPTER

Provides Secure Bipod Attachment For Railed Handguards

Low-profile adapter clamps solidly to any Picatinny rail handguard to provide a secure mounting point for bipods that attach to sling swivel studs. Increases your accessory mounting options without making permanent alterations to gun. Stud and base are precision machined from a single billet of high-grade 6061 T6 aluminum for maximum strength to handle the rigors of tactical deployment. Two robust cross-bolts and oversized, slotted hex nuts of heat-treated 4140 carbon steel lock the full-contact clamping bar tightly to the rail, and ensure the mount won't shift position even under heavy recoil. Also accepts a standard quick-release sling swivel, for rapid transition from bipod operation to sling use. **SPECS:** Body - 6061 T6 aluminum, hardcoat anodized, matte black. Thumbscrews & Bolts - 4140 carbon steel, black oxide finish. 2.125" (5.4cm) long, 1" (2.5cm) wide. Mount extends .357" (9.5mm) below rail. 2.7 oz. (76g) weight.

DOUBLE STAR PICATINNY RAIL BIPOD ADAPTER

Ultra-Secure Attachment Of Stud-Mounted Bipod To Railed Handguard

Precision machined aluminum and steel adapter clamps securely to bottom of railed handguard to let you mount a bipod that requires a sling swivel stud attachment point. Steel locking bar and three hardened steel hex head screws that also serve as recoil lugs attach to Picatinny and Weaver-style rails for an ultra-solid platform that won't slip even under heavy recoil. Streamlined design adds minimal bulk and weight to your weapon. **SPECS:** Hardcoat anodized aluminum and parkerized steel, matte black. 2 1/2" (6.7cm) long, approx. 1 1/8" (2.9cm) wide, extends 1/16" (1.1cm) below rail. 2.9 oz. (81g) weight.

GG&G BIPOD ADAPTER

Mounts Harris Bipods & Other Stud-Mounted Accessories To Railed Forearm

Bolt-on, low-profile adapter clamps to the Picatinny rail on the underside of a tactical rifle's forearm to allow mounting of a swivel stud-mounted bipod. Expands the accessory mounting versatility of your rifle without requiring permanent alterations to the weapon. Cross-bolt and locking bar mechanism provides secure rail engagement, even on worn or undersize rails. Radiused edges, counter-sunk bolt head, and locking bar recessed into the mount body give a smooth, streamlined profile and help resist catching on sling, vegetation, or other gear. Precision machined from solid 6061 T6 aluminum billet and Type III hardcoat anodized for extra strength and corrosion resistance, with a hard, non-reflective surface. Locking bar, cross-bolt, and stud are steel for maximum strength and durability. **SPECS:** Body - 6061 T6 aluminum, hardcoat anodized, matte black. Locking Bar, Cross-Bolt, Stud - Hardened steel, black oxide finish. 2 1/4" (5.7cm) long, 1 1/4" (3.2cm) wide. Mount body extends 3/16" (9.5mm) below rail. 2.3 oz. (64g) weight.

GROVTEC BIPOD STUD MOUNT ADAPTERS

Secure Bipod Mounting to Picatinny or M-LOK® Accessory Rails

Grovtec's stud mount adapters provide a low-profile, robust solution for attaching a bipod to a handguard or stock. Engineered to sit close to the mounting surface to provide superior support, strength, and stability. Screws hold them firmly on the rail and maintain a strong grasp that won't rattle loose during strenuous movement or high-volume shooting. These mounts are machined from high-grade aluminum alloy, with all edges and corners are beveled to eliminate sharp edges and prevent snagging, and hard-anodized matte black. Grovtec is calling these "bipod mounts," but they are in fact compatible with any accessory that attaches to a traditional sling stud. Models for **Picatinny** and **M-LOK®** accessory rails. All necessary attachment hardware included. **SPECS:** Aircraft-grade aluminum, hardcoat anodized, matte black finish. 2 1/2" (6.7cm) long, 1 1/4" (3.2cm) wide, 3/16" (1.6cm) high. 2.2 oz. (62g) wt.

MAGPUL M-LOK® TO RRS®/ARCA® ADAPTERS

The Missing Link - Found! Brings Two Popular Precision-Shooting Accessory Mounting Systems Together

These adapters attach to any M-LOK® slot compatible handguard and enable attachment of bipods, tripods, and other accessories that use the RRS® and ARCA® dovetail standard. It's a quick, simple solution to getting precision-shooting accessories designed for one popular attachment system to mate securely with the popular, tactical M-LOK system. Multiple drilled-and-tapped holes are optimally located to limit overall travel of accessories. Recoil lugs ensure the adapter stays firmly in place even during the most rugged use and heaviest recoil impulses, making for robust, precise, repeatable mounting solution. Sturdy machined aluminum construction with a hard-anodized finish, and comfortable, snag-resistant beveled edges. **2-Slot** and **4-Slot** models available; 4-Slot has a hardware access feature that allows removal of the front action screw on a rifle mounted in a Magpul Pro 700 chassis without having to remove the Dovetail Adapter from the chassis. **Pro Chassis** model is specifically designed for a very neat fit on a rifle with the Magpul Pro 700 chassis and offers the same action screw access without removing the dovetail adapter as the 4-Slot M-LOK model. **SPECS:** Aircraft-grade aluminum, hardcoat anodized, matte black finish. 2 1/2" (6.7cm) long, 1 1/4" (3.2cm) wide, 3/16" (1.6cm) high. 2.2 oz. YANKEE HILL BIPOD ADAPTER

Rock Solid Platform For Bipod Attachment

Lightweight, slimline design eliminates the "clunky" extra baggage look that goes along with trying to mate a bipod to a railed handguard. The rugged, aluminum platform with fixed attachment stud provides a superior fit to Weaver or Picatinny, accessory rails. Two hex-head crossbolts give uniform clamping pressure, so adapter remains rock solid while shooting. Specifically contoured to accept Harris and similar bipods that attach to a swivel stud. **SPECS:** Aircraft-grade aluminum, hardcoat anodized, matte black finish. 2 1/2" (6.7cm) long, 1 1/4" (3.2cm) wide, 3/16" (1.6cm) high. 2.2 oz. (62g) wt.

SADLAK INDUSTRIES M14/M1A REINFORCED QD BIPOD POST

Heavy-Duty Bipod Attachment Point

Reinforced post replaces the front sling swivel stud to provide a more secure attachment point for quick-detach bipods. Two steel plates provide a much greater surface area than the standard swivel post to help ensure a tight hold during heavy recoil and rough handling. One plate fits in the barrel channel, the other on the outside of the stock, and they clamp together with a steel Allen head screw and threaded swivel stud. Can be permanently bedded in the stock for added support. Accepts all bipods that mount to the standard sling swivel stud. **USA**
SPECS: Steel, Parkerized, matte black. 1 1/8" (3.7cm) long x 1/2" (1.3cm) wide. .6oz. (17g) weight. Drilling of stock required; instructions included.
#100-005-336 Reinforced QD Post, 6A39M09. \$ 45.99

E. ARTHUR BROWN S-LEVER

Quick Lock, Quick Release Adjustment Lever For Harris S-Series Bipods

Easy-to-install lever replaces the knob on Harris S-series bipods, so you can release the tension, tilt the rifle to level the scope crosshairs, and then with a quick flick of the lever, lock it down so you're ready to fire. Lightweight, fiber reinforced nylon lever is easy to grasp and spring-loaded so you can reposition it to prevent snags without losing the tilt setting. Installs with simple hand tools. Instructions included. **USA**
SPECS: Lever - Fiber-filled nylon, black. Hardware - Carbon steel, blue. Approximately 2" (5cm) long, 1 1/8" (3.5cm) deep, 1/2" (1.6cm) wide. .6 oz. (17g) weight.
#419-000-001 S-Lever For Harris Bipods, 9A12E59. \$ 14.99

KMW POD-LOC

No Tools Required To Lock & Unlock Bipod Swivel

Spring loaded lever replaces the Harris lock nut, provides plenty of leverage to lock or unlock the swivel using only your fingers. Provides a dust and dirt shield that protects the clutch mechanism from damage. Spring loaded lever may be parked against the stock to minimize snagging. Installation requires no modification to bipod. Used by the U. S. military, NSN 1005-09-000-2008. **USA**
SPECS: Synthetic handle, stainless steel mechanism, black, matte finish. Handle 1 1/2" (3.8cm) long. Fits Harris S-series bipods.
#100-000-326 Pod-Lock, 4K28A89. \$ 33.99

TANK'S RIFLE SHOP BIPOD SPEEDY KNOB

Fast, No-Tool Knob For Harris Bipod

Install or remove your Harris Bipod in just seconds. Mounts in place of the Harris mounting/attachment screw. Also works with Harris #6A Adapter for accessory rails. **USA**
SPECS: Steel, blue. .750" (19.2mm) diameter knob.
#901-100-000 Bipod Speedy Knob, 1K8E24. \$ 10.99

COMPETITIVE EDGE DYNAMICS CED7000 SHOT ACTIVATED TIMER

Compact & Lightweight So You Hardly Know It's There

Now you can practice improving your shooting times with a full-featured timer that's so compact you'll forget you're wearing it. Entire unit is roughly the size of a cell phone and just as easy to operate. Plus, it can be upgraded for wireless connection to a CED BigBoard or CED Time Keeper for displaying results up to 50 yards away from the timer. Contains 25 features including: • Custom PAR for single or multiple time settings • Variable delay intervals to .01 seconds • Easy-to-read illuminated LCD display • Split and first time shots on each shot fired • Countdown Mode • Memory storage including recall and unlimited shot record and review • 999.99 second time record capacity • Auxiliary jack for external loud horn, visual starts or target turning • Digital sensitivity shot detector with adjustable software filter • Rechargeable battery • Combined Comstock function • Multi-Par mode (for multiple Par setting from one timer activation) • Universal plug-in charger, wrist, and neck lanyards included. **CE7000 Chrome RF** comes with remote wireless capability already installed, allowing it to display results on a CED BigBoard or CED Time Keeper up to 50 yards away.
SPECS: High impact plastic case, black. 3 1/8" (9.8cm) long, 1 1/4" (4.4cm) wide, 1/8" (1.7cm) thick. 2.9 oz. (80g) wt. Universal plug-in charger, wrist, and neck lanyards included.
#399-000-008 CED7000 Timer, 9C00DCB. \$ 145.99
#399-000-014 CED7000 Chrome RF Timer, 9C150P09. 157.99

BELT CLIP - Convenient clip lets you carry your CED 7000-series timer on your belt or pants pocket, freeing both hands for shooting. High-impact polymer body with soft, protective rubber insert securely grips the timer and protects it from shock, while stainless steel buckle holds the timer close to your body. Sturdy piano hinge allows you to rotate the timer up to see the screen and work the controls.
#399-000-011 Belt Clip, 9C16D14. \$ 16.99

PACT CLUB TIMER III

Compact, Ergonomic Design Is Simple To Use; Ideal For Clubs Or Individuals

Compact, lightweight unit fits in the palm of your hand; provides highly accurate timer functions designed to make you a better, faster shooter. One of the very best choices for Club shoots because it is so simple and accurate to use. The rugged, impact resistant case is ergonomically designed to be easy to carry or the stainless steel clip will securely hold the unit onto your belt for individual practice sessions. The large, can't miss GO button can be set for either Delay or Instant operation. Delay Mode allows a delay from .01 second up to 99.99 second before the extra loud buzzer rings. In Instant Mode the Go button is pressed and held on the "Are You Ready?" command and the buzzer will sound instantly when the GO button is released. All critical shot information is shown on the digital, easy-to-read display, which can be set quickly to function in one of three different modes. Timer Mode: Displays the number of shots and time between shots, from first to last. Review Mode: Shows incremental times from the first to the last shot fired. Set Mode: Used to switch between Delay and Instant and enter or clear a PAR time. Uses a single, 9-volt battery (included), with auto power down after 15 minutes. **USA**
SPECS: Plastic housing, black. 3 1/4" (9.5cm) wide, 4 1/4" (12 cm) high, 1 1/8" (3.4cm) thick. Weighs 8 oz. (226g). Complete instructions included.
#100-002-498 Pact Club Timer III, 5A00KQI. \$ 139.99

MAGNETOSPEED V3 CHRONOGRAPH

Innovative Lightweight System Mounts Directly To Barrel

Barrel-mounted chronograph uses advanced electromagnetic sensors, instead of traditional optical sensors, to measure bullet velocity. Designed for barrels and suppressors 1/2" to 2" in diameter, this bayonet style chronograph easily mounts on rifles, pistols, shotguns, and even air rifles. User friendly, three button digital display unit calculates and saves ballistic data for up to 99 consecutive shots. Unit also includes a rapid-fire mode, capable of calculating rate of fire. Data can be easily transferred from the display unit, in spread sheet format, to your computer using a micro-SD card. Uses one 9 volt or two CR123 batteries. **USA**
SPECS: Kit includes display unit, sensor unit, connection cables, mounting hardware, micro-SD card w/adaptor, and complete instructions. Fits 1/2" (1.3cm) to 2" (5.1cm) diameter barrels.
#100-014-631 Magnetospeed V3 Chronograph, 6Z361H00. \$ 380.00

CALDWELL BALLISTIC PRECISION CHRONOGRAPH PREMIUM KIT

Convenient, Portable Unit Delivers Precise Velocity Measurements

Technologically advanced chronograph uses a high speed, 48 MHz processor to provide accurate ballistic data. Chronograph can be set to display velocity measurements in either fps or meters per second on the large LCD screen. Unit includes a light kit with 36 high resolution IR LED sensors for shooting in reduced light. Each unit is factory calibrated to be +/- .25% accuracy and measures speeds from 5 to 9,999 fps. Chronograph can be plugged into your smart phone or tablet using the unit's 15' audio cable. A free downloadable app displays and records the velocity of each shot along with other data identifying the current load and environmental conditions. App also calculates average velocity, standard deviation, minimum velocity, maximum velocity, and velocity spread for the shot string. Data can be exported through email, SMS messaging, or simply stored for later use. Extra wide sunshades ensure accurate readings on sunny or cloudy days. The sturdy, height adjustable tripod allows you to set up almost anywhere. Chronograph also works for archery, paint ball, and air gun use. Comes with a heavy duty carry bag made of ballistic fabric and equipped with heavy duty zippers. Chronograph uses one 9V battery (included), and 4 AA batteries (not included) for the light kit.
SPECS: Includes chronograph, IR LED light kit, light kit battery pack, tripod, 15' (4.6m) audio cable, and heavy duty carry case. Tripod adjusts from 15" - 42" (38.1cm - 106.7cm).
#100-014-067 Ballistic Precision Chronograph Premium Kit, 7A156C74. \$ 164.99

LABRADAR DOPPLER CHRONOGRAPH

A Super-Precise Chrony Unlike Any You've Ever Used and... Look Ma, No Sky Screens!

The LabRadar Doppler Chronograph provides handloaders with data on the velocity of their handloads with a degree of accuracy and ease of use not found with traditional chronographs. That's because, unlike your dad's chronograph that uses a pair of photo-electric sensors, the LabRadar uses radar to measure the velocity of the projectile coming from your rifle, pistol, or shotgun - even works on airgun pellets and arrows. The LabRadar unit sits next to the shooter and points toward the target - no more shooting through small screens. And the it is unaffected by lighting conditions. It'll measure velocities up to 3,900 ft. per second with 0.1 percent accuracy, at distances up to 100 yards. The LabRadar records shot series and calculates highs, lows, averages, standard deviation, and extreme spread. It even calculates IDPA power factors. Works with subsonic, transonic, and supersonic projectiles, plus it records an almost unlimited number of shots/strings. Even better, all that data can be downloaded to your PC when you're done for later analysis. Runs on six (6) inexpensive AA batteries. Can be mounted to any standard tripod with 1/4"-20 tpi threads OR Labradar's dedicated tripod, available below.
#100-025-230 LabRadar Doppler Chronograph, 4F00ESG. \$ 559.99
#100-025-232 LabRadar Carry Case, 4F42M79. 44.99

ALL-PURPOSE TRIPOD MOUNT - Provides the best support for your Labradar whether you're shooting prone from the ground or from a shooting bench. This tripod is adjustable so the legs will splay out flat for bench use, or you can set it up like standard tripod. Extra width on the legs gives added stability on those windy days. Lets you elevate your Labradar to optimize beam placement to keep the beam projected on the target and not be disturbed by grass or uneven ground. Removable mounting plate stays attached to the Labradar for easy set up and quick breakdown. Adjusts from 7" to 18" high; legs spread from 8" to 24". Folds up compactly for convenient storage.
#100-037-952 Labradar All-Purpose Tripod Mount, 4F00LAB. \$ 45.99

MAGNETOSPEED RIFLEKÜHL BARREL COOLER

Keep Your - Your Rifle's Barrel - Cool During That Critical Match

The Riflekuhl is designed to get barrel temperatures down to intended operating levels quickly. It slips into your rifle's chamber and pushes air down the barrel to speed up the cooling process. The Riflekuhl will bring rifle barrel down to ambient temperature in as little as 7 minutes. The turbocharged inspired impeller is engineered to produce great air flow in a small package. Ambient air is forced through the extendable nozzle down the bore of the rifle. The bright red Riflekuhl doubles as a chamber flag and features an exclusive built-in air filter to prevent dust and dirt from being blown into your rifle. Replaceable dust filter (50 Microns). A strong neodymium magnet secures device to chamber. Runs on one standard CR-123 lithium battery that lasts for dozens of range sessions. Spring loaded retractable nozzle is designed for compact storage. Belt/pocket clip included for easy carry. Chamber seal ensures maximum cooling efficiency. **USA**
#100-034-253 Riflekuhl Barrel Cooler, 6Z52C24. \$ 54.99

MANTIS TECH X SMART SENSOR SHOOTING PERFORMANCE SYSTEM

Dynamic Feedback from Monitor Attached Directly To Gun Helps You Improve Your Shooting

The Mantis X Smart Sensor attaches directly to your gun and continuously tracks the movement of the firearm before, during, and after every shot. The Mantis X Smart Phone App analyzes behavior, gives feedback, and provides coaching to make sure every shot counts. Works with dry fire, live fire, air-soft/CO2, and simulated weapons systems. X3 fits both rifles and pistols and features the same software as the original MantisX, but has a slimmer profile, longer battery life, and quick disconnect option. Collecting thousands of data points per second, the X3 analyzes your shooting in real-time. The X7 is designed for use on shotguns and comes with a barrel clamp adapter compatible with mounting on most shotguns. X10 comes with a barrel clamp adapter compatible with mounting on most shotguns AND rifles. Includes dynamic shooting analysis such as recoil analysis, holster draw analysis, shooting on the move, multi-target, and rapid-fire diagnostics and feedback. Additionally, the X10 provides shotgun sports analysis and archery analysis.

KESTREL 5700 ELITE WEATHER METER WITH LINK

A Whole Lot of Ballistic Computing Power - in the Palm of Your Hand

Kestrel's 5700 Elite Weather Meter with Applied Ballistics software is an upgrade of Kestrel's path-breaking but now-discontinued 4500 meter optimized specifically for the needs of long-range target shooters. The 5700 Elite measures up to 15 environmental parameters and lets you select either G1 or G7 ballistic coefficients (BC) when calculating bullet trajectory. It fits in the palm of your hand, yet offers the "Litz" (as in, noted ballisticsian Bryan Litz) measured BC library of over 225 bullets - the most extensive source of measured data for modern small arms bullets. Using its ballistics calibration feature, you can "train" your 5700's Applied Ballistics software to match a specific rifle based on observed long-range impacts. The result is an even more accurate set data points you can rely on in future calculations. With such easy access to highly accurate BC data, you've got everything you need to make a pin-point precise trajectory calculation - in a hand-held wind meter.

The 5700 Elite's many other features include easy-to-use, intuitive user-interface screen navigation, and improved screen resolution over earlier models - easier to see in varying light. The screen is switchable between white and red (NV - night vision) backlight. Runs on one (1) AA battery, and the battery compartment is sealed, so a battery leak will not fry your Kestrel's motherboard. User can select one of 4 languages: English, French, German & Spanish. Plus, there's integrated Bluetooth technology, so both your real-time environmental and logged data can be transferred wirelessly and automatically to your smartphone, Mac, or PC. The 5700 is Android AND iPhone compatible, so whatever phone OS has your allegiance, this Kestrel will play nice with it. It will also connect via LINK to a Bushnell CONX Rangefinder, enabling you to view results from the AB Kestrel right on your rangefinder. If you want to squeeze every last drop of performance from your rifle and your ammo, make sure you have a Kestrel 5700 Elite with you the next time you hit the range.

MAGNETOSPEED SPORTER CHRONOGRAPH

Hassle Free Way To Measure Bullet Velocity

Like the original Magnetospeed chronograph, the Sporter attaches directly to the barrel and is optimized for contoured (sporter) rifle barrels and long-barreled revolvers. It'll fit barrels from 1/2" to 1" in diameter and easily accommodates muzzle devices up to 2.7" long - excellent for modern sporting rifles like the AR-15. It has a simple, one-button cycling display that shows recent shot velocity and statistics, along with 3 sensitivity settings so you can fine-tune its readings. Runs on one 9-volt battery.

- #100-017-022 Sporter Chronograph, 6Z170J00..... \$ 179.00

ELITE TACTICAL SYSTEMS CAM MAGAZINE LOADERS

Helps You Load Mags Fast - Saves Time & the Skin on Your Thumbs!

The ETS loader is compact and lightweight so you'll always have it with you to assist in filling up the empties pronto. Stop fumbling with dropped cartridges and avoid the sore thumb after a full day on the range. Insert rounds individually or grab a whole row from an ammo box with the CAM loader. Made out of tough, super-durable reinforced polymer that'll hold up in all conditions. Will not become soft or brittle in heat or cold, and of course totally waterproof (resists gun cleaning chemicals, too. Spend less time loading mags and more time punching paper! Separate Pistol models for 9mm/40 and .45 ACP pistols; BOTH work on single- and double-stack mags. Rifle model works on mags AR-15, AR-308, AK-74, FN SCAR-16 or 17, H&K G36, Steyr AUG, H&K MP5, CZ Scorpion EVO, Colt SMG, IWI UZI, and more. It'll load mags for just about any rifle that shoots. 223 Rem, 5.56 NATO, .308 Win, 7.62 NATO, 7.62x39, and 9mm Luger.

Magazine not included.

MAGLULA AR-15/M16 BENCHLOADER™

Mag and Ammo Not Included

Takes The Pain Out Of Loading All Types Of AR-15/M16 Magazines - Including PMAGs!

Latest version of the famous Maglula BenchLoader makes it easy for you to load a 10-, 20- or 30-round magazine in less than 30 seconds. Load hundreds of magazines a day without the pain, pinched fingers, or bruises of hand-loading—perfect for military/law enforcement armorers, shooting ranges, and any high-volume AR-15 shooter. Foolproof design, with only one moving part, makes it impossible to load magazines incorrectly and requires no maintenance. The BenchLoader is gentle on feed lips, and its open loading tray makes it easy to inspect rounds for defects prior to loading. Numbered indicators show the number of rounds in the tray, so no more guessing how many rounds have been loaded. Easily handles a vast array of 5.56/.223 AR-15/M16/M4 magazines, including metal USGI-pattern mags like those made by Brownells, Magpul PMAGs, older Lancer models (may not work on new L5AWM), Surefire 60- and 100-round mags, SA80, H&K metal 416 (may not work on H&K plastic), and most polymer magazines. Easy to operate, even when wearing gloves in cold weather, and it's portable, too, so it fits easily in your range bag. SPECS: Reinforced molded hard polymer, black. Stainless steel magazine retention bar. 16.5" (42cm) long, 12.7 oz. (360g) wt. Does not load blank rounds; may not load rounds with irregular bullet styles.

MAG-PUMP MAGAZINE LOADER & MAG-DUMP UNLOADER

Load & Unload MSR Mags FAST - With NO Sore Fingers - The Only Acceptable Way to Pump & Dump!

With a Mag-Pump you can dramatically decrease the time it takes to load your MSR's magazines, without the pain and frustration of finger or hand fatigue. You'll load magazines as fast as you can crank the Mag-Pump's handle and keep the hopper filled with fresh rounds. No need to arrange or "pre-stage" the rounds: simply dump loose ammo into the hopper on the Mag-Pump's topside, insert your magazine below, and start cranking the handle. A clever safety system inside the loader prevents rounds from being fed in the wrong orientation. Reduces magazine loading time by more than 50%. Housing is made of lightweight, reinforced molded polymer that keeps it light enough to take to the range. The base plate can be bolted directly to a bench or other platform for extra stability while cranking. The Mag-Pump makes loading rifle magazines a breeze, meaning you'll spend more time pulling the trigger - the way a trip to the range should be! AR-15 Mag-Pump handles .223 Rem/5.56mm NATO ammo only. 9mm Pistol fits double stack mags for pistols chambered in 9mm Luger (9x19mm), including CZ, Glock, Ruger, SIG Sauer, Smith & Wesson and Springfield Armory. Both models come with a Mag-Dump unloader, described below.

- #100-023-829 AR-15 Mag-Pump Magazine Loader, Polymer, 2H123E49..... \$ 149.99
- #100-027-281 9mm Double-Stack Pistol Mag-Pump, 2H124J99..... 149.99

MAG-DUMP AR-15 MAGAZINE UNLOADER - As important as loading mags fast so you can keep a range session focused on what's important - shooting - sometimes you end a session with magazines that need to be unloaded. With the Mag-Dump, you can empty a fully loaded rifle/carbine mag in just a few seconds, without the sore thumb and cuts on your fingers from sharp feed lip edges. Constructed of hard-molded polymer, the Mag-Dump fits over the magazine, and when you rock the actuating arm back and forth, it quickly spits the cartridges out of the mag, one at a time. When you're done, hit the convenient release button to free your mag from the Mag-Dump... and you're ready to clear another mag. With the Mag-Dump, you don't have to leave mags sitting fully loaded for long periods of time, which can fatigue their springs and distort the feed lips, seriously impairing mag function.

MAGLULA SEMI-AUTO PISTOL UPLULA MAGAZINE LOADER

Loads Pistol Magazines
Fast, Protects Fingers &
Thumbs - Choose Your
Favorite Color!

Hand-held loader fills pistol magazines quickly and easily, so you spend less range time loading mags and more of it shooting. Smooth, positive operation protects fingers

and thumbs while you load hundreds of rounds painlessly—as fast as one round per second. Also lengthens magazine life by reducing wear and tear on feed lips. Hold the magazine upright with the bottom resting on a solid surface. Place the loader over the top of the mag, press down lightly while squeezing the lever to depress the follower, drop in a round, and work the lever quickly to push it into the mag. Repeat the process until the magazine is full. Constructed from tough, reinforced, black polymer. Locks closed when not in use, so it takes up minimal space in pocket or range bag.

UpLULA fits single- and double-stack 9mm, .357 SIG, 40 S&W, 10mm, and 45 ACP magazines, plus some .380 mags. Will not load Glock 6-round single-stack 45 caliber, Smith & Wesson 7-round single-stack 9mm, or magazines with less than 8mm between feed lips.

Baby UpLULA fits smaller single-stack pistol magazines, including most .22 LR, .25 ACP, .32 ACP, and .380 ACP. DOES NOT FIT Ruger® Mark I/II/III or 22/45™, S&W 22A/22S, Walther P22, Colt ACE, Glock® 42, Ruger® LCP® .380, or SIG P290 .380.

Use 22UpLULA™ for loading double-stack (wider than 1/2") .22 LR mags, including mags for 1911 .22 LR conversions.

1911AI™ Aligner Insert drops into UpLULA or 22UpLULA and prevents unwanted "play" or wiggling of single-stack 1911 mags inside the loader. Use with mags less than .57" (14.5mm) wide; wider mags will not fit. Sold in 2-paks.

SPECS: Reinforced hard polymer. UpLULA - 2 1/4" (7.3cm) long, 1 1/4" (3.2cm) wide, 3 1/4" (8.3cm) high. Fits single and double stack magazines from 9mm to .45 ACP. Baby UpLULA - 2 1/4" (6.3cm) long, 1 1/4" (2.4cm) wide, 3 1/4" (8.3cm) high. Fits single-stack .22 LR, .25 ACP, .32 ACP, and .380 ACP (9mm Short/Kurz) magazines.

SNIPER TOOL DESIGNS COSINE INDICATOR

Improves Accuracy
When Shooting Up Or Down Hill

Precision-machined, aircraft-grade aluminum instrument eliminates guesswork when adjusting your scope to fire at elevated, or very low targets. The orange needle moves with your rifle and displays a number that indicates the percent your rifle is off level. Multiply the indicated percent by the target distance to easily calculate the adjusted distance for gravity. Dovetailed bottom fits onto the aluminum mount (listed below) which fits Picatinny and Weaver-style rails. Or, mount an extra Weaver-style ring on your scope tube and clamp the Indicator in the ring's dovetail. Ring not included. Lets you keep your face on the cheekpiece and see the Indicator. **Mil-Spec** version is waterproof for 35 minutes and 1 meter of water. 

SPECS: Aircraft-grade aluminum, anodized, black. **Cosine Indicator** - 1" (2.54cm) diameter of dial, .75" (1.9cm) thick. **Mount** - 1.37" (3.5cm) wide, 1" high.

SMITH ENTERPRISES STRAP-ON CHEEK PAD

Provides Positive Cheek-To-Stock
Contact For Improved Shooting
Form & Comfort

Comfortable, strap-on cheek pad helps you gain a positive and consistent cheekweld on buttstocks without an integral cheekrest or raised comb. Felt-like, waterproof inner pad with overlaid PVC shell cushions recoil and minimizes perceived vibration, so your face takes less of a beating when firing large caliber rifles or full automatic weapons. Outer covering of heavyweight, 1000 Denier ballistic cloth resists abrasion and perspiration. Three, extra-thick, hook-and-loop straps with loops allow you to cinch it down tight on the stock for absolutely no movement under recoil. Installs and removes in just seconds. Designed originally for the M14/M1A, but fits equally well on sporting rifles and shotguns. 

SPECS: 1000 Denier nylon, black or tan. 1/2" (12.7mm) thick.
#851-000-073 Tan Strap-On Cheek Pad, 1E62A99. \$ 69.99

I.N.C. INC HAND-EEZ PALM SWELL

Sorbothane® Absorbs Shock & Vibration

Fills the hollow of the hand with a cushion of soft, recoil-absorbing Sorbothane rubber to ease finger and hand cramps and shooter fatigue. Makes any rifle or shotgun more comfortable to shoot. Peel-'n-stick adhesive installs easily. 
SPECS: Sorbothane rubber, checked face. 4" (10cm) long, 1 1/2" (3.8cm) wide Available right- (R/H) or left-hand (L/H).

#440-705-100 Right-Hand Hand-Eez, 4D8Q39. \$ 9.69
#440-705-101 Left-Hand Hand-Eez, 4D8J39. \$ 9.69

KICK-EEZ™ CHEEK-EEZ

Softens Felt Recoil,
Prevents Cheek Bruising

Peel and stick to any cheekpiece and put an end to feeling beat up the day after shooting. Genuine, recoil absorbing Sorbothane®, is pre-cut with an adhesive back to fit quickly on shotguns or rifles. Four thicknesses for fast height adjustments. 
SPECS: Sorbothane rubber, black. 6" (15cm) x 5" (12cm), 1/8" (1.5mm), 1/4" (3.1mm), 3/8" (4.7mm), 1/2" (6.3mm) thick.

SHORT ACTION PRECISION TWO-ROUND HOLDER

Lets You Keep Two Spare Rounds
EXACTLY Where You Need Them

This simple two-loop ammo holder attaches with Velcro® to the side of nearly any rifle near the ejection port and holds an extra two rounds of .308 Winchester / 7.62 NATO ammo right where you need them in a pinch. Holder accepts case bodies .450" to .550" in diameter, so it'll do for other rifle ammo, too.

BROWNELLS HANDGUN SAFETY TRAINER KIT

Dummy Ammo For
"Safe-Handling" Demos

Gives handgun safety trainers the most popular calibers for the most common handguns; all in one box and ready to use. Saf-T-Trainer rounds are a bright, orange color to prevent confusion; readily recognizable as dummy ammo. Kit contains ten rounds of each caliber, all packed in one box. 
SPECS: Polypropylene box, clear. 10 1/4" (27.3cm) x 7" (17.7cm) x 1 1/2" (4.1cm). Orange plastic rounds. Contains (10 each) .17 HMR, .22 LR, .22 Mag., .25ACP, .32ACP, 7.62x25, .380ACP, 9mm Luger, 9mm Makarov, .357 SIG, .38 SPL, .40S&W, 10mm, .44Mag, .45ACP.

#080-000-072 Handgun Safety Trainer Kit, 8K55L99. \$ 61.99

A-ZOOM AMMO SNAP-CAPS

Practice Loading, Unloading Dry Firing

Machined, aluminum body with synthetic, cushion primer withstands repeated cycling and saves wear and tear on your firing pin. Shaped like loaded rounds for correct loading and feeding. Handgun shooters can practice reloading and trigger squeeze. Competitive shooters and hunters can improve rifle handling proficiency. 
SPECS: Aluminum, black, hard anodized finish.

CHAMBERSAFE

CHAMBER BLOCKING DEVICE

High Visibility Confirmation That
Firearm Is Unloaded

Bright orange chamber blocker fits in the ejection port and physically prevents chambering of a round to provide positive visual confirmation that the firearm is unloaded. Removes instantly by pulling the large, easy-to-grasp ring to clear the chamber and bring the weapon into operation. Use in any situation that requires fast, visual verification of firearm status—law enforcement, military, gun shops, as well as hunting, range, and competition applications. Fits semi- and full-auto rifles and

100 STRAIGHT WOOLY SNAP CAP

Prevents Firing Pin & Rust Damage

Spring-loaded primer plunger prevents firing pin damage during dry-firing exercises. Treat the wool chamber mop with your favorite gun oil to help prevent rusty chambers during storage. 
SPECS: Aluminum head, wool mop. 3 1/2" (8.8cm) long. Sold 2 per package.

#365-115-012 12 Ga. Wooly Snap Caps, 5F23J14. \$ 32.99

MAGPUL .223/5.56 DUMMY ROUNDS

For Testing & Dry-Firing An Unloaded Rifle

Solid, inert, dummy rounds let you safely test the feeding, extraction, and magazine function of your rifle without the worry of accidental discharge. Lets you dry fire without risking damage to the firing pin. Glass-fiber reinforced polymer material can't corrode or cause corrosion. Precision molded to duplicate the Remington .223/5.56mm NATO round in five critical dimensions, and can be cycled and ejected the same as live ammunition. Sold in 5-Paks. 
SPECS: Fiberglass-reinforced injection-molded polymer, black.

#100-004-885 .223/5.56 Dummies, 5-Pak, 3K4Q49. \$ 4.70

CARLSON'S SNAP CAPS

Dry Fire Without Damaging Your Firearm

Snap caps are great for dry fire practice because they let you concentrate on keeping the firearm steady during the trigger pull, which helps eliminate flinch when using live ammo. Solid aluminum Rimfire snap caps protect the breech face and will last for hundreds of "shots". Centerfire Pistol and Rifle caps have a solid aluminum body and a spring-loaded brass "primer" that absorbs firing pin impact to prevent damage to the tip of the firing pin. Shotgun snap caps feature a wool chamber mop that can be soaked with gun oil or preservative to prevent a rusty chamber during long-term storage; available in your choice of a brass or aluminum base.

SPECS: Rimfire - Aluminum body, fits .22 LR rifles and pistols. Pistol/Rifle - Aluminum body, brass "primer." Shotgun - Brass or aluminum base, brass "primer" insert, wool mop, 2 3/4" (7cm) long.

SAFETECH SAF-T-ROUND

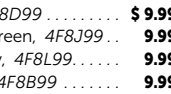

Visible Proof That Chamber Is Empty; Firearm Is Safe

Bright, international orange tab gives clear indication of weapon condition. Provides the user, range safety officer and bystander alike with a visual and physical method of determining that a firearm is safe. Machined, brass case head lets you rapidly work the action and eject the Saf-T-Round. Molded from heat-resistant nylon polymer to provide lasting durability; won't deform after repeated use.  **SPECS:** Polymer, international orange, brass head. Sold as one per pack.

RAVEN CONCEALMENT SYSTEMS TOPSTOP AR-15 UPPER RECEIVER COVER

Secures & Protects a Detached Upper for Storage & Transport

The TopStop cover snaps on the underside of a mil-spec AR-15 upper receiver when it's detached from the lower. It secures the charging handle and bolt/carrier group and keeps dirt, dust, and other contaminants from getting inside the receiver. Made of a super-tough, flexible polymer that's impervious to most solvents and chemicals. Great for storing or transporting spare upper receivers - and ideal for low-profile concealment bags that require the rifle to be broken down to fit. You don't realize how much you need one of these until you use it! A variety of colors to choose from, including bright Safety Orange and High-Visibility Yellow. 

#100-030-844 TopStop Cover, Black, 4F8D99 \$ 9.99

TRIPLE-K DELUXE SNAP CAP FOR RIFLE/ PISTOL/SHOTGUN

Save Firing Pins - Shoot Better
With Safe, Dry-Fire Practice

The spring-loaded "primers" in these snap caps act much like a live primer and cushion the blow so firing pin and bushing damage won't occur. Bright color and "different" feel to prevent mixing with live rounds or function-testing dummies. (Don't use snap caps as dummies - they don't duplicate loaded round weight/balance).  **SPECS:** Brass base, plastic body.

CLOUD DEFENSIVE REIN WEAPON LIGHTS

Extremely Bright -
Up to 1,400 Lumen Output;
Charger Included;
Standard & "Micro" Models

The REIN represents a quantum leap forward in both performance and critical features that shooters need in a gun-mounted light. Putting out well over 60,000 candela at 1,400 lumens, it's one of the most powerful weapon lights on the market. The REIN is fully compatible with any platform that allows for traditional Picatinny, M-LOK® or KeyMod light mounts.

Standard REIN Light Complete Kit includes REIN light assembly, remote switch tail cap assembly with integrated pushbutton, 2 LCS side plates with hardware, 1 Picatinny rail mount with all mounting hardware, 1 Cloud Defensive Nitecore Charger, 1 micro USB to USB cord, 1 Samsung 30Q 18650 rechargeable battery. Light body is precision machined from certified 6061 T6 aluminum, Type III hard-coat anodized. No CR123 batteries allowed! *Use of CR-123 batteries voids warranty.* Use only the supplied Samsung 18650 30Q with the REIN. The 30Q battery has more output with shorter run-time of 85-90 minutes. Accepts ALL protected and unprotected 18650 batteries. Accepts both button-top and flat-top batteries. NOTE: Various battery sizes will require use of the provided Battery Jack feature. **Micro** model puts out well over 55,000 candela at 1,300 lumens, it is one of the most powerful weapon lights on the market. Micro Kit includes REIN Micro, 1 remote switch tail cap assembly with integrated pushbutton, 2 LCS side plates with hardware, Picatinny rail mount for the REIN with all mounting hardware, 1 Cloud Defensive Nitecore Charger, micro USB to USB cord, and 1 Orion 18350 battery.

CRIMSON TRACE CMR-301 RAIL MASTER PRO LIGHT/GREEN LASER

TWO Powerful Forms
of Illumination in a Compact,
Easy-To-Mount Unit

The CMR-301 Rail Master Pro pairs up a blinding 1,000 lumen light with a powerful green targeting laser to significantly boost the effectiveness of your tactical/home-defense rifle or carbine. The extra-bright green laser enables targeting in a variety of lighting conditions. The CMR-301 is user programmable and may be operated with a pressure pad or tail-cap switch. Fits standard AR-15s and modern sporting rifles with M1913 Picatinny or similar accessory rails measuring at least 2 3/4" in length. The Class 3R 5mW green laser's dot measures 5" dia. at 50 yards. Runs on one CR-123 battery.

CRIMSON TRACE CMR-209 COMPACT RAILMASTER UNIVERSAL PISTOL LIGHT

Lightweight, Affordable, Easy
To Swap from Gun To Gun &
200 Lumen Output

The CMR-209 is an excellent multi-platform lighting solution when a tight budget is a factor. Because the universal mounting system works with virtually any pistol, rifle, or shotgun equipped with a Picatinny or Weaver rail, you can swap the CMR-209 back and forth between multiple guns. As a bonus, the feel and operation of the light stays the same, regardless of which gun you're using. There's a tough, lightweight, water-resistant, reinforced polymer housing, and a simple screw-clamp with recoil lug for engaging the gun's rail. The CMR-209 runs on one CR-123 battery and uses a simple tap-on/tap-off instant activation control, so when you need the light, it's there. The output is a bright, clean 200 lumens of white light that'll run for up to 1.5 hours. Fits pistols with M1913 Picatinny (or similar) accessory rail measuring at least 1" from recoil lug to triggerguard. Peace of mind, consistency, and value. What more could you want?
